Internship Lesson Plans - Week 3

September 21st - September 25th

HS/TE21/0027

Department of English Language Teaching

University of Kelaniya

Name of the lesson - “Time Detectives” - The Past Perfect Tense			
Name of the teacher	HS/TE21/0027	**Class**	Grade 8-A Grade 8-B CEFR A2
Date and duration	22nd September 2026 40 minutes × 2 (one lesson per parallel class)	**Number of students**	Grade 8A - 20 Grade 8B - 18
Technology Integration		Laptop, JBL speaker, pre-recorded audio track	

Classroom profile:

The lesson is designed for two parallel Grade 8 classes, 8A and 8B, with 20 and 18 students respectively. The learners follow the Sri Lankan National Curriculum and their first language is Sinhala. English is used as the main classroom language with concise instructions, examples and visual support. The lesson introduces the past perfect through a simple “earlier past / later past” idea, short audio clues, a timeline, pair/group manipulation tasks and the Pupil’s Book Activities 10.3 and 10.4.

Rationale:

The 40-minute lesson follows a guided-discovery and communicative sequence rather than beginning with a long grammar explanation. Learners first hear short “time-travel” situations and decide which event happened first. The teacher then makes the form had + past participle visible on a timeline and contrasts the earlier action with the later simple-past action. A quick card race gives collaborative practice, Activity 10.3 checks individual grammatical control, and Activity 10.4 shifts learners from grammar to purposeful reading for specific information. The laptop and small JBL are used only for a short pre-recorded audio clue, so the lesson does not depend on internet access.

Curriculum alignment:

Competency 6 - Uses English grammar for the purpose of accurate and effective communication. Competency Level 6.1 - Constructs simple sentences. Relevant learning outcome: students will be able to write sentences using the Past Perfect form. The Teacher’s Guide also highlights recognition of present, past and past participle verb forms.

Main aim:

To enable students to understand the meaning and form of the past perfect tense and use it accurately to describe an action that happened before another past action, while also extracting specific information from a short school-event report.

Intended Learning Outcomes:

- identify which of two past actions happened first from short oral and written situations. (Understanding)
- recall and apply the form had + past participle (V3). (Remembering/Applying)
- construct positive, negative and question forms of the past perfect with teacher support. (Applying)
- complete Pupil's Book Activity 10.3 with appropriate past perfect forms. (Applying)
- work collaboratively to match earlier and later past events in the "Time Detective Card Race". (Analyzing)
- scan the English Day report and locate the six details required in Activity 10.4. (Applying)

Personal aims:

- To make the idea of "past before past" concrete through a visual timeline rather than terminology alone.
- To give short instructions and model each task before learners begin.
- To include individual, pair and group participation within the 40-minute period.
- To use the laptop and JBL purposefully without allowing technology setup to reduce learning time.
- To provide brief corrective feedback while maintaining learner confidence and pace.

Skill integration:

Grammar and reading are the main lesson focuses. Listening is integrated through the short JBL audio clue; speaking is practised through pair reasoning and group reporting; guided writing is practised in Activity 10.3 and the exit ticket.

Anticipated problems:	**Solutions to anticipated problems:**
• A. Students may confuse the past perfect with the simple past.	• A. Keep the timeline visible: EARLIER = had + V3; LATER = simple past.
• B. Students may use V2 instead of the past participle (V3), e.g., had went.	• B. Provide a small V1-V2-V3 support bank for the verbs used in the lesson.
• C. Some learners may not immediately understand which action happened first.	• C. Ask "Which happened first?" before asking learners to form the sentence.

• D. Lower-confidence learners may hesitate during the card race or whole-class checking. • E. Laptop/JBL setup may take too long.	• D. Let learners discuss in pairs/groups before nominating a speaker; accept supported answers first. • E. Preload the audio file/voice note and connect the JBL before the lesson begins; if it fails, read the script aloud.

Assumptions:

- Students know the simple past tense of common verbs and can recognise familiar past-time situations.
- Students have met common irregular verbs such as win-won, leave-left and see-saw.
- Students can work in pairs and small groups when the teacher provides a clear model and time limit.
- Students can scan a short paragraph for names, dates, places and event details with teacher support.

Learning materials:

- Grade 8 English Pupil's Book - Unit 10, Learning Point, Activities 10.3 and 10.4 (Appendices G-H).
- Laptop + small JBL speaker with a pre-recorded 20-30 second "Audio Time Machine" voice note (Appendix B).
- Colourful Past Perfect timeline / board note displayed from the laptop or copied to the board (Appendix A).
- Prepared "Time Detective" matching cards/chits - one set per group (Appendix C).
- Mini V1-V2-V3 support bank (Appendix D).
- Whiteboard and markers.
- Exit ticket prompts (Appendix F).

Assessment and feedback:

Assessment is formative throughout the lesson. The teacher listens for correct identification of the earlier action during the audio task, observes group reasoning in the Time Detective Card Race, checks individual responses in Activity 10.3, and verifies accurate retrieval of information in Activity 10.4. Feedback is brief and immediate: point to the timeline, ask "Which happened first?", elicit the correct past participle, and allow learners to self-correct before the teacher supplies the answer.

Lesson Procedure - 22nd September 2026 (40 minutes): "Time Detectives" - Past Perfect + Reading

Stage	Aim	Procedure	Interaction patterns	Time
Warm-up - "Past or Past-Before-Past?"	To settle the class and activate familiar past actions.	T says two quick action pairs and Ss show 1 finger for the action that happened first and 2 fingers for the later action. Example: "I ate breakfast. I came to school." T then says: "When I came to school, I had eaten breakfast." T does not explain the rule yet; the class only notices the order.	T-Ss Ss-T	3 min
Pre-task - Technology: "Audio Time Machine"	To create a meaningful need for the target tense through listening.	T plays a short pre-recorded voice note from the laptop through the JBL (Appendix B). Pairs listen and decide which event happened first in each situation. After the second play, pairs hold up/write A or B for the first event. T asks: "What word/form tells us the earlier action?" and bridges to had + V3.	T-Ss S-S Ss-T	5 min
While-task 1 - Colourful timeline discovery	To clarify meaning, form and basic sentence patterns.	T displays Appendix A on the laptop or redraws the simple timeline: EARLIER PAST → LATER PAST. T models "By the time Mr. Perera reached the station, his train had already left." Ss identify reached = later and had left = earlier. T presents: Positive: S + had + V3; Negative: S + had not + V3; Question: Had + S + V3? T highlights that had is used with all subjects and briefly reviews the V3 forms in Appendix D.	T-Ss Ss-T	8 min

Stage	Aim	Procedure	Interaction patterns	Time
While-task 2 - Group "Time Detective Card Race"	To practise sequencing and sentence formation collaboratively.	Ss form 4 small groups. Each group receives mixed situation cards (Appendix C): later-event cards and earlier-event cards. In 3 minutes they match the pairs, place the earlier event first, and form one complete past-perfect sentence. One speaker from each group reads a sentence. T awards one point for correct order and one point for correct had + V3 form.	Ss-Ss Ss-T	7 min
While-task 3 - Pupil's Book Activity 10.3	To check individual control of the past perfect form.	Ss complete the five blanks individually. T reminds them to look at the verb in brackets and choose V3. After 4 minutes, pairs compare answers. T checks quickly with the class, asking selected Ss to explain one answer using "earlier action". Answers are in Appendix E.	S S-S T-Ss	7 min
Post-task - Activity 10.4 "English Day Newsroom"	To transfer attention from grammar to purposeful reading for specific information.	Pairs read the short English Day report. Each pair becomes a "newsroom team" and scans for six facts: event, organizer, place, date, chief guest and items presented. Pairs write keywords only. T calls the six headings one by one; different pairs report the answers. T confirms using Appendix E.	S-S Ss-T	7 min

Stage	Aim	Procedure	Interaction patterns	Time
Closure - "One Sentence Exit Ticket"	To consolidate the core rule and check learning quickly.	Ss complete one exit prompt in their exercise book: "When I reached _____, _____had already _____." Two volunteers read theirs. Class says together: "Earlier past = had + V3." T collects/visually checks 3-4 examples before dismissal.	S Ss-T	3 min

Appendix A - Colourful Student Note / Board Plan

THE PAST PERFECT - "PAST BEFORE PAST"	
EARLIER PAST → LATER PAST The train had already left → Mr. Perera reached the station.	
FORM	had + past participle (V3)
Positive	She had won a prize.
Negative	She had not seen the play before.
Question	Had the match already started?
Remember	HAD is the same for I / you / he / she / we / they.
Useful clues	already • before • by the time

Appendix B - "Audio Time Machine" Script (Laptop + JBL)

Teacher preparation: record the three lines below as one 20-30 second voice note on the laptop/phone, or read them through the JBL-connected laptop if audio recording is unavailable.

1. When I reached the bus stop, the bus had already left.
2. When we entered the school hall, the programme had already started.
3. She was very happy because she had won a prize.

Listening question: Which action happened first in each sentence?

Appendix C - Time Detective Card Race (Cut into Chits)

Later Past Event	Earlier Past Event - use had + V3
I got to the cinema.	The film had already started.
She was very happy.	She had won a prize.
Mr. Perera went back to the office.	He had left his spectacles behind.
I enjoyed the play.	I had not seen a stage play before.

Appendix D - Mini V1 / V2 / V3 Support Bank

V1 (base)	V2 (past)	V3 (past participle)
watch	watched	watched
win	won	won
leave	left	left
see	saw	seen
start	started	started

Appendix E - Answer Key

Activity 10.3:

1. had watched
2. had won
3. had left
4. had not seen
5. Had the football match already started when you got to the stadium?

Activity 10.4:

• Event described: the English Day of Gemunu Vidyalaya

• Organized by: the English Association / school English Association

• Place: the school main hall

• Date: 21st October

• Chief guest: the Zonal Director of Education

• Items presented: recitals, duets, songs, dances, a play and a group song

Appendix F - Quick Exit Ticket

Name: _____	Name: _____
Complete: When I reached _____, _____had already _____.	Complete: When I reached _____, _____had already _____.
Earlier past = _____.	Earlier past = _____.

Appendix G - Pupil's Book Reference: Past Perfect Learning Point and Activity 10.3

LEARNING POINT

The Past Perfect Tense

Had + past participle

Had they invited any other schools?
Yes. They had invited five other schools.
The drama was good. They had practised well.

We use the past perfect tense to talk about a past action that happened before another past action.

e.g. :- By the time Mr. Perera reached the station,his train had already left.

He had worked.	Had he worked?	He had not worked.

Activity 10.3

Fill in the blanks with the past perfect form of the verb.

- Did you watch the film yesterday? No, I didn't. I ..... (watch) it before.
- She was happy because she ..... (win) a prize.
- Mr. Perera had to go back to the office. He ..... (leave) his spectacles behind.
- I enjoyed the play. I ..... (not see) a stage play before.
- ..... the football match already ..... (start) when you got to the stadium?

Appendix H - Pupil's Book Reference: Activity 10.4 - Reading

Reading

The following report appeared in the school magazine of Gemunu Vidyalaya.

The English Day of Gemunu Vidyalaya was held on 21st of October in the school main hall. They had invited the Zonal Director of Education as the Chief Guest. After the tradition of lighting the oil lamp, the programme started with the theme song of English Day. It was sung by a group of grade 8 students. The programme consisted of recitals, duets, songs, dances and a play. One of the invited schools presented a group song. In his speech, the principal said that the members of the English Association had worked hard to make the event a success. He also said that he was very proud of his students' talents. Everyone present agreed that it was a well-organized programme.

Activity 10.4

Read the text and find the following information.

- event described:
- organized by:
- place where it was held:
- date:
- chief guest:
- items presented:

Name of the lesson - "How Often?" - Adverbs of Frequency			
Name of the teacher	HS/TE21/0027	**Class**	Grade 8-A Grade 8-B CEFR A2
Date and duration	23rd September 2026 24th September 2026 25th September 2026 3 × 40 minutes = 120 minutes	**Number of students**	Grade 8A - 20 Grade 8B - 18
Technology Integration		Laptop with internet access and a JBL speaker for the short video	

Classroom profile:

The lesson is designed for two parallel Grade 8 classes, 8A and 8B, with 20 and 18 students respectively. The learners follow the Sri Lankan national curriculum and their first language is Sinhala. English is used as the main classroom language, with short instructions, modelling and visual support. The three-period sequence focuses on adverbs of frequency through the Pasindu conversation and Activities 9.2-9.5. Learners benefit from concrete routines, movement, pair work, small-group speaking and clear visual scales, so each period uses a different activity pattern rather than repeating the same lesson flow.

Rationale:

This three-period lesson uses a communicative pre–while–post sequence but gives each day a distinct classroom identity. Day 1 is a "Frequency Detective" lesson: learners watch a short video, notice frequency words in authentic examples, scan the Pasindu conversation and complete Activity 9.2. Day 2 becomes a "Frequency Lab": learners physically rebuild sentences, use the 100%-0% frequency scale, complete Activity 9.3 through a picture gallery and interview a partner. Day 3 becomes a "Routine Radio Show": groups complete Activity 9.4, report one another's habits, and then move to the individual paragraph in Activity 9.5. The sequence therefore moves from noticing, to controlled use, to personalized oral and written production.

Curriculum alignment:

Primary: Competency 6 - Uses English grammar for the purpose of accurate and effective communication. Competency Level 6.9 - Uses adverbs appropriately. The Grade 8 Teacher's Guide allocates three periods and states that learners should be able to use adverbs of frequency

appropriately. The lesson also follows the Teacher's Guide recommendation to teach grammar in familiar contexts and provide communicative opportunities.

Main aim:

The lesson aims to enable students to understand, position and use common adverbs of frequency accurately when talking and writing about routines and habits.

Intended Learning Outcomes:

• Identify common adverbs of frequency in a short video and textbook conversation. (Remembering)

• Arrange always, usually, often, sometimes, rarely and never on a 100%-0% frequency scale. (Understanding)

• Place frequency adverbs before the main verb in simple routine sentences. (Applying)

• Use once and twice at the end of appropriate sentences. (Applying)

• Construct at least four accurate sentences from Activity 9.3 and pair-interview information. (Applying)

• Participate in Activity 9.4 by giving and reporting personal routine sentences. (Applying)

• Write a short paragraph about personal or family routines using a range of adverbs of frequency. (Creating)

Personal aims:

• To vary the lesson flow across the three periods so that learners stay interested and active.

• To use the laptop and JBL speaker purposefully rather than making technology the whole lesson.

• To balance group, pair and individual work and give quieter learners safe opportunities to participate.

• To monitor word order carefully while still encouraging fluent personal speaking.

• To complete the textbook tasks while allowing meaningful personalization and feedback.

Skill integration:

Speaking and writing are the main productive skills. Reading is developed through the Pasindu conversation and Activity 9.2; listening is developed through the short YouTube input and peer reports. Vocabulary, grammar awareness and pronunciation are integrated throughout.

Anticipated problems:	**Solutions to anticipated problems:**
	A. Keep the 100%-0% frequency ladder visible on the board throughout all three periods.

A. Learners may confuse the order of always, usually, often, sometimes, rarely and never. B. Learners may put the adverb after the main verb, e.g., “I play always cricket.” C. Lower-confidence learners may hesitate during the pair interview or group report. D. The video or internet connection may fail. E. Activity 9.3 and the group speaking task may take longer than expected.	B. Use movable sentence strips and a simple frame: Subject + frequency adverb + main verb + rest. C. Give question/answer frames and allow rehearsal with one partner before whole-group reporting. D. Preview the video before class and keep the colourful frequency note as an offline backup; connect the JBL before the lesson begins. E. Use pair checking instead of checking every item orally and limit whole-class reports to selected examples.

Assumptions:

• Students can talk about familiar routines using simple present tense verbs.

• Students understand everyday verbs such as get up, go, listen, watch, help, read and play.

• Students can work in pairs and small groups when instructions are modelled clearly.

• Students have some previous experience reading short textbook conversations and completing gap-filling tasks.

Learning materials:

• Grade 8 English Pupil’s Book - Pasindu conversation and Activities 9.2-9.5 (Appendix J).

• Laptop with internet access and a small JBL speaker for the short video (Appendix B).

• Colourful Frequency Meter / board note (Appendix A).

• Frequency word cards and sentence strips for the Human Frequency Line and Sentence Surgery tasks (Appendix C).

• Activity 9.2 answer/support sheet (Appendix D).

• Pair “How often?” mini-interview card (Appendix E).

• Group “Routine Radio Show” report grid (Appendix F).

• Paragraph writing frame and homework card (Appendix G).

• Formative assessment checklist for the teacher (Appendix H).

• Whiteboard, markers, sticky notes or small paper slips.

Assessment and feedback:

Assessment is formative throughout the three periods. The teacher monitors identification of frequency words during the video and Activity 9.2, checks word order during sentence-building and Activity 9.3, listens for accurate personal sentences during the pair and group speaking tasks, and uses the final paragraph/exit ticket to check independent control. Feedback is brief and immediate: recast the word order, point learners back to the frequency scale, and ask them to self-correct before giving the answer.

DAY 01 - 23rd September 2026 (40 minutes): Frequency Detectives

Stage	Aim	Procedure	Interaction patterns	Time
Warm-up - "Five-Finger Frequency"	To settle the class and activate the idea of "how often".	T names familiar routines: "brush my teeth", "watch TV", "help at home", "read English". Ss show 5 fingers = every day, 3 = many days, 1 = sometimes, fist = never. T does not teach the grammar names yet; the aim is simply to create the idea of frequency.	T-Ss Ss-T	4 min
Pre-task - "Frequency Forecast"	To create a purpose for the video.	T writes six cards on the board: always, usually, often, sometimes, rarely, never. In pairs, Ss guess which word means "every time" and which means "not at all". They also predict which words they may hear in the video.	T-Ss S-S	4 min
While-task 1 - YouTube "Watch & Notice"	To notice adverbs of frequency through audiovisual input.	T plays a short section of the British Council | ESOL Nexus video Open the YouTube video "Adverbs of frequency" through the laptop and JBL. Ss tick any target frequency words they hear/see and listen for where the words appear in sentences. T pauses once to ask: "What question do these words answer?" Expected idea: How often?	T-Ss Ss-T	6 min

Stage	Aim	Procedure	Interaction patterns	Time
While-task 2 - "Frequency Detectives"	To find target language in the textbook conversation.	Pairs read the Pasindu extract and underline/highlight always, rarely, usually, never, often and sometimes. They circle once/twice expressions separately. T asks pairs to notice the position of the frequency word in relation to the main verb.	S-S T-Ss	8 min
While-task 3 - Pupil's Book Activity 9.2	To check comprehension of the conversation and frequency meanings.	Ss complete Activity 9.2 individually. They then compare with a partner. T checks quickly using the six frequency cards rather than writing all answers first.	S S-S T-Ss	8 min
Post-task - "Human Frequency Line"	To consolidate the 100%-0% meaning scale physically.	T places ALWAYS at one end of the board/room and NEVER at the other. Six volunteers hold the frequency cards and the class directs them into the correct order: always → usually → often → sometimes → rarely → never. The class reads the line together.	Ss-Ss T-Ss	6 min
Exit sentence	To close Day 1 with personal use.	Each learner tells a partner one true sentence using any frequency adverb, e.g., "I often listen to music." Two volunteers share.	S-S Ss-T	4 min

DAY 02 - 24th September 2026 (40 minutes): The Frequency Lab

Stage	Aim	Procedure	Interaction patterns	Time
Warm-up - "Beat the Adverb"	To reactivate the target words quickly.	T plays a soft beat for about 30 seconds through the JBL or claps a steady rhythm. A frequency card is passed around. When the sound stops, the learner holding the card makes a quick routine sentence using that word. Repeat with 3-4 learners.	T-Ss Ss-T	4 min
Pre-task - "Sentence Surgery Relay"	To make word order visible before written practice.	Pairs receive jumbled strips such as "I / always / revise / at night" and "Nethmi / often / stays / after school". They rebuild the sentence and place the frequency adverb before the main verb. Two pairs stick their sentence on the board.	S-S Ss-T	6 min
While-task 1 - Colourful board note	To clarify meaning and position rules explicitly.	T displays Appendix A and elicits the 100%-0% ladder. T highlights the main textbook rule: frequency adverbs usually come before the main verb. T then contrasts once/twice, which usually go at the end: "I watch a movie once a week." Ss copy only the short boxed note, not a long explanation.	T-Ss Ss-T	7 min

Stage	Aim	Procedure	Interaction patterns	Time
While-task 2 - Pupil's Book Activity 9.3 "Gallery Walk"	To construct sentences from visual prompts.	Pairs are assigned one picture from Activity 9.3 and write one accurate sentence on a sticky note. After 2-3 minutes, pairs rotate/read two other notes and place a small tick if the adverb position is correct. T then checks the six sentences with the class, beginning from the textbook model "Suresh always helps his mother."	S-S Ss-Ss T-Ss	12 min
While-task 3 - "How Often? Mini Interview"	To personalize the target structure through pair speaking.	Pairs use Appendix E. Student A asks four routine questions: help at home, listen to music, watch English films, read/study in the evening. Student B answers with a frequency adverb; then roles change. Each learner records only key words, not full sentences.	S-S	7 min
Post-task - "Traffic-light Check"	To self-assess understanding before Day 3.	T reads three sentences. Ss show green = correct word order, red = incorrect. For an incorrect example such as "I watch always TV", a volunteer repairs it orally.	T-Ss Ss-T	4 min

DAY 03 - 25th September 2026 (40 minutes): Routine Radio Show

Stage	Aim	Procedure	Interaction patterns	Time
Warm-up - "Frequency Charades"	To review routine verbs and adverbs playfully.	One learner picks a routine card and silently mimes the action. The team guesses the action, then T shows a frequency card. The team must make a complete sentence, e.g., "She sometimes reads." Keep the game to 3-4 turns.	Ss-Ss T-Ss	4 min
Pre-task - "My Habit Card"	To prepare ideas for group speaking.	Each learner writes one true habit sentence about himself/herself using one frequency adverb. T reminds learners not to copy the same sentence as a friend. Learners rehearse once with a partner.	S S-S	5 min
While-task 1 - Pupil's Book Activity 9.4	To produce personal frequency sentences in groups.	Ss form groups of five as instructed in the textbook. Each member says one sentence about himself/herself using always/usually/often/sometimes/rarely/never. The group leader notes the name + adverb + activity for each member.	Ss-Ss	10 min
While-task 2 - "Routine Radio Show"	To develop listening and third-person reporting.	Each group becomes a mini radio team. The leader reports two members to the class: "Nimali usually gets up early. Kasun sometimes watches movies." Listeners raise a finger when they hear an adverb of frequency. T gives quick feedback on word order.	Ss-T Ss-Ss	8 min

Stage	Aim	Procedure	Interaction patterns	Time
Post-task 1 - Pupil's Book Activity 9.5	To move from oral production to independent writing.	Ss begin a short paragraph about themselves or one family member using as many frequency adverbs as appropriate. T provides the frame in Appendix G for learners who need support. Stronger learners add once/twice expressions.	S T-S	9 min
Post-task 2 - "3-2-1 Exit" + Homework	To review learning and set purposeful follow-up.	On a small slip, Ss write 3 frequency adverbs, 2 true sentences and 1 rule about position. Homework: finish/improve the Activity 9.5 paragraph to 6-8 sentences, use at least four different adverbs of frequency plus one once/twice expression, underline the adverbs, and bring it next lesson.	S	4 min

Appendix A - Colourful Frequency Meter / Student Note

ADVERBS OF FREQUENCY - HOW OFTEN?	
100% - ALWAYS	every time
about 80% - USUALLY	most of the time
about 60% - OFTEN	many times
about 40% - SOMETIMES	some times
about 10% - RARELY	not often
0% - NEVER	not at any time
Main rule: Put the adverb of frequency before the main verb. *I always study. She often reads.* **Once / twice:** usually at the end. *I watch a movie once a week.*	

Appendix B - YouTube Video and Watch-and-Notice Task

Suggested video: British Council | ESOL Nexus - "Adverbs of frequency"

Open the YouTube video

• Before viewing: circle two words you think mean "very often" and one word that means "not at all".

• While viewing: tick every target word you hear/see: always / usually / often / sometimes / rarely / never.

• After viewing: complete one sentence: "I _____."

• Teacher note: preview the video, play only the short explanation segment needed for the lesson, and keep Appendix A ready as the offline backup.

Appendix C - Sentence Surgery and Frequency Cards

Frequency cards	ALWAYS | USUALLY | OFTEN | SOMETIMES | RARELY | NEVER
Strip 1	I / always / revise / at night.
Strip 2	Nethmi / often / stays / after school.
Strip 3	We / sometimes / play / badminton.
Strip 4	My brother / never / drinks / tea.
Strip 5	I / usually / watch / English movies.
Strip 6	The garbage truck / comes / once a week.

Appendix D - Activity 9.2 Answer / Support Sheet

• Pasindu always comes to school early.

• Pasindu rarely gets absent.

• Pasindu never stays in bed later than 6.30 a.m.

• Pasindu often listens to music.

• Pasindu usually watches English movies.

• Pasindu sometimes watches good Hindi movies.

Textbook rule: These adverbs are usually placed in front of the main verb. Adverbs such as once and twice usually go at the end of the sentence.

Appendix E - "How Often?" Pair Interview Card

Ask your partner	Partner's adverb	Key activity
How often do you help at home?		
How often do you listen to music?		
How often do you watch English films?		
How often do you read or study in the evening?		

Appendix F - Routine Radio Show Group Grid

Name	Frequency adverb	Routine/activity	Reporter sentence

Model report: "Nimali usually gets up early. Kasun sometimes watches movies."

Appendix G - Activity 9.5 Writing Frame + Homework

Title: My Routine / My _____'s Routine

_____always _____.

_____usually _____.

_____often _____.

_____sometimes _____.

_____rarely / never _____.

_____once / twice a week.

Homework: Finish or improve the paragraph to 6–8 sentences. Use at least four different adverbs of frequency and one once/twice expression. Underline the adverbs.

Appendix H - Formative Assessment Checklist for the teacher

Indicator	comment
Identifies the six common adverbs of frequency.	
Orders the words approximately from 100% to 0%.	
Places the adverb before the main verb.	
Uses once/twice at the end of a sentence.	
Produces a personal oral sentence accurately.	
Writes a short paragraph using a range of frequency expressions.	

Appendix J - Textbook Reference Pages Supplied for the Lesson

Pasindu: Well, one reason is that I **always** try to manage my time as best I can.

Charith: Yes, as we all know, Pasindu, you **always** come to school early. And you **rarely** get absent. Do you **usually** plan your day? Can you tell me what time you get up in the morning?

Pasindu: I **always** get up at 5 in the morning, six at weekends. I **never** stay in bed later than 6.30. It helps me to go through the day cheerfully and confidently.

Charith: Could you tell us how you prepared for your exam?

Pasindu: Well, at the end of each day, I **always** revised what I had learnt during that particular day. Twice a week I answered past question papers and got them checked by my teachers.

Charith: I think that's good advice for anyone getting ready for an exam. By the way, Pasindu, what do you do in your free time?

Pasindu: Well, I **often** listen to music. About once a week, I watch a movie. I **usually** watch English movies as it helps me to improve my knowledge of English. I **sometimes** watch good Hindi movies too.

Charith: Finally, what message would you like to give your fellow students?

Pasindu: Time is precious. So make the best possible use of it. And **always** look on the bright side of things.

Charith: Thank you very much Pasindu for joining us today. On behalf of the school media unit, I wish you all the best in every step of your way!

Pasindu: Thank you.

98

Textbook reference image 1

Activity 9.2

Read the conversation and fill in the blanks with **always**, **usually**, **often**, **sometimes**, **rarely** and **never**.

Pasindu

- ..... comes to school early.
- ..... gets absent.
- ..... stays in bed later than 6.30a.m.
- ..... listens to music.
- ..... watches English movies.
- ..... watches good Hindi movies.

LEARNING POINT

We use adverbs of frequency when we say how often something happens. These adverbs are usually placed in front of the main verb in the sentence.

Adverbs such as once and twice usually go at the end of the sentence.

Textbook reference image 2

More examples

- Mr. Perera usually goes to work by bus.
- Chathura always gets up before 5.30 a.m.
- I never lie to my parents.
- Nethmi often stays after school for badminton practice.
- Do you sometimes feel lonely?
- The garbage truck comes once a week.

Activity 9.3

The following pictures show certain things that Suresh does. Look at the pictures and write sentences using the adverbs given.
The first one is done for you.

1. always

2. usually

3. often

4. never

5. sometimes

6. rarely

1) Suresh always helps his mother.

2) He .....

Textbook reference image 3

Activity 9.4

Speaking

Get into groups of five. Each member should construct a sentence about himself/herself using one of the adverbs given below. The leader of each group should report the sentences to the class.

e.g. :- Dinith usually gets up at 5.30 in the morning.
usually/normally/sometimes/rarely/often/always/never

Activity 9.5

Write a paragraph about yourself or one of your family members using as many adverbs of frequency as you can.

Name of the lesson - "Opposites Attract!" - Antonyms			
Name of the teacher	HS/TE21/0027	**Class**	Grade 8-A Grade 8-B CEFR A1-A2
Date and duration	21st September 2026 40 minutes × 2	**Number of students**	Grade 8A - 20 Grade 8B - 18

Classroom profile:

The lesson is designed for two parallel Grade 8 classes, 8A and 8B, with 20 and 18 students respectively. The learners follow the Sri Lankan national curriculum and have Sinhala as their first language. English is used as the main classroom language, with short instructions, modelling and visual support. The lesson is based on Activity 2.4 and the Word Guide on antonyms in the Grade 8 Pupil's Book. Because the class includes mixed-ability learners, vocabulary is introduced through movement, contextual reading, colour-coded word formation, pair work and a short team challenge.

Rationale:

The lesson follows a pre,while, post sequence and moves from familiar opposites to antonyms in context. Learners first experience opposites through a quick movement game and simple word pairs. During the while stage, they read the peacock-and-fox extract and notice target words such as unhappy, unpleasant, impossible and discouraged. The teacher then makes the word-building pattern visible by highlighting prefixes such as un-, im-, il-, in- and dis-. Pair and group tasks recycle the same vocabulary through matching, the textbook Antonym Jar and a short challenge. This keeps the lesson active while still completing the core textbook work within one 40-minute period.

Curriculum alignment:

Primary: Competency 4 - Builds up vocabulary using words appropriately and accurately to convey precise meaning. Competency Level 4.3 - Finds synonyms and antonyms for given words.
Supporting link: Competency Level 4.4 - Uses affixes to change the meaning of words, which supports the prefix-based antonyms introduced in the textbook.

Main aim:

The lesson aims to enable students to identify, form and use common antonyms accurately through contextual reading, prefix patterns, matching and short communicative vocabulary activities.

Intended Learning Outcomes:

- Identify the opposite meaning of familiar words from oral and visual prompts. (Remembering)
- Locate antonyms and meaning clues in the peacock-and-fox text. (Understanding)
- Recognize that some antonyms are formed with prefixes such as un-, im-, il-, in- and dis-. (Understanding)
- Match at least eight common words with their correct antonyms in the Antonym Jar activity. (Applying)
- Produce at least two correct antonym pairs orally or in writing during the pair/group tasks. (Applying)

Personal aims:

- To give short, clear instructions and model each task before learners begin.
- To involve both confident and lower-confidence learners through pair and team support.
- To use the textbook context rather than teaching antonyms as an isolated word list.
- To keep the lesson energetic but complete the core tasks within 40 minutes.

Skill integration:

Vocabulary development is the main focus. Reading is developed through the short story extract, speaking and listening through the warm-up and pair/group responses, and short guided writing through the Antonym Jar and exit ticket.

Anticipated problems:	**Solutions to anticipated problems:**
• A. Learners may confuse an antonym with a synonym. • B. Learners may add the wrong negative prefix, e.g., *unpossible*. • C. Some vocabulary in the story may be unfamiliar.	• A. Keep a visible reminder: antonym = opposite meaning; synonym = similar meaning. • B. Teach the textbook examples as fixed word families and colour-code the prefix.

• D. Dictionary work may take too long in one period. • E. Team competition may become noisy.	• C. Pre-teach only essential words and use the sentence context before giving the meaning. • D. Complete only a few items from Activity C as a class and assign the remaining items as homework. • E. Use a 5-second response rule, one speaker per group and a visible score.

Assumptions:

- Students know several basic opposite pairs such as big/small, hot/cold and happy/sad.
- Students can read a short Grade 8 text with teacher support.
- Students can work in pairs and small groups when roles are clearly explained.

Learning materials:

- Grade 8 English Pupil's Book - Activity 2.4 and Word Guide: Antonyms (Appendix F).
- Colourful Antonym Note / Board Plan (Appendix A).
- Opposite-pair warm-up cards / teacher prompt list (Appendix B).
- Prefix Builder pair cards (Appendix C).
- Antonym Jar answer/support sheet (Appendix D).
- Mini exit ticket (Appendix E).
- Whiteboard and markers; optional dictionaries.

Assessment and feedback:

Assessment is formative throughout the lesson. The teacher listens for correct opposite pairs during the warm-up, checks whether learners can locate target words in the text, monitors prefix choices during pair work, and reviews the Antonym Jar and exit ticket. Immediate oral feedback is used for simple mistakes, while repeated errors are corrected briefly on the board.

Lesson Procedure - 40 minutes: Antonyms

stage	Aim	Procedure	Interaction patterns	Time
Warm-up - "Opposite Moves"	To settle the class quickly and activate the idea of opposites.	T gives quick commands in opposite pairs: "Stand up / sit down", "open your book / close your book", "hands up / hands down", "smile / make a sad face". After 4-5 pairs, T asks: "What do these words do?" and elicits that they show opposite meanings. T introduces the word antonym.	T-Ss Ss-T	3 min

stage	Aim	Procedure	Interaction patterns	Time
Pre-task - “Find My Opposite”	To activate familiar vocabulary and prepare learners for the textbook concept.	T writes or shows 4 familiar words: hot, big, happy, early. In pairs, Ss say or write one opposite for each. T checks quickly: cold, small, sad, late. T explains: “Words with opposite meanings are antonyms.” T tells learners that today they will discover two ways antonyms can be formed.	T-Ss Ss-Ss	5 min

While 1 - Antonym Detectives in the story	To identify target antonyms in a meaningful context.	Ss open Activity 2.4. T reads the key part of the peacock-and-fox story aloud while Ss follow. In pairs, Ss scan and circle/underline unhappy, unpleasant, impossible and discouraged. T asks the one-word questions from the text and elicits: feeling sad - unhappy; unable to be done - impossible; to make someone feel discomfort - worry; to treat badly - ill-treat; to make someone lose confidence - discourage. T briefly confirms meaning from context.	T-Ss S Ss-Ss	7 min

stage	Aim	Procedure	Interaction patterns	Time
While 2 - Colourful note / guided discovery	To teach the two main ways antonyms are formed in the textbook.	T displays/writes Appendix A. First, T shows different-word antonyms: most/least, happy/sad, simple/complex, major/minor. Then T highlights prefix antonyms using colour: un + happy = unhappy; im + possible = impossible; un + pleasant = unpleasant; il + legal = illegal; in + correct = incorrect; dis + encourage = discourage. Ss repeat and copy only the short rule plus 3 examples.	T-Ss Ss-T S	8 min

stage	Aim	Procedure	Interaction patterns	Time
While 3 - Pair task “Prefix Builders”	To apply prefix patterns through supported pair work.	Each pair receives 2-3 base-word cards and separate prefix cards (Appendix C). Pairs build the correct antonyms, read them aloud and place them on the desk. T checks quickly and asks selected pairs to explain one pair, e.g., “possible - impossible”.	Ss-Ss T-Ss	6 min

stage	Aim	Procedure	Interaction patterns	Time
Post-task 1 - Antonym Jar Relay	To consolidate antonym pairs from the textbook through collaborative practice.	Ss form 4 small groups. Using the Antonym Jar word bank, each group completes the textbook chart. One learner writes while others discuss. T gives 4 minutes, then checks answers rapidly by calling one pair from each group. Expected pairs include maximum/minimum, kind/unkind, happy/sad, patient/impatient, urban/rural, local/foreign, beautiful/ugly, possible/impossible, absent/present and true/false.	Ss-Ss Ss-T	6 min

stage	Aim	Procedure	Interaction patterns	Time
Post-task 2 - Lightning round / Activity C starter	To transfer learning to new vocabulary and check independent recall.	T calls four words from Activity C: victory, cheap, early, narrow. Groups have 5 seconds to write an antonym on a small and hold it up. Suggested answers: defeat, expensive, late, wide. Remaining Activity C items are set as short homework/dictionary practice.	T-Ss Ss-Ss	3 min

stage	Aim	Procedure	Interaction patterns	Time
Closure - Exit ticket	To check individual understanding before the lesson ends.	Each learner completes the mini exit ticket: 1) happy → _____; 2) legal → _____; 3) maximum → _____; 4) Write one prefix that can form an antonym. T collects 3-4 samples or checks orally.	S T-Ss	2 min

Appendix A - Colourful Antonym Note / Board Plan

ANTONYMS = WORDS WITH OPPOSITE MEANINGS	
Example: happy ↔ sad hot ↔ cold early ↔ late	
1. Different words	**2. Add a prefix**
most ↔ least **happy ↔ sad** simple ↔ complex major ↔ minor	un + happy = **unhappy** im + possible = **impossible** un + pleasant = **unpleasant** il + legal = **illegal** in + correct = **incorrect** dis + encourage = **discourage**

Remember: Do not add a prefix randomly. Learn the common word pair and check the spelling.

Appendix B - Warm-up and Pre-task Prompt List

Teacher prompt / word	Expected opposite
stand up	sit down
open	close
hands up	hands down
smile	sad face / frown
hot	cold
big	small
happy	sad
early	late

Appendix C - Prefix Builder Pair Cards

Cut the boxes if you want physical cards. Give each pair a small selection of base words and prefixes.

un-	**happy**	**im-**	**possible**
un-	**pleasant**	**il-**	**legal**
in-	**correct**	**dis-**	**encourage**
unhappy	**impossible**	**illegal**	**discourage**

Appendix D - Antonym Jar Answer / Support Sheet

Word	Antonym
maximum	minimum
kind	unkind
happy	sad
patient	impatient
urban	rural
local	foreign
beautiful	ugly
possible	impossible
absent	present
true	false

Appendix E - Mini Exit Ticket

Photocopy and cut.

Name: _____ 1. happy → _____ 2. legal → _____ 3. maximum → _____ 4. One antonym prefix: _____	Name: _____ 1. happy → _____ 2. legal → _____ 3. maximum → _____ 4. One antonym prefix: _____

Name: _____ 1. happy → _____ 2. legal → _____ 3. maximum → _____ 4. One antonym prefix: _____	Name: _____ 1. happy → _____ 2. legal → _____ 3. maximum → _____ 4. One antonym prefix: _____

Appendix F - Textbook Reference: Activity 2.4 and Word Guide - Antonyms

The attached textbook pages provide the story context, the Word Guide on antonyms, the Antonym Jar activity and the dictionary follow-up used in this lesson.

Activity 2.4

A) Read the following story.

There was once a peacock who lived in the forest. He was very **unhappy**. A fox, who was passing by, stopped to speak to the peacock. 'Hello, my friend. Why do you look so sad? The peacock did not respond. The fox was not **discouraged** by the peacock's behaviour.

He decided to try again. 'Come on, my friend, why aren't you talking to me? You must have a reason. Did anyone ill- treat you, or are you angry with me?' asked the fox. 'No', said the peacock in a **low** voice. 'Then, what happened?' asked the fox. 'I don't like my voice. Every time, I open my mouth to sing, I hear an **unpleasant** sound,' replied the peacock. 'But you are one of the **most** beautiful birds in the animal kingdom. Why should you worry about your voice?' said the fox. 'I want to sing as beautifully as a nightingale,' replied the peacock. 'Oh, was that the reason why you looked so **unhappy**? Do you know, just as much as it is **impossible** for a nightingale to be as beautiful as you are, you too cannot sing as beautifully as a nightingale,' replied the fox. 'Remember, my friend, we should not compare ourselves with others. We have to be happy and content with what we have,' the fox said.

Answer the question given below.

Find one word for each of the following phrases from the text.

a) Feeling sad -
b) Unable to be done -
c) To make someone feel discomfort -
d) To treat badly -
e) To make someone lose confidence -

Activity 2.4: Peacock and fox story - contextual vocabulary and antonyms.

Word Guide-Antonyms

The opposite meaning of a word or the antonym can be formed by adding in-un-, im-, il- and dis- at the beginning of certain words.

Look at the following words.

1. happy - unhappy
2. possible - impossible
3. pleasant – unpleasant
4. legal - illegal
5. encourage – discourage
6. correct - incorrect

An antonym can also be a different word as shown below.

1. most – least
2. simple – complex
3. happy – sad
4. major – minor

B) Use words given in Antonym Jar and complete the antonyms chart.

maximum		kind	
happy		patient	
urban		local	
beautiful		possible	
absent		true	

C) Use a dictionary and find antonyms for the following words.

1. victory
2. cheap
3. answer
4. uncommon
5. local
6. complex
7. early
8. narrow
9. legal
10. fortunate
