Internship Lesson Plans - Week 1

September 7th - September 11th

HS/TE21/0027

Department of English Language Teaching

University of Kelaniya

Name of the Lesson - "Compare and Win!" - Comparative and Superlative Adjectives			
Name of the teacher	HS/TE21/0027	**Class**	Grade 8-A Grade 8-B CEFR A2
Date and duration	11th September 2026 16th September 2026 40 minutes*2	**Number of students**	Grade 8B- 20 Grade 8A-18
Technology Integration		Smart Board, PowerPoint presentation	

Classroom Profile:

The class consists two parallel grade 8 classes , 8A and 8B, with 20 and 16 students in each class, students who follow the Sri Lankan National Curriculum. The first language of all learners is Sinhala; however, English will be used throughout the observation lesson. The learners are approximately at CEFR A2 level and need clear instructions, visual support, repetition and controlled practice. The lesson is based on Unit 5, pages 55-57 of the Grade 8 English Pupil's Book and focuses on Competency Level 6.6: using comparative and superlative adjectives appropriately to compare nouns.

Rationale:

The lesson follows a Communicative Language Teaching approach with guided discovery and an explicit focus on form. Learners first notice differences through colourful Smart Board visuals before the grammatical rules are presented. The PowerPoint then highlights the positive, comparative and superlative forms and the main formation rules. The individual "Rainbow Park" task provides quick controlled practice and allows the teacher to monitor each learner. The final printed quiz is completed collaboratively by two teams, Girls and Boys, under an eight-minute Smart Board timer. This gives learners a motivating opportunity to retrieve and apply the rules while allowing the teacher to conduct a short formative assessment within the 40-minute period.

Main Aim:

The lesson aims to enable students to form and use comparative and superlative adjectives accurately when comparing people, animals and things in simple spoken and written sentences.

Intended Learning Outcomes:

At the end of the lesson, students will be able to,

- identify the positive, comparative and superlative forms of common adjectives;
- apply the main formation rules: -er/-est for short adjectives, doubling the final consonant where appropriate, changing consonant + y to i, using more/most with long adjectives, and using common irregular forms;
- use "than" correctly in comparative sentences and "the" before superlative forms;
- complete the four-item Rainbow Park gap-filling task independently;
- work collaboratively to answer the final team quiz within the given time.

Personal Aims:

- To provide concise and clear instructions suitable for lower-level Grade 8 learners.
- To use the Smart Board and PowerPoint purposefully to make grammar rules visible and memorable.
- To monitor individual performance during the Rainbow Park task and provide immediate support where necessary.
- To manage the Girls vs Boys team quiz fairly and keep the class focused during the eight-minute timer.
- To manage the 40-minute observation lesson confidently and complete all planned stages on time.

Skill Integration:

Speaking and Writing are the main integrated skills. Reading and Listening are also practised through the PowerPoint examples, oral responses, the individual gap-filling task and the final team quiz.

Anticipated Problems:	**Solutions to Anticipated Problems:**
A. Students may confuse comparative and superlative forms. B. Students may forget to double the final consonant in forms such as big-bigger-biggest and fat-fatter-fattest. C. Students may form incorrect combinations such as “more bigger” or “most fastest”. D. Students may forget “than” after comparative adjectives and “the” before superlatives. E. Some learners may take too long during the individual task or the team quiz. F. The Smart Board or timer may fail.	A. Keep the visual rule on the screen: two things = comparative; three or more = superlative. B. Highlight the one-vowel + one-consonant rule and model the doubled letter clearly in red. C. Contrast the incorrect and correct forms and remind learners that short adjectives take -er/-est. D. Keep the sentence frames “A is bigger than B” and “C is the biggest” visible during practice. E. Give a clear time warning, monitor actively, and stop each task when the planned time ends. F. Use the whiteboard and a phone/clock timer as a backup; the quiz is already available in printed form.

Assumptions:

- Students already know some basic adjectives such as big, small, tall, fast and beautiful.
- Students can understand short classroom instructions in English with visual support.
- Students can read short multiple-choice items and write/select one-word answers.
- Students are familiar with individual work and simple team competition.

Learning Materials:

- Smart Board and final PowerPoint presentation (Textbook pages 55-57).
- Grade 8 English Pupil’s Book, Unit 5, pages 55-57.
- Printed “Rainbow Park” individual activity sheet - one copy per student (Appendix A).
- Printed final quiz sheets - one for Team Girls and one for Team Boys (Appendix B).

- Eight-minute countdown timer displayed on the Smart Board.
- Whiteboard, markers, pens/pencils and teacher answer key.

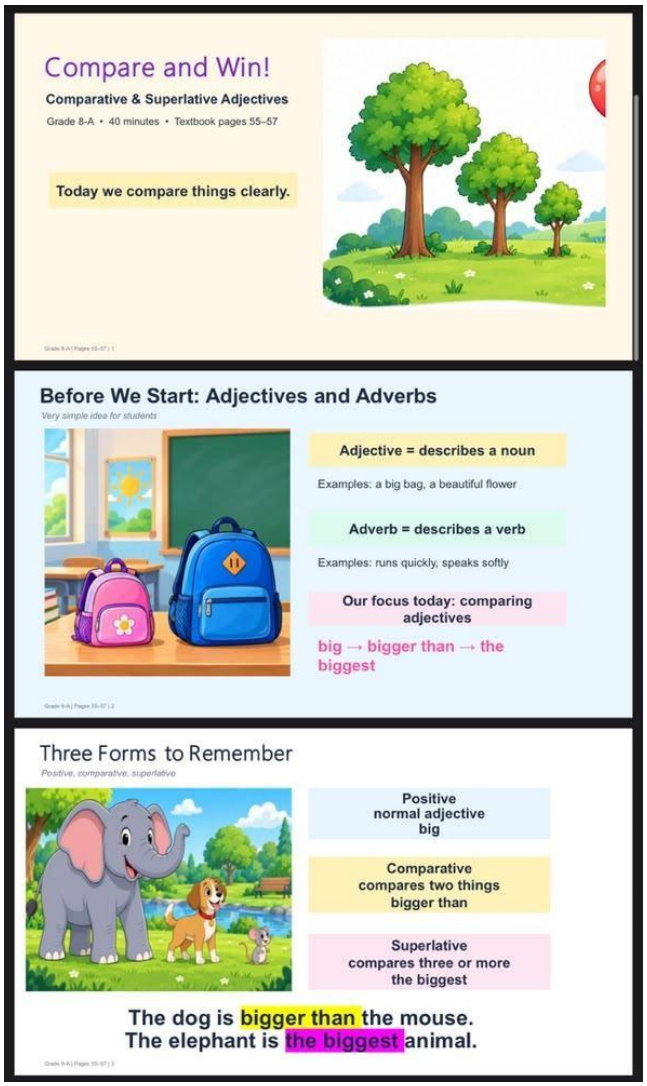

Stage	Aim	Procedure	Interaction patterns	Time
Warm-up	To activate prior knowledge and clarify the lesson focus.	T displays the "Before We Start" slide. Ss identify the adjective and the adverb in two simple examples. T briefly states that adjectives describe nouns and that today the class will compare nouns. T introduces the lesson title "Compare and Win!".	T-Ss Ss-T	4 minutes
Lead-in	To introduce comparison through familiar visuals.	T displays the colourful bag/comparison picture and elicits big - bigger - biggest. T introduces the three forms: Positive = normal adjective; Comparative = compares two things; Superlative = compares three or more things. T checks understanding with two quick oral questions.	T-Ss Ss-T	5 minutes
Pre-task	To present the rules and sentence patterns clearly.	Using the PowerPoint, T teaches the main rules: short adjectives take -er/-est; one vowel + one final consonant is doubled; consonant + y changes to i; long adjectives use more/most; and special forms such as good-better-best and bad-worse-worst. T then highlights "comparative + than" and "the + superlative". Ss repeat selected examples and answer brief concept-checking questions.	T-Ss Ss-T	11 minutes

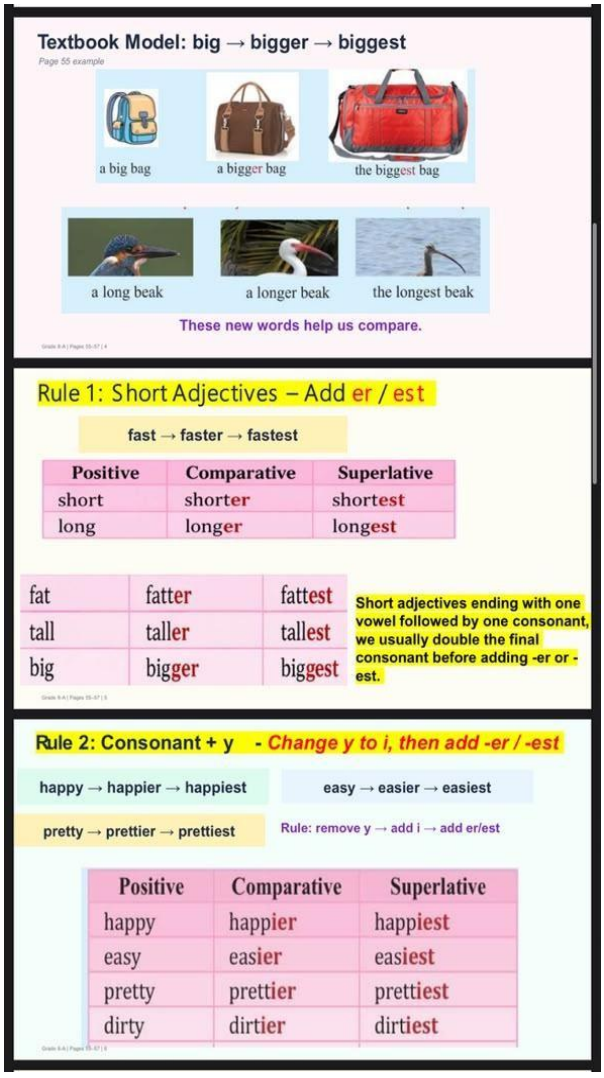

Stage	Aim	Procedure	Interaction patterns	Time
While-task	To provide guided, individual and collaborative practice.	Part 1 - Guided practice (5 min): Ss complete the three bag sentences orally after a brief pair discussion. T confirms the answers. Part 2 - Rainbow Park individual task (4 min), Each S completes the four printed gap-fill items independently. T monitors and then checks the answers quickly. Part 3 - Team Quiz (8 min): The class is divided into Team Girls and Team Boys. Each team receives one printed quiz sheet and chooses one writer. Team members discuss and agree on answers while an 8-minute countdown timer is displayed on the Smart Board. At zero, both teams stop writing.	T-Ss S Ss-Ss Ss-T	17 minutes
Post-task	To assess learning, give feedback and close the lesson positively.	T checks the two quiz sheets with the class, awards one point for each correct answer and announces the winning team. T ends with a rapid recap, positive = normal adjective; comparative = two things + than; superlative = three or more + the. T provides immediate feedback regarding two quizzes.	T-Ss Ss-T	3 minutes

Total Time: 40 minutes

Appendix A

Teaching – PPT- Presentation stage

Rule 3: Long Adjectives- More than six letters

Use more / most

beautiful → more beautiful → most beautiful

Positive	Comparative	Superlative
beautiful	more beautiful	most beautiful
enjoyable	more enjoyable	most enjoyable
attractive	more attractive	most attractive
dangerous	more dangerous	most dangerous
helpful	more helpful	most helpful

Rule 4: Special Words

Learn these separately

good	better	best
bad	worse	worst
old	older elder	oldest eldest
far	farther further	farthest furthest

good → better → best

bad → worse → worst

old → older / elder → oldest / eldest

far → farther / further → farthest / furthest

Remember the Sentence Patterns

This is the most useful part for writing

Two things: comparative + than

A car is faster than a bicycle.

Three or more: the + superlative

An aeroplane is the fastest.

Do not forget: than / the

Guided Practice

Say the missing words together

Fill in:

1. The blue bag is _____ than the pink bag.
2. The green bag is the _____ bag.
3. The pink bag is _____ than the blue bag.

Answer bank: bigger | biggest | smaller

Quick Activity: Rainbow Park

Simple gap filling — 4 minutes

Quick Activity: Rainbow Park

Simple gap filling — 4 minutes

Choose the correct word.

1. The apple tree is _____ than the orange tree. (tall / taller / tallest)
2. The red balloon is the _____ balloon. (big / bigger / biggest)
3. The yellow flower is _____ than the white flower. (bright / brighter / brightest)
4. The yellow flower is the _____ flower. (bright / brighter / brightest)

Game time

Two teams: Boys vs Girls

Team Boys

Team Girls

Appendix B

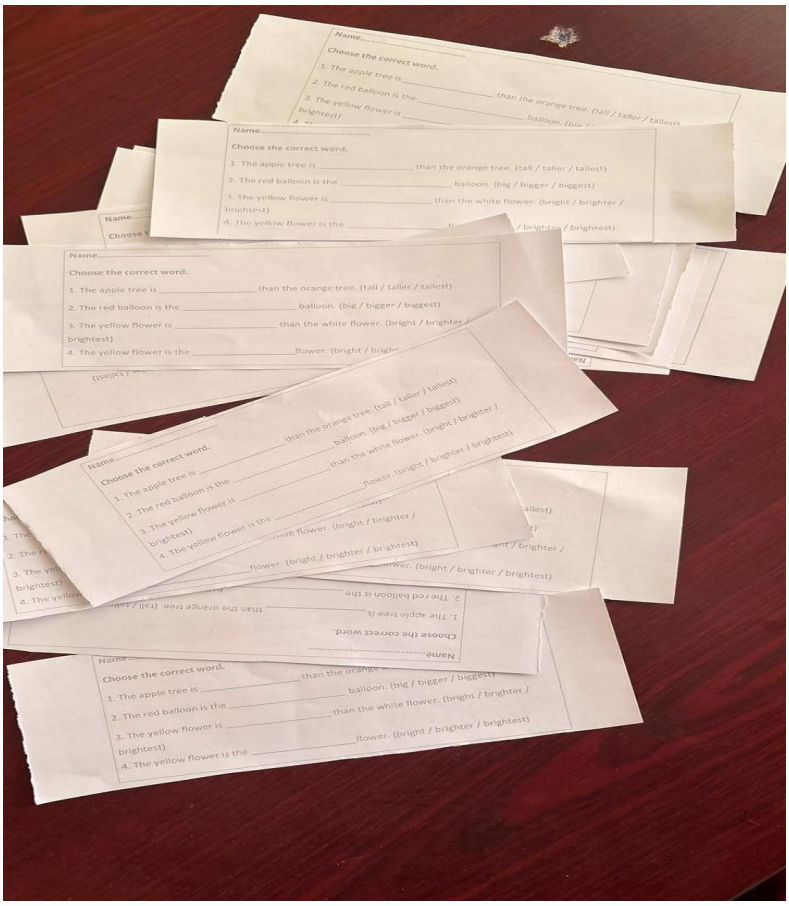

Rainbow Park - Individual Activity

Choose the correct word.

1. The apple tree is _____than the orange tree. (tall / taller / tallest)
2. The red balloon is the _____balloon. (big / bigger / biggest)
3. The yellow flower is _____than the white flower. (bright / brighter / brightest)
4. The yellow flower is the _____flower. (bright / brighter / brightest)

Teacher Answer Key:

1. taller 2. biggest 3. brighter 4. Brightest

Appendix C

Final Team Quiz - Girls vs Boys

1. What is the comparative form of "big"?

A. biggest B. bigger C. more big D. biggest

2. Choose the superlative form of "fast".

A. faster B. most fast C. fastest D. more faster

3. Complete: A car is _____than a bicycle.

A. fast B. fastest C. faster D. most fast

4. Choose the correct sentence.

A. This is the most beautiful flower.

B. This is beautifullest flower.

C. This is more beautifulest flower.

D. This is the more beautiful flower.

5. Which set is correct?

A. good-gooder-goodest B. good-better-best

C. good-more good-most good D. good-best-better

6. Complete: Jupiter is the _____planet.

A. bigger B. biggest C. more big D. most big

7. What word usually comes after a comparative adjective?

A. the B. than C. most D. very

8. What word usually comes before a superlative adjective?

A. than B. an C. the D. more

9. Neptune is the _____planet.

A. cold B. colder C. coldest D. more cold

Teacher Answer Key:

1-B, 2-C, 3-C, 4-A, 5-B, 6-B, 7-B, 8-C, 9-C

Name of the lesson: “What Were You Doing?” - (Past Continuous Tense)			
Name of the teacher	HS/TE21/0027	**Class**	7 A 7 B CEFR A1
Date and duration	08 September 2026 09 September 2026 10 September 2026 3 × 40 minutes = 120 minutes (2 hours)	**Number of students**	29 - Grade 7A 29 - Grade 7B

Classroom profile:

The lesson is designed for two parallel Grade 7 classes, 7A and 7B, with 29 students in each class. The learners follow the Sri Lankan national curriculum and represent a mixed-ability Grade 7 group. The first language of all learners is Sinhala; however, English will be used throughout the lesson. As 08 September is the teacher’s first meeting with the learners, the first period begins with a short name-and-hobby ice-breaker to establish rapport and learn students’ names. The grammar content is scaffolded through familiar pictures, short textbook statements, guided discovery, teacher modelling, pair work and a movement-based miming game. The Grade 7 Teacher’s Guide identifies CEFR A1 as the essential baseline for the average Grade 7 learner; therefore, instructions, examples and production tasks are kept short, concrete and highly supported.

Rationale:

This three-period lesson follows a communicative, task-based and guided-discovery sequence. On Day 1, students first encounter the target structure through meaningful visual contexts from the Pupil’s Book and try to match pictures with sentences before the rule is explained. The teacher then clarifies the meaning and form of the past continuous. On Day 2, the negative form is introduced and reinforced through a boys-versus-girls miming game that requires learners to understand an action, mime it and produce a complete past-continuous sentence. On Day 3, learners consolidate the language through Pupil’s Book Activities 6 and 7 by describing personal schedules, reporting a friend’s actions and comparing activities using positive and negative forms. The sequence therefore moves from discovery to guided practice and finally to meaningful personal use.

Curriculum alignment:

Primary: Competency 6 - Uses English grammar for the purpose of accurate and effective communication, Competency Level 6.1 - Constructs simple sentences, including the past continuous form. Supporting oral competency: Competency Level 8.17 - Describes continuing actions using present, past and future continuous forms.

Main aim:

The lesson aims to enable students to understand and accurately use the past continuous tense in positive and negative forms to describe actions that were in progress at a particular time in the past and to compare their own activities with those of others.

Intended Learning Outcomes:

At the end of the three-period lesson sequence, students will be able to,

- Identify actions in progress in the past from pictures and short contextual statements.
- Recognise and recall the form was/were + verb-ing.
- Construct simple positive past continuous sentences with appropriate use of was/were.
- Construct negative past continuous sentences using was/were + not + verb-ing.
- Produce oral past continuous sentences while interpreting actions in the miming game.
- Compare their own daily schedule with a friend's schedule using positive and negative past continuous forms.

Personal aims:

- To build a friendly relationship with both classes during the first lesson.
- To give short, clear instructions and check understanding before each activity.
- To encourage lower-confidence learners to participate through visuals, pair work and team games.
- To manage movement and competition in the miming game effectively.
- To provide immediate corrective feedback without discouraging fluency.

Skill integration:

- Speaking is the main productive skill. Listening, reading and short guided writing are integrated.

Anticipated problems:	Solutions to anticipated problems:
• A. Students may confuse was and were. • B. Students may omit -ing or use the simple past form instead. • C. Students may find the negative pattern difficult. • D. Shy learners may hesitate to mime or speak in front of peers. • E. The competitive game may become noisy or take too long.	• A. Keep a subject + was/were mini-grid visible on the board. • B. Model and drill a few high-frequency verb-ing forms before production. • C. Contrast positive and negative sentences side by side and underline not. • D. Allow volunteers first and let team members support the speaker. • E. Use clear turn-taking rules, a fixed number of rounds and a visible score.

Assumptions:

- Students know common subject pronouns and the basic forms was and were.
- Students can recognise common action verbs such as eat, sleep, read, play, write and study.
- Students can read short textbook statements and copy short notes with teacher support.
- Students can work in pairs and participate in simple team activities when instructions are clear.

Learning materials:

- Grade 7 English Pupil's Book, Unit 08, pages 91-93 (Appendix H).

- Three visual prompts: Menik River bathing, Sigiriya guide, Nallur Kovil devotees (Appendix A).
- Small name-and-hobby cards/chits and pins for the Day 1 ice-breaker (Appendix G).
- Whiteboard and markers.
- Student note / board summary on the past continuous (Appendix B).
- Box of action chits for the miming game (Appendix C).
- Schedule grid and sentence frames for Activities 6 and 7 (Appendices D and E).
- Teacher formative assessment checklist (Appendix F).

Day 1 - 08 September 2026 (40 minutes): Ice-breaker, discovery and positive past continuous

Stage	Aim	Procedure	Interaction patterns	Time
Ice-breaker	To establish rapport and learn students' names and interests.	T gives each learner a small chit/card and a pin. Ss write their name and draw one favourite hobby. Ss pin the card to their uniform. T moves around the room, asks a few learners about their drawings, and invites 4-5 volunteers to introduce their name and hobby in one short sentence. T responds positively and uses names during the rest of the lesson.	T-Ss Ss-T S-Ss	8 minutes
Pre-task / Discovery	To activate curiosity and help learners notice actions in progress before the grammar rule is taught.	T displays/pastes Picture A (people bathing), Picture B (guide at Sigiriya) and Picture C (devotees praying). T asks Ss to observe the pictures silently. Ss open Pupil's Book p.91, read the three short statements and individually choose the most appropriate statement for A, B and C. Ss compare answers with a partner. T elicits answers without correcting every language error immediately, encouraging discovery. Expected matches: A - A lot of people were bathing in the Menik River. B - A guide was explaining the history of the rock to a group of tourists. C - A lot of devotees were praying at Nallur Kovil.	T-Ss S Ss-Ss Ss-T	10 minutes

Stage	Aim	Procedure	Interaction patterns	Time
While-task / Presentation	To clarify the meaning and positive form of the past continuous.	T underlines were bathing, was explaining and were praying in the three sentences. T elicits what the actions have in common, they were happening at a particular time in the past. T explains the textbook meaning: the action started before a certain past time and was still in progress at that time. T presents the formation: was / were + verb + ing. T draws a quick subject grid: I/he/she/it - was; you/we/they - were. T models 4-5 familiar examples and Ss repeat / complete orally.	T-Ss Ss-T	15 minutes
Guided note	To provide a short written reference for later practice.	T gives/writes/display the short student note in Appendix B. Ss copy only the core rule and two examples. T checks notebooks while learners write.	T-Ss S	5 minutes
Closure / Exit check	To check immediate understanding of positive form.	T says three subjects and actions (e.g., she/read; they/play; I/study). Ss respond orally with complete past continuous sentences. T praises correct was/were choices and previews that the next lesson will show how to make negative sentences.	T-Ss Ss-T	2 minutes

Day 2 - 09 September 2026 (40 minutes): Negative form and miming game

Stage	Aim	Procedure	Interaction patterns	Time
Lead-in / Recap	To reactivate the positive form from Day 1.	T briefly shows one of the picture prompts again and asks: “What was happening?” T writes one correct response and asks the class to recall the formula was/were + verb-ing.	T-Ss Ss-T	5 minutes
Presentation - Negative form	To introduce and distinguish the	T refers to Pupil’s Book p.92: “I wasn’t watching TV at 3 p.m.; I was playing.” and “Kamal wasn’t having	T-Ss Ss-T	10 minutes

Stage	Aim	Procedure	Interaction patterns	Time
	negative past continuous form.	breakfast at 7 a.m.; he was getting ready to go to school." T highlights not / wasn't / weren't and presents the structure: was / were + not + verb + ing. T contrasts: She was reading. / She was not reading. They were playing. / They were not playing.		
Controlled practice	To check accurate formation before the game.	T gives 4 quick oral prompts. Ss change positive sentences into negative or choose wasn't / weren't. Examples: He was sleeping - He wasn't sleeping. They were studying -They weren't studying. T corrects as a class.	T-Ss Ss-T	5 minutes
While-task / Miming game	To practise understanding and producing past continuous sentences in an enjoyable communicative context.	T divides the class into two teams: Boys and Girls. One learner from a team picks an action chit from the box without showing it and mimes the action. The team has a short time to guess and produce a complete sentence using the learner's name, e.g., "Nethmi was eating her breakfast." One point is awarded for identifying the action and one point for a grammatically correct past continuous sentence. To recycle the negative form, T may ask a follow-up such as "Was Nethmi sleeping?" The team answers: "No, she wasn't sleeping. She was eating her breakfast." Teams alternate turns. T keeps the score visible.	T-Ss S-Ss Ss-Ss Ss-T	17 minutes
Feedback / Closure	To consolidate positive and negative patterns and end the competition positively.	T announces the game score, praises both teams, and asks the class to say the two formulas together: positive - was/were + verb-ing; negative - was/were + not + verb-ing. T corrects one or two common errors heard during the game.	T-Ss Ss-T	3 minutes

Day 3 - 10 September 2026 (40 minutes): Pupil's Book Activities 6 and 7, feedback and consolidation

Stage	Aim	Procedure	Interaction patterns	Time
Lead-in / Quick recap	To retrieve the target form before textbook consolidation.	T writes two incomplete examples on the board: "She ____reading." / "They ____not playing." Ss supply was / were and explain the difference between positive and negative forms.	T-Ss Ss-T	4 minutes
Post-task - Activity 6(1)	To connect the grammar with learners' own daily routines.	Ss open Pupil's Book p.92 and complete the schedule in Activity 6(1) with their usual everyday activities at the given times. T models one item: 6.30 a.m. - have breakfast. T monitors and supports vocabulary.	T-Ss S	8 minutes
Post-task - Activity 6(2)	To report a friend's action at a particular past time.	Ss work in pairs. They take turns asking / checking their partner's schedule and say what the friend was doing at one or two times, following the textbook model: "Surani was having breakfast at 7.00 a.m." T monitors for was/were and verb-ing.	Ss-Ss T-Ss	7 minutes
Post-task - Activity 6(3)	To compare two simultaneous activities using positive past continuous forms.	Pairs make simple comparisons from their schedules, following the model: "I was studying. He was watching television." Each pair prepares at least two comparisons. Selected learners share one sentence with the class.	Ss-Ss Ss-T	6 minutes
Post-task - Activity 7	To use the negative past continuous meaningfully when comparing schedules.	Ss use Activity 7(1), p.93, to produce negative comparisons, e.g., "I was having breakfast at 6.30 a.m. but Hansana was not having breakfast." T provides the frame: "I was _____, but _____was not _____." Learners write at least two sentences.	S Ss-Ss T-Ss	8 minutes
Whole-class feedback	To correct errors and confirm learning outcomes.	T elicits 3-4 sample sentences from Activity 6/7 and writes corrected versions on the board. T briefly reviews common errors: was/were choice, missing -ing, and missing not in negative sentences. Ss self-correct their work.	T-Ss Ss-T S	5 minutes

Stage	Aim	Procedure	Interaction patterns	Time
Closure	To give a final memorable summary.	T asks: “What is the formula for positive?” and “What is the formula for negative?” Ss answer chorally. T closes with one final personal question: “What were you doing at 8 p.m. yesterday?” 2-3 learners answer.	T-Ss Ss-T	2 minutes

Assessment and feedback:

Assessment is formative across all three periods. The teacher observes whether learners can select was/were accurately, maintain the verb-ing form, use not in negative sentences, and communicate a meaningful action in the past continuous. Evidence is collected through the picture-matching task, oral miming game responses, textbook Activities 6 and 7, notebook work and final oral exit questions. The checklist in Appendix F can be used for quick teacher notes.

Appendix A - Visual Prompts for the Day 1 Pre-task

Display or paste the three pictures and label them A, B and C. Learners read the statements on Pupil’s Book page 91 and choose the most appropriate sentence for each picture.

Picture A - Menik River	

Picture B - Sigiriya	
Picture C - Nallur Kovil	

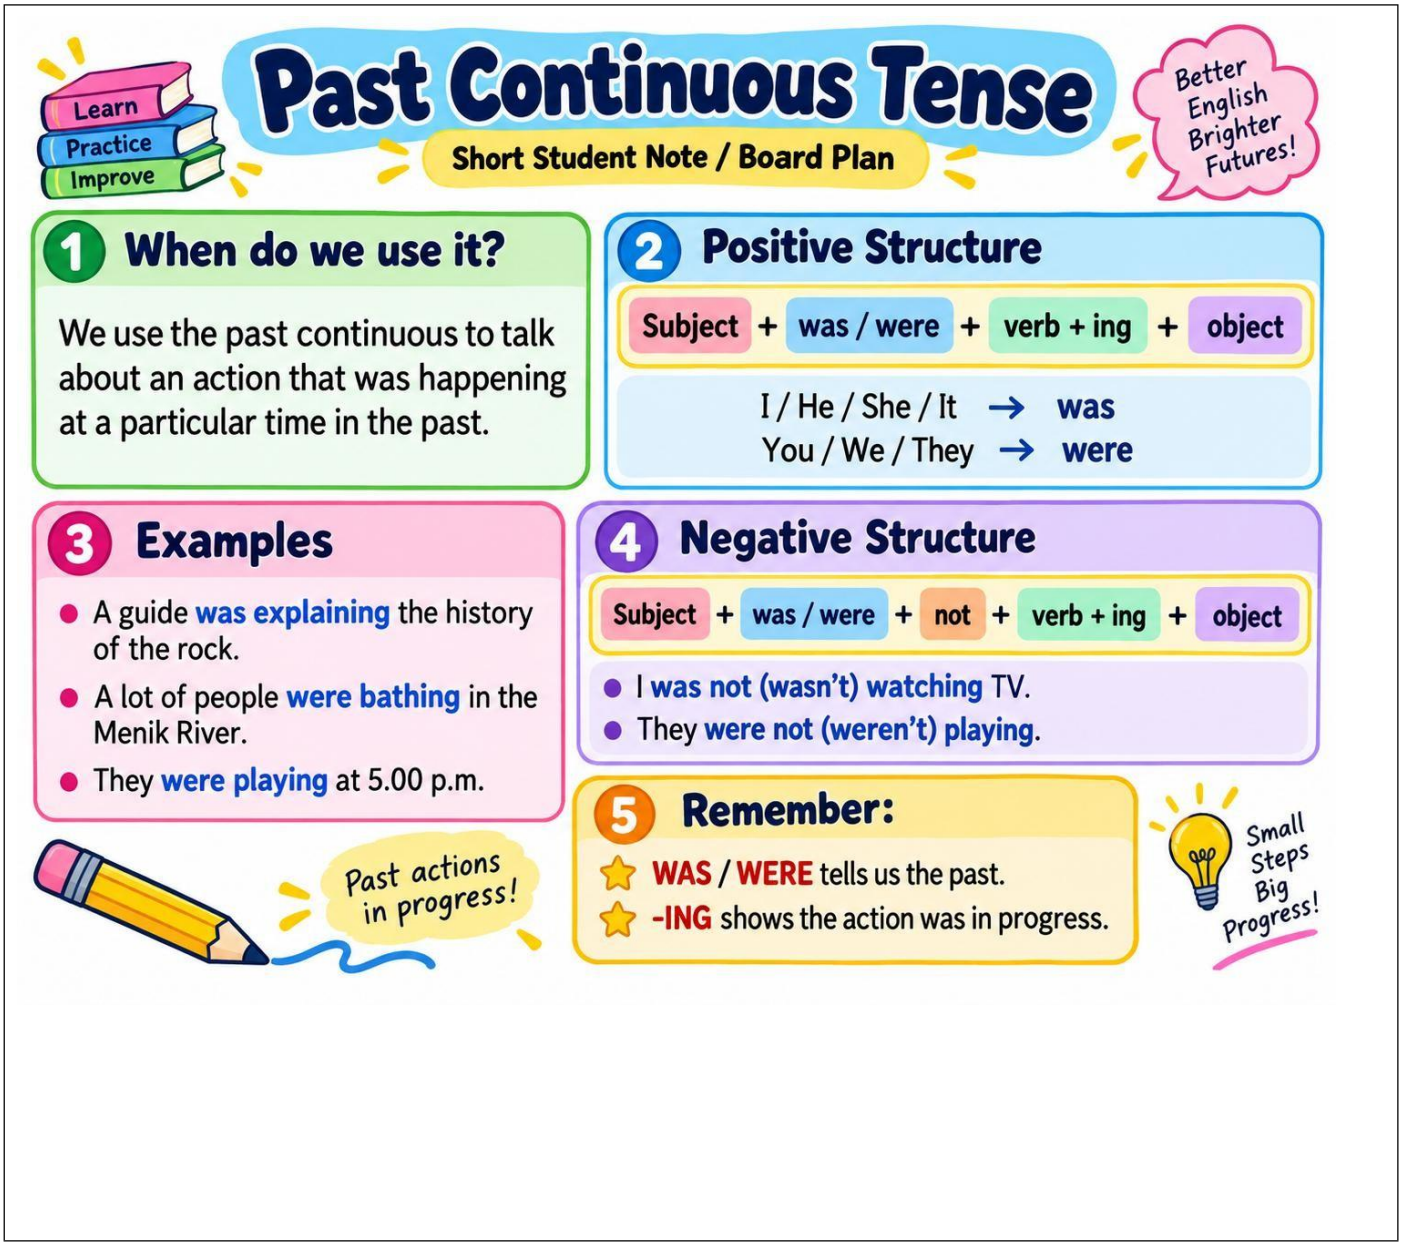

Answer key:

A – A lot of people were bathing in the Menik River.

B - A guide was explaining the history of the rock to a group of tourists.

C - A lot of devotees were praying at Nallur Kovil.

Appendix B - Short Student Note / Board Plan

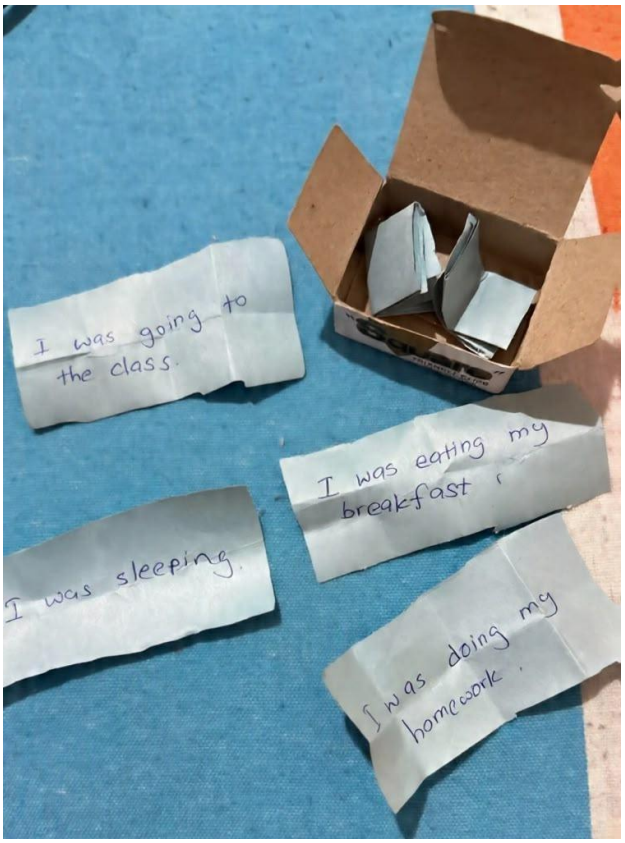

Appendix C - Miming Game Action Chits

Cut the boxes into separate chits and place them in a small box. The learner mimes the action; the team guesses and produces a full sentence with the learner's name.

I was eating my breakfast.	**I was sleeping.**
I was doing my homework.	I was reading a book.
I was washing my face.	I was playing cricket.
I was watching television.	I was writing a letter.
I was cleaning my room.	I was talking to my friend.
I was drinking water.	I was going to school.
I was drawing a picture.	I was listening to music.
I was running in the playground.	I was carrying my school bag.

Suggested scoring: 1 point for identifying the action + 1 point for a correct full past continuous sentence. Optional bonus: teacher asks a negative follow-up question, and the team answers using wasn't / weren't.

Sample action-chit box used for the miming game.

Appendix D - Activity 6 Schedule Grid (Student Support Copy)

Students may complete this grid if a separate support sheet is useful. It follows the times in Pupil's Book Activity 6.

Time	**My usual activity**
6.30 a.m.	
7.30 a.m.	
2.30 p.m.	
3.30 p.m.	
5.00 p.m.	
6.00 p.m.	
8.00 p.m.	
10.00 p.m.	

Appendix E - Sentence Frames for Activities 6 and 7

Activity 6(2) - Tell what your friend was doing

- _____was having breakfast at _____.
- _____was studying at _____.
- _____was _____ing at _____.

Activity 6(3) - Compare

- I was _____. He / She was _____.
- I was _____, but my friend was _____.

Activity 7 - Negative comparison

- I was _____, but _____was not _____.
- I was _____at _____, but my friend wasn't / weren't _____.

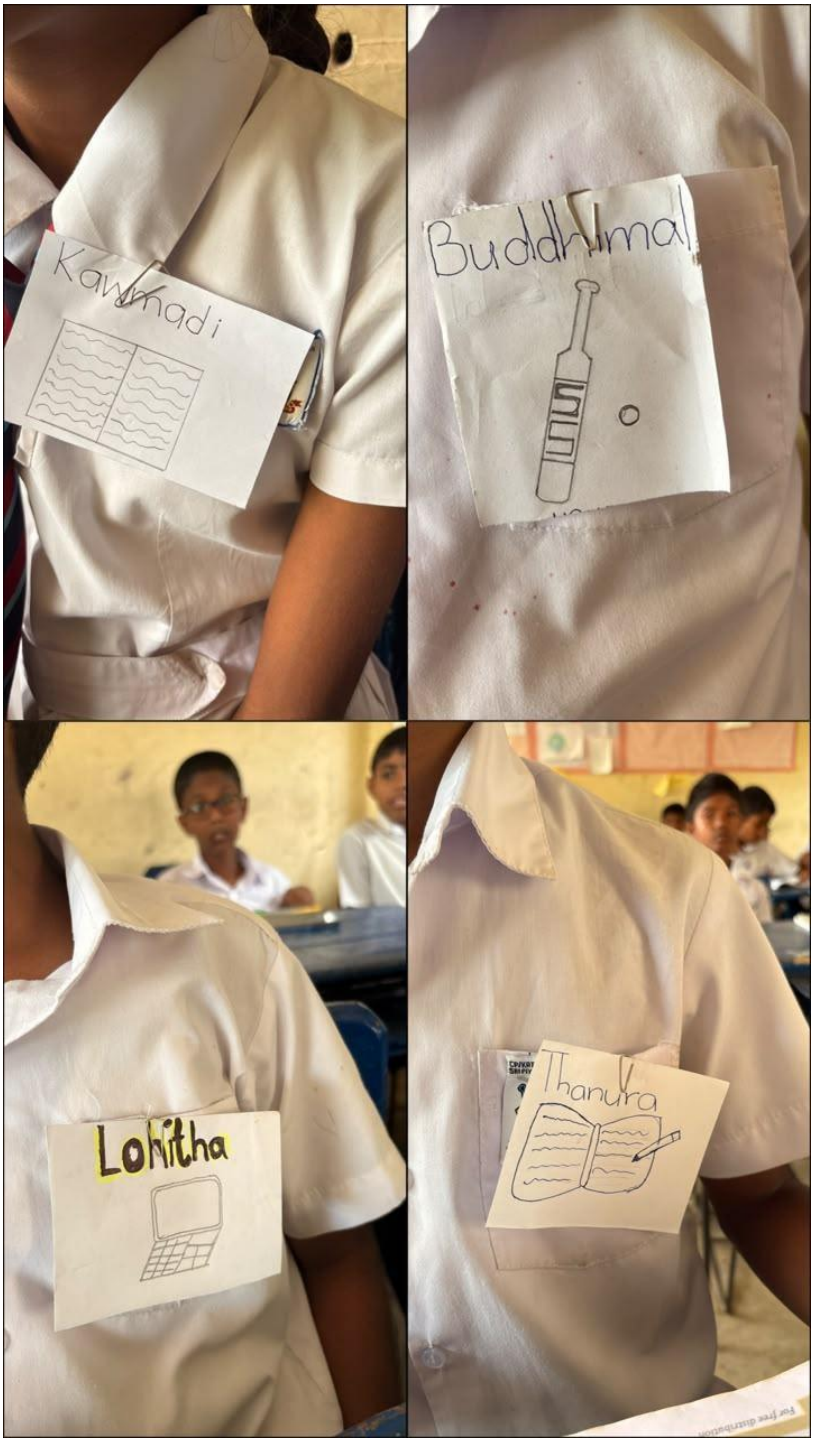

Appendix F - Quick Formative Assessment Checklist

Use simple ticks while monitoring. This is not a formal mark sheet; it is a quick record of who needs further support.

Learner / Pair	Uses was/were	Uses verb-ing	Forms negative	Can compare schedules

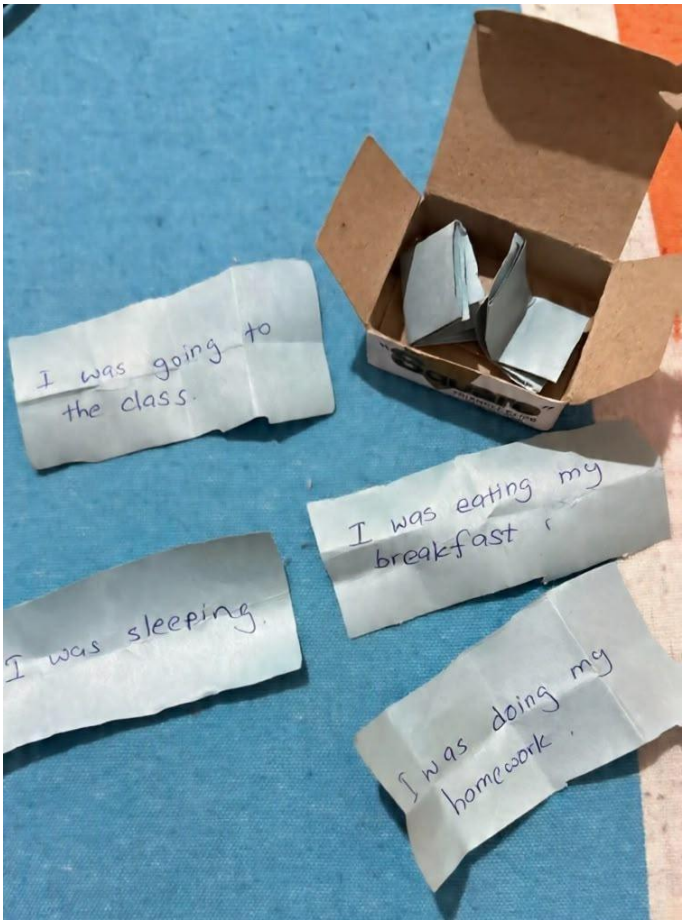

Appendix G - Ice-breaker and Game Material Evidence

Day 1 ice-breaker: learners wrote their names and drew a favourite hobby on a small card, then pinned it to their uniform. This supported name learning and short introductory conversation during the teacher's first meeting with the classes.

Examples of learner name-and-hobby cards.

Day 2 miming game: short action statements were folded and placed in a box for learners to select and mime.

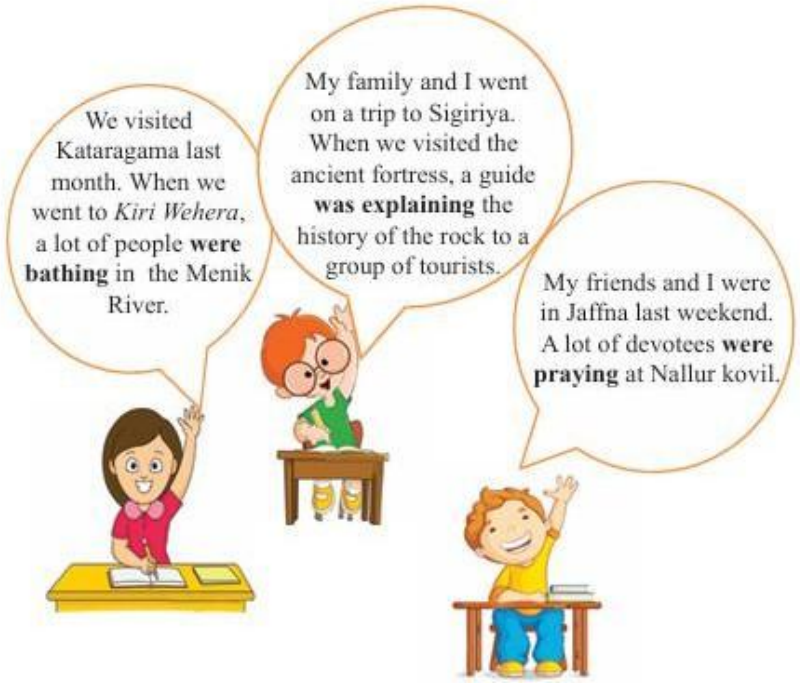

Action chits prepared for the miming game.

Appendix H - Pupil's Book Reference Pages 91-93

These pages contain the contextual examples, the positive and negative past continuous forms, and Activities 6 and 7 used across the three periods.

Christ the Redeemer, Great Wall of China, Machu Picchu, Colosseum, Petra, Taj Mahal, Chichen Itza

Read these statements.

Pupil's Book p.91 - contextual statements for guided discovery.

Past Continuous Tense

The past continuous tense describes an action which started before a certain time in the past and was still in progress at that time.

e.g. :- • A lot of people **were bathing** in the Menik River.
• A guide **was explaining** the history of the rock to a group of tourists.
• A lot of devotees **were praying** at Nallur kovil.

Formation

was / were + verb + ing

Past Continuous Tense - Negative Form

e.g. :- • **I wasn't watching** TV at 3 p.m.; I was playing.
• Kamal **wasn't having** breakfast at 7a.m.; he **was getting** ready to go to school.

Formation

was / were + not + verb + ing

Activity 6

1) Write your typical schedule of your usual everyday activities.

6.30 a.m. - ***e.g. :-*** Have breakfast
7.30 a.m. - .....
2.30 p.m. - .....
3.30 p.m. - .....
5.00 p.m. - .....
6.00 p.m. - .....
8.00 p.m. - .....
10.00 p.m. - .....

Pupil's Book p.92 - past continuous positive/negative forms and Activity 6.

2) Take turns and say what your friend was doing at a certain time.
e.g.:- Surani was having breakfast at 7.00 a.m.

3) Then, make comparisons.
e.g.:- I was studying. He was watching television.

Activity 7

1) Now use negative sentences to compare your schedule with that of your friend.

e.g. :- I was having breakfast at 6.30 a.m. but Hansana was not having breakfast.

One day a **ladybird** was getting ready for **breakfast**. She was expecting a **houseguest**. Just as she began heating up the **frying pan** for pancakes, the **doorbell** rang. She took the **frying pan** off the stove and went to answer the door. As she opened the door, **sunshine** spilled in through the **doorway**. The **sunshine** actually made the carpet look a different colour. "Welcome," she said to her **houseguest**. "I'm glad you could come by for **breakfast**." **Ladybird** opened the door wide. "Come in and have a seat." she said. The **ladybird** went to the **linen closet** and pulled out her finest **tablecloth**. She spread the **tablecloth** on the table and set out her **teapot** beside the vase of **sunflowers**. The **ladybird** and her **houseguest** sat down and had a delicious **breakfast** together.

Pupil's Book p.93 - Activity 6 continuation and Activity 7.

Name of the lesson - "What Have You Got?" (Have Got / Has Got)			
Name of the teacher	HS/TE21/0027	**Class**	7 A 7 B CEFR A1
Date and duration	07th September 2026 40 minutes × 2	**Number of students**	29 - Grade 7A 29 - Grade 7B
Technology Integration		JBL speaker, Smart Board (according to availability)	

Classroom profile:

The lesson is designed for two parallel Grade 7 classes, 7A and 7B, with 29 students in each class. The learners follow the Sri Lankan national curriculum and are mixed ability learners whose first language is Sinhala. English is used as the main classroom language, with instructions kept short, concrete and highly supported because the Grade 7 Teacher's Guide identifies CEFR A1 as the essential baseline for the average Grade 7 learner. The lesson develops the possessive structure have got / has got through movement, guided grammar noticing, a short technology supported listening task, controlled written practice and pair speaking.

Rationale:

This 40-minute lesson follows a communicative and guided-discovery sequence. Learners first use Have you got...? naturally in a short Find Someone Who activity. The teacher then draws examples from the activity to clarify positive, negative and question forms. A short pre-recorded listening text is played from a phone through a JBL speaker so learners hear the target structure in a meaningful context before completing a simple listening grid. Written practice then checks accuracy, and a final pair task allows learners to use have got / has got to exchange real information. The sequence moves from meaningful exposure to explicit support, controlled practice and personal communication.

Curriculum alignment:

Primary curriculum strand: Competency 6 - Uses English grammar for the purpose of accurate and effective communication. The lesson develops simple possessive statements and questions through have got / has got. The listening and pair-speaking stages also support clear oral communication in familiar contexts.

Main aim:

The lesson aims to enable students to understand and accurately use have got / has got in positive sentences, negative sentences and questions to talk about possessions, family and personal characteristics.

Intended Learning Outcomes:

At the end of the lesson, students will be able to:

• Identify whether have got or has got is needed with a given subject.

• Construct simple positive and negative sentences using have got / has got.

• Form and respond to questions using Have you got...? / Has he/she got...?

• Listen for specific details in a short description and record at least four correct pieces of information.

• Ask and answer at least two personal questions with a partner using the target structure.

Personal aims:

• To give short, clear instructions and demonstrate each activity before learners begin.

• To integrate simple classroom technology purposefully through a phone and JBL speaker.

• To monitor both confident and lower-confidence learners and provide supportive correction.

• To manage movement, pair work and transitions so that all stages are completed within 40 minutes.

Skill integration:

Speaking is the main productive skill. Listening is explicitly developed through the JBL audio task, while reading and short guided writing are integrated.

Anticipated problems:	**Solutions to anticipated problems:**
A. Students may confuse have got and has got. B. Students may omit got or use has with I/you/we/they. C. Learners may find the audio too fast on first listening.	A. Keep a subject + have/has mini-grid visible on the board. B. Model and drill short examples before independent practice. C. Play the recording twice; use the first listening for gist and the second for details.

D. Shy learners may hesitate during the mingling or pair-speaking stages. E. Movement and equipment setup may reduce lesson time.	D. Demonstrate with one learner first and allow rehearsal with a nearby partner. E. Prepare the audio offline on the phone, connect the JBL before class and use fixed time limits.

Assumptions:

• Students know common vocabulary for family members, pets, school items and everyday possessions.

• Students can recognise subject pronouns such as I, you, he, she, we and they.

• Students can follow short A1-level listening texts when they are played slowly and repeated.

• Students can work in pairs and participate in a short movement activity when instructions are clear.

Learning materials:

• Printed Find Someone Who grid - 29 copies per class (Appendix A).

• Colourful Have Got / Has Got grammar chart/board plan (according to the resources on the smart board or hard copy on the blackboard.)(Appendix C).

• Teacher phone with the prepared listening audio and a JBL speaker (Appendix D).

• Listening response grid - 29 copies per class (Appendix E).

• Combined controlled-practice worksheet (Appendix F).

• Ben 10 team game question prompt sheet and a reveal image of the cartoon character (Appendix G).

• Whiteboard and markers.

• Quick formative assessment checklist (Appendix G).

Lesson Procedure - 06 July 2026 (40 minutes): Have Got / Has Got

Stage	Aim	Procedure	Interaction patterns	Time
Lead-in / Find Someone Who	To activate the target structure naturally and encourage quick interaction.	T gives each learner the Find Someone Who grid (Appendix A) and demonstrates one question with a volunteer: “Have you got a pet?” Ss move around and ask classmates the questions. If the answer is yes, they write the classmate’s name. T uses a clear stop signal after five minutes and briefly elicits two findings, e.g., “Nimal has got a bicycle.”	T-Ss Ss-Ss Ss-T	5 minutes
Pre-task / Grammar presentation	To clarify the meaning and form of have got / has got in statements, negatives and questions.	T writes 2-3 examples from the lead-in on the white board/smart board and uses the grammar chart in Appendix C. T explains: I/you/we/they have got; he/she/it has got. T then contrasts haven’t got / hasn’t got and models Have you got...? / Has he/she got...? with short answers. Ss complete quick oral prompts and repeat 2-3 model sentences.	T-Ss Ss-T	10 minutes

Stage	Aim	Procedure	Interaction patterns	Time
While-task / JBL listening	To develop listening for specific information while reinforcing the target grammar in context.	T tells Ss they will hear a short description called "Meet Maya and Her Family." The audio is played from the teacher's phone through the JBL speaker. First listening; Ss listen only and identify the topic. Second listening; Ss complete the simple tick/cross grid in Appendix E. Pairs compare answers for 30 seconds. T checks answers orally and elicits complete sentences such as "Maya has got a dog" and "Sam hasn't got a pet."	T-Ss S Ss-Ss Ss-T	8 minutes
Controlled practice / Worksheet	To check accurate choice of have/has and positive/negative/question forms.	T distributes the combined worksheet (Appendix F). Ss complete Activity 1 individually by choosing the correct form, then complete the short gap-fill items. T monitors and supports weaker learners. Ss compare answers with a partner and T confirms the answers quickly with the whole class. Give immediate feedback	T-Ss S Ss-Ss	8 minutes
Post-task / Ben 10 team game	To use has he got ... ? questions communicatively while	T divides the class into two teams: Girls and Boys. T says, "It is a cartoon	T-Ss Ss-Ss Ss-T	6 minutes

Stage	Aim	Procedure	Interaction patterns	Time
	building excitement and teamwork.	character." Using Appendix G, teams take turns asking yes/no questions such as "Has he got a watch?", "Has he got black hair?" and "Has he got a cousin?" T answers only yes or no. Teams may try to guess the character after listening to the clues. When a team guesses correctly, T reveals the Ben 10 image on the board / smart board and briefly recycles the target structure: "Yes, he has got a watch." / "No, he hasn't got blue hair."		
Closure / Exit check	To consolidate the core rule and quickly check individual understanding.	T points to three subject prompts: I, she, they. Ss respond chorally with have got / has got. T then asks one final question: "Have you got a school bag?" and one third-person question: "Has your friend got a pet?" T praises effort and reminds learners: I/you/we/they - have got; he/she/it - has got.	T-Ss Ss-T	3 minutes

Total Time: 40 min

Assessment and feedback:

Assessment is formative throughout the lesson. The teacher observes whether learners select have / has appropriately, include got, form negatives with haven't / hasn't, understand key details in the listening text, and produce accurate yes/no questions during the Ben 10 team game. Evidence is collected through the Find Someone Who task, the listening grid, the controlled worksheet, the boys-versus-girls guessing game and the final oral exit check. Appendix B provides a quick monitoring checklist.

Appendix A - Find Someone Who Grid

Learners move around the classroom and ask the questions. If a classmate answers "Yes", write the learner's name.

Find someone who...	**Name**
1. Have you got a pet?	
2. Have you got a bicycle?	
3. Have you got a smartwatch?	
4. Have you got a sister?	
5. Have you got a brother?	
6. Have you got homework today?	

Appendix B - Quick Formative Assessment Checklist for the teacher purpose.

Use quick ticks while monitoring throughout activities. This is not a formal mark sheet.

Learner / Pair	**Uses have/has**	**Includes got**	**Understands listening**	**Asks/answers accurately**
1.				
2.				
3.				

Appendix C - Colourful Grammar Chart / Board Plan

Use this colourful grammar chart on the board or smart board when introducing have got / has got. It gives learners a clear visual summary of positive forms, negative forms, question forms and short answers.

Appendix D - Technology-supported Listening: Audio Script

Audio file. Play it from the teacher's phone through the JBL speaker. Play twice: first for general meaning, second for specific details.

Listening script:

Hello! My name is Maya. I have got a blue school bag and a small dog called Coco. My brother Sam has got a bicycle and a smartwatch, but he hasn't got a pet. My mother has got long black hair. My father has got a red car. We have got a small garden, but we haven't got a swimming pool. I like my family very much. Have you got a pet?

Appendix E - Listening Response Grid

Listen and write ✓ for YES and ✗ for NO.

Statement	✓	✗
1. Maya has got a blue school bag.		
2. Maya has got a cat.		
3. Sam has got a bicycle.		
4. Sam has got a pet.		
5. Maya's mother has got long black hair.		
6. Maya's father has got a red car.		
7. The family has got a swimming pool.		

Answer key: 1 ✓, 2 ✗, 3 ✓, 4 ✗, 5 ✓, 6 ✓, 7 ✗.

Appendix F - Combined Controlled-Practice Worksheet

Name: _____ Class: _____ Date: _____

Activity 1: Choose the correct word.

1. Kelly hasn't / haven't got any shoes to wear for the party.
2. Paul and Liza has / have got two children.
3. My brother and I has / have got black hair.
4. A: Has / Have we got any homework tonight? B: No, we hasn't / haven't.
5. All my friends has / have got smartphones.

Activity 2: Complete each sentence with the correct form of have got.

1. My family is very large. I _____three brothers and two sisters.
2. We do not know the time because we _____a watch.
3. My older brother Ben _____a new bicycle.
4. A: _____you _____a pencil? B: No, I _____.

Appendix G - Ben 10 Team Guessing Game

Divide the class into two teams: Girls and Boys. Tell learners the hidden person is a cartoon character. Teams take turns to ask yes/no questions using "Has he got ...?" The teacher answers only yes or no. After several clues, a team can guess the character. At the end, the teacher displays the image of Ben 10 and the winning team gets applause or points.

Name of the lesson - "Curious About Nature" - (The poem I Wonder by Jeannie Kirby) -

Name of the teacher	HS/TE21/0027	**Class**	7 A 7 B CEFR A1
Date and duration	11 September 2026 40 minutes × 2 (40 minutes per parallel class)	**Number of students**	29 - Grade 7A 29 - Grade 7B
Technology integration		Digital Pictures through the teacher's tablet.	

Classroom profile:

The lesson is designed for two parallel Grade 7 classes, 7A and 7B, with 29 students in each class. All learners have Sinhala as their first language and follow the Sri Lankan national curriculum. The learners are approximately at CEFR A1 level and benefit from short instructions, visual support, repetition and guided reading. The lesson is based on the poem "I Wonder" by Jeannie Kirby and Activity 18 on Pupil's Book pages 113-114. A tablet is used to show familiar nature images before reading so that learners can connect their own curiosity to the poem. English is used throughout the lesson, with teacher modelling and visual scaffolding to support lower-confidence learners.

Rationale:

This 40-minute lesson follows a communicative and guided-reading approach. Learners first settle through a short Simon Says warm-up, then activate prior knowledge by responding to pictures of green grass, a round moon, clouds, a rainbow and lightning. Their own 'wonder' questions provide a meaningful bridge to the poem. The teacher then models expressive reading, followed by echo/choral reading and brief stanza-by-stanza meaning checks. A short rhyme-and-imagery challenge helps learners notice simple poetic techniques before they complete Activity 18 in the Pupil's Book. This sequence moves from visual curiosity to supported reading, noticing and textbook response, while keeping the input simple and age-appropriate for Grade 7 learners.

Curriculum alignment:

Primary: Competency 5 - Extracts necessary information from various types of texts; Competency Level 5.4 - Reads and responds to simple poems. Learners are expected to identify simple poetic

techniques and express ideas, feelings and emotions in simple sentences. Supporting reading outcomes include using visual clues and extracting the general idea of a text.

Main aim:

The lesson aims to enable students to understand and respond to the poem "I Wonder" by identifying its main idea, selected rhyming words and visual images, and by answering the textbook comprehension questions accurately.

Intended Learning Outcomes:

At the end of the lesson, students will be able to,

• Predict the theme of the poem from visual clues and simple "I wonder…" questions. (Remembering/Understanding)

• Identify the speaker as a curious child and state the general idea of the poem in a simple sentence. (Understanding)

• Read selected lines of the poem aloud with teacher support and appropriate phrasing. (Applying)

• Recognise at least four pairs of rhyming words from the poem. (Analyzing)

• Identify simple imagery such as green grass, a round moon, stars, rainbow and fluffy clouds. (Understanding/Analyzing)

• Complete Activity 18 by selecting correct answers and responding to the short questions. (Applying)

Personal aims:

• To settle both classes quickly and positively through a short movement-based warm-up.

• To use the tablet purposefully as a visual stimulus rather than as the main focus of the lesson.

• To model expressive reading clearly and support weaker readers through echo and choral reading.

• To keep literary terminology simple and focus only on rhyme, imagery and the child's curiosity.

• To manage the 40-minute period effectively while allowing time for Activity 18 and feedback.

Skill integration:

• Reading is the main skill. Speaking, listening, vocabulary and short written responses are integrated.

Anticipated problems:	**Solutions to anticipated problems:**
A. Some learners may not understand the word wonder/curious. B. Individual reading may be difficult for lower-level learners. C. Learners may confuse rhyme with spelling. D. Literary terms such as imagery may seem abstract. E. Activity 18 may take longer than expected.	A. Use the nature pictures and model "I wonder why…" before giving a short meaning: want to know / be curious. B. Use teacher modelling, echo reading and whole-class choral reading before inviting volunteers. C. Emphasise that rhyming words have similar end sounds and model green-seen and nest-rest orally. D. Explain imagery as "pictures that come to your mind" and connect it directly to the images shown on the tablet. E. Complete the multiple-choice items orally first, then let learners write short answers for questions 2-4 with pair checking.

Assumptions:

- Students know basic nature vocabulary such as grass, moon, stars, clouds, birds and rainbow.
- Students can follow short teacher instructions and answer simple either/or and WH questions.
- Students can work with a partner and copy short answers from the board when necessary.

Learning materials:

- Grade 7 English Pupil's Book, pages 113-114 - "I Wonder" and Activity 18 (Appendix D).
- Tablet with nature pictures: green grass, round moon, fluffy clouds, rainbow and lightning (Appendix A).
- Whiteboard and markers.
- Short student note / board plan on the poem, rhyme and imagery (Appendix B).
- Rhyme-and-imagery quick challenge (Appendix C).
- Quick formative assessment checklist (Appendix E).

Lesson procedure - 11 September 2026 (40 minutes)

Stage	Aim	Procedure	Interaction patterns	Time
Warm-up - Simon Says	To settle the class, gain attention and create an energetic start.	T greets Ss and begins a very short Simon Says routine: "Simon says touch your head / look at the sky / point to something green." T uses only 3-4 commands and stops while learners are still interested. T then says, "Now let us look at some things around us."	T-Ss Ss-T	3 minutes
Pre-task - Visual "I Wonder" discussion	To activate prior knowledge, curiosity and key nature vocabulary before reading.	T shows five pictures on the tablet one by one: green grass, a round moon, fluffy clouds, a rainbow and lightning. For each picture T asks a simple curiosity question, e.g., "Have you ever wondered why grass is green?", "Why is the moon round?", "Why are clouds fluffy?", "Why is a rainbow colourful?", "Who makes lightning flash?" Ss give any ideas, including funny answers. T accepts responses without lengthy correction and repeatedly models the phrase "I wonder why…". T writes I WONDER = I WANT TO KNOW / I AM CURIOUS on the board. T tells Ss that today's poem is spoken by a child who wonders about nature.	T-Ss Ss-T	7 minutes
While-task 1 - First reading and meaning	To help learners understand the general idea and speaker of the poem.	Ss open Pupil's Book p.113. T reads the poem aloud once with expression while Ss listen and follow. T asks two quick gist questions: "Is the speaker curious or angry?" and "What is the child wondering about - nature or school?" T	T-Ss Ss-T	9 minutes

Stage	Aim	Procedure	Interaction patterns	Time
		then reads the poem in six two-line sections. After each section, T checks one simple meaning: grass/wind; birds/trees; moon; stars/lightning; rainbow/clouds; Dad. T explains only essential vocabulary: wonder, nest, missing, lightning, fluffy, suppose. T avoids word-for-word translation and keeps the focus on the child's curiosity and imagination.		
While-task 2 - Echo reading + rhyme/imagery challenge	To develop supported oral reading and notice simple poetic techniques.	T conducts echo reading: T reads two lines and the whole class repeats. Then T asks Ss to find words at the ends of lines that sound alike. T models green-seen and elicits further pairs: nest-rest, round-found, out-about, sky-high, suppose-knows. T explains: "Rhyming words are words with similar end sounds." Next T asks, "What pictures come to your mind?" and elicits green grass, moon, stars, lightning, rainbow and fluffy clouds. T introduces imagery simply as "pictures created in our mind by words." If time permits, pairs receive or copy the quick challenge in Appendix C and match 3 rhyme pairs / name 2 images.	T-Ss Ss-Ss Ss-T	8 minutes
Post-task - Pupil's Book Activity 18	To check comprehension and consolidate rhyme, line count and imagery.	Ss complete Activity 18 on pp.113-114. T handles 1(a-d) as a quick whole-class oral check first: curious; wind; resting; child. Ss then write the rhyming words they can find, count the 12 lines, and list 4-5 images that come to mind. Ss	S Ss-Ss T-Ss	10 minutes

Stage	Aim	Procedure	Interaction patterns	Time
		compare answers with a partner. T elicits answers and writes a concise answer key on the board. T accepts reasonable imagery responses that are supported by the poem.		
Closure / Exit check	To summarise the poem and check the key learning points.	T asks four rapid questions: “Who is speaking?”, “What does wonder mean?”, “Give me one rhyme pair”, and “Give me one image from the poem.” T ends with the class saying together: “The poem shows a child’s curiosity and imagination about nature.”	T-Ss Ss-T	3 minutes

Assessment and feedback:

Assessment is formative throughout the lesson. The teacher observes whether learners can use visual clues to predict the topic, follow the poem during reading, identify the speaker and main idea, recognise simple rhyming pairs, name images created by the poem and complete Activity 18. Oral responses, pair discussion, textbook answers and the exit check provide evidence of learning. The teacher gives brief corrective feedback, but prioritises confidence and understanding during oral reading.

Appendix A - Tablet Visual Prompts for the Pre-task

Show the pictures one by one and ask a simple “I wonder…” question. The purpose is to activate curiosity, not to teach scientific explanations.

	Rainbow - “I wonder why the rainbow is so colourful.”

	Round moon - “I wonder why the moon is round.”
	Clouds - “I wonder why the clouds look fluffy.”
	Green grass - “I wonder why the grass is green.”
	Lightning - “I wonder who makes the lightning flash.”

Appendix B - Short Student Note / Board Plan

I WONDER - Jeannie Kirby
Main idea: A curious child wonders about the mysteries of nature.
Rhyme: words at the ends of lines that have similar sounds. Examples: green-seen | nest-rest | round-found | sky-high
Imagery: pictures created in our mind by words. Examples: green grass, moon, stars, rainbow, fluffy clouds
Remember: Speaker = a child | Mood/feeling = curious | Number of lines = 12

Appendix C - Quick Rhyme and Imagery Challenge

This is optional if the class is moving quickly. It can be done orally or copied on the board.

Match the rhyme	**Name two images**
green → _____ nest → _____ sky → _____ (round / rest / seen / high)	1. _____ 2. _____

Answer key: green-seen; nest-rest; sky-high. Accept suitable images from the poem.

Appendix D - Pupil's Book Reference: "I Wonder" and Activity 18

The following learner-book pages are the main reading and post-task resources used during the lesson.

I Wonder

I wonder why the grass is green,
And why the wind is never seen?

Who taught the birds to build a nest,
And told the trees to take a rest?

Or, when the moon is not quite round,
Where can the missing bit be found?

Who lights the stars, when they blow out,
And makes the lightning flash about?

Who paints the rainbow in the sky,
And hangs the fluffy clouds so high?

Why is it now, do you suppose,
That Dad won't tell me, if he knows?

Jeannie Kirby

Activity 18

Read the poem and select the best answer.

1. a. The title "I Wonder" means the speaker is:
i. impatient **ii.** curious **iii.** happy

b. What is never seen?
i. clouds **ii.** wind **iii.** lightning

c. According to the poem, the trees are:
i. swaying in the wind **ii.** growing **iii.** resting

d. The person who speaks here is a:
i. woman **ii.** child **iii.** man

2. Write down the rhyming words you can find in the poem.

3. How many lines are there in this poem?

4. What are the images (pictures) that come to your mind when you read this poem?
e.g. :- green grass

Pupil's Book p.113-114 - "I Wonder" and Activity 18.

Appendix E - Quick Formative Assessment Checklist

Use quick ticks while monitoring. This is a support record, not a formal mark sheet.

Learner / Pair	Understands main idea	Identifies speaker	Finds rhyme	Names imagery	Completes Activity 18

Appendix F - Activity 18 Teacher Answer Key

- 1(a) ii. curious
- 1(b) ii. wind
- 1(c) iii. resting
- 1(d) ii. child
- 2. Rhyming pairs: green-seen; nest-rest; round-found; out-about; sky-high; suppose-knows.
- 3. The poem has 12 lines.
- 4. Possible images: green grass, wind, birds building a nest, resting trees, round moon, shining stars, lightning, colourful rainbow and fluffy clouds.
