Internship Lesson Plans - Week 4

28th September - 2nd October

HS/TE21/0027

Department of English Language Teaching

University of Kelaniya

Name of the Lesson - "Preposition Adventure" - Movement and Positions			
Name of the teacher	HS/TE21/0027	**Class**	Grade 8A Grade 8B CEFR A2
Date and duration	30th September 2026 2nd October 2026 2 × 40 minutes = 80 minutes*2	**Number of students**	Grade 8A - 20 Grade 8B - 18
Technology integration		JBL speaker, Smart Board (laptop)	

Classroom Profile:

The lesson is designed for two parallel Grade 8 classes, 8A and 8B. The learners follow the Sri Lankan national curriculum, their first language is Sinhala, and they are approximately at CEFR A2 level. The classes include mixed-confidence learners who benefit from visual support, movement, repetition and short communicative tasks. The lesson therefore combines Smart Board visuals, teacher-controlled technology, pair work, group work and textbook/workbook practice.

Rationale:

Prepositions are best understood when learners can see and physically experience relationships such as movement, direction and position. The lesson therefore begins with movement-based discovery, then uses the textbook route as a visual problem-solving task. In the second period, learners shift from movement prepositions to location and other common prepositions through a classroom picture, guided practice and short writing. Technology is used purposefully: the Smart Board enlarges the visual route and picture prompts, while the JBL supports a short direction-listening challenge without requiring student devices.

Curriculum Alignment:

Competency 6 - Uses English grammar for accurate and effective communication. Competency Level 6.7 - Uses prepositions appropriately. The Grade 8 Teacher's Guide highlights prepositions such as through, across, about, with, without, by, along and on, and expects learners to use prepositions appropriately in context.

Main Aim:

To enable students to understand and use common prepositions of movement, direction and position accurately in simple spoken and written sentences.

Intended Learning Outcomes:

- Identify the meaning of common movement prepositions from pictures and actions. (Remembering/Understanding)
- Use over, under, around, through, along, across, into, up and down to describe movement. (Applying)
- Follow and give a short route using appropriate prepositions. (Applying)
- Complete controlled textbook/workbook sentences with suitable prepositions. (Applying)
- Use position prepositions such as in, on, above, below, next to, behind and in front of to describe a classroom picture. (Applying)
- Produce at least three accurate sentences independently using prepositions. (Creating)

Personal Aims:

- To use the Smart Board and JBL only where they clearly support meaning and interaction.
- To keep instructions short and demonstrate every activity before learners begin.
- To create opportunities for movement, pair talk, group problem-solving and individual writing.
- To monitor lower-confidence learners closely and provide sentence starters when needed.
- To keep both 40-minute periods active and manageable.

Skill Integration:

Speaking and grammar are the main focus. Listening, reading, vocabulary and guided writing are integrated through route instructions, pair tasks and picture description.

Anticipated Problems:	**Solutions to Anticipated Problems:**
• Students may confuse through / across / along and over / above / under / below. • Students may understand the picture but hesitate to produce full sentences. • Some learners may focus on the game rather than accurate language. • Smart Board or audio may fail.	• Use arrows and movement demonstrations, and contrast one pair at a time. • Keep sentence frames visible: “Walk ____the road.” / “The clock is ____the board.” • Award points only for both the correct route/action and correct sentence. • Keep printed/textbook visuals ready and read the

	audio script aloud if technology fails.

Assumptions:

- Students know basic classroom and place vocabulary such as road, bridge, hill, tunnel, river and classroom.
- Students can follow short English instructions with visual support.
- Students can work in pairs and small groups and can copy short answers into exercise books.

Learning Materials:

- Grade 8 Pupil's Book - Activity 4.5, 'Let's learn Prepositions'.
- Workbook Activities 05, 06 and 08 shown in the attached materials.
- Teacher laptop + Smart Board.
- Small JBL speaker for the short direction-listening challenge.
- Whiteboard and markers.
- Prepared colourful preposition note / Smart Board slide (Appendix A).
- Teacher JBL direction script (Appendix B).
- Textbook/workbook activity pages (Appendix D).

PERIOD 1 - 40 Minutes: Movement and Direction Prepositions

Stage	Aim	Procedure	Interaction	Time
Warm-up - "Move the Marker!"	To energize learners and activate spatial language.	T places a marker/book on the desk and gives quick commands: "Put it on the desk / under the chair / next to the book." Two volunteers follow the commands. T then asks, "What words helped us know where to move it?" and introduces the lesson as a preposition adventure.	T-Ss S-Ss	4 min
Pre-task - Smart Board "Mystery Route"	To create curiosity and elicit movement prepositions.	T displays the textbook adventure-route picture on the Smart Board without showing the written instructions. In pairs, Ss study the route from A to the cave and guess how the boy should move. T accepts words/gestures such as over, through, along, around, across	T-Ss S-S	6 min

Stage	Aim	Procedure	Interaction	Time
		and into and writes them around the picture.		
While-task 1 - Animated Preposition Map	To clarify the meaning of target movement prepositions.	T displays Appendix A / the textbook picture and uses the pointer to animate the path: over, around, through, along, across, into, under, up and down. For each word, T gives one gesture and one sentence. Ss repeat the gesture + word, then complete oral frames: "Walk ___ the road." "Go ___the tunnel."	T-Ss Ss-T	8 min
While-task 2 - "Human GPS" Pair Challenge	To use prepositions in meaningful oral directions.	Pairs use the textbook route picture. Student A is the 'GPS' and gives 3-4 directions; Student B traces the route with a finger. Then they swap. T monitors and prompts with sentence starters. Two pairs demonstrate for the class.	S-S T-S	8 min
While-task 3 - Route Order Team Puzzle	To read and sequence route instructions.	Groups of 4 read the route instructions under Activity 4.5 and place/write them in the correct order by following the arrows in the picture. One group explains the first three steps; another continues. T checks by tracing the complete route on the Smart Board.	Ss-Ss Ss-T	9 min
Post-task - Smart Board Flash Check	To review the period quickly.	T flashes five mini-scenes/arrows on the Smart Board. Teams call out or write the correct preposition. T closes with: "Today we learned how things MOVE."	T-Ss Ss-Ss	5 min

PERIOD 2 - 40 Minutes: Position Prepositions and Consolidation

Stage	Aim	Procedure	Interaction	Time
Reactivation - JBL "Direction Beat"	To recall movement prepositions through listening and	T plays/reads the short Appendix B direction script through the JBL. Ss stand beside their desks and mime each command: "Walk along… go through… jump over… move around…" The final command is deliberately	T-Ss	4 min

Stage	Aim	Procedure	Interaction	Time
	action.	repeated with a different preposition to check attention.		
Pre-task - "Where Is It?" Smart Board Hunt	To shift from movement to position/location.	T displays the Workbook Activity 08 classroom picture on the Smart Board. In pairs, Ss find five items: teacher, clock, chart, table, students. T asks, "Where is the clock?" "Where is the teacher?" and elicits in front of, above, on, next to, behind, below, etc.	T-Ss S-S	5 min
While-task 1 - Position vs Movement Mini-Note	To distinguish closely related prepositions.	T uses Appendix A to contrast: into = movement to the inside / in = position inside; over = movement above / above = position higher; under / below; through = enter and come out; across = from one side to the other; along = following a line/path. Ss copy the short boxed note only.	T-Ss Ss-T	7 min
While-task 2 - Workbook Activity 05	To practise movement prepositions in sentences.	Ss complete Activity 05 individually. They compare answers with a partner. T checks quickly on the Smart Board by revealing one answer at a time. Expected target words from the supplied activity include along, across, through, over and into.	S S-S T-Ss	7 min
While-task 3 - Workbook Activity 06 "Preposition Teams"	To extend use to common prepositions in context.	Groups of 3-4 complete Activity 06. Each group receives/chooses two sentences to explain to the class. T focuses on meaning rather than isolated memorization and checks answers against the supplied word bank.	Ss-Ss Ss-T	7 min
Post-task - Workbook Activity 08 "Picture Reporter"	To produce original sentences using location prepositions.	Pairs write three sentences about the classroom picture using three different prepositions from the list. They exchange with another pair and underline the preposition in each sentence. Two pairs read their strongest	S-S Ss-Ss Ss-T	7 min

Stage	Aim	Procedure	Interaction	Time
		sentence aloud.		
Closure / Homework	To confirm learning and extend individual practice.	Each learner orally completes one teacher prompt: "The ____is ____the ___." Homework: complete the remaining sentences in Workbook Activity 08 and write two extra sentences about objects in your own classroom using two different prepositions.	T-Ss S	3 min

Appendix A - Colourful Smart Board / Student Note

PREPOSITIONS – WHERE? WHICH WAY?

MOVEMENT

along = follow a road/path across = from one side to the other

through = enter and come out into = move to the inside

over = move above under = move below around = move in a circle

up = move higher down = move lower

POSITION

in = inside on = touching a surface above = higher than

below / under = lower than next to = beside

behind = at the back in front of = at the front

Remember:

Movement tells HOW / WHICH WAY. Position tells WHERE.

Appendix B – JBL Direction Listening Script

1. Walk along the road.
2. Go through the tunnel.
3. Jump over the fence.
4. Run across the field.
5. Walk around the farm.
6. Go under the bridge.
7. Climb up the hill.
8. Come down the hill.
9. Walk into the cave.

Teacher use: read slowly once, then repeat at a natural speed through the JBL. Learners mime each direction. No student device is required.

Appendix C - Quick Teacher Support / Suggested Answers

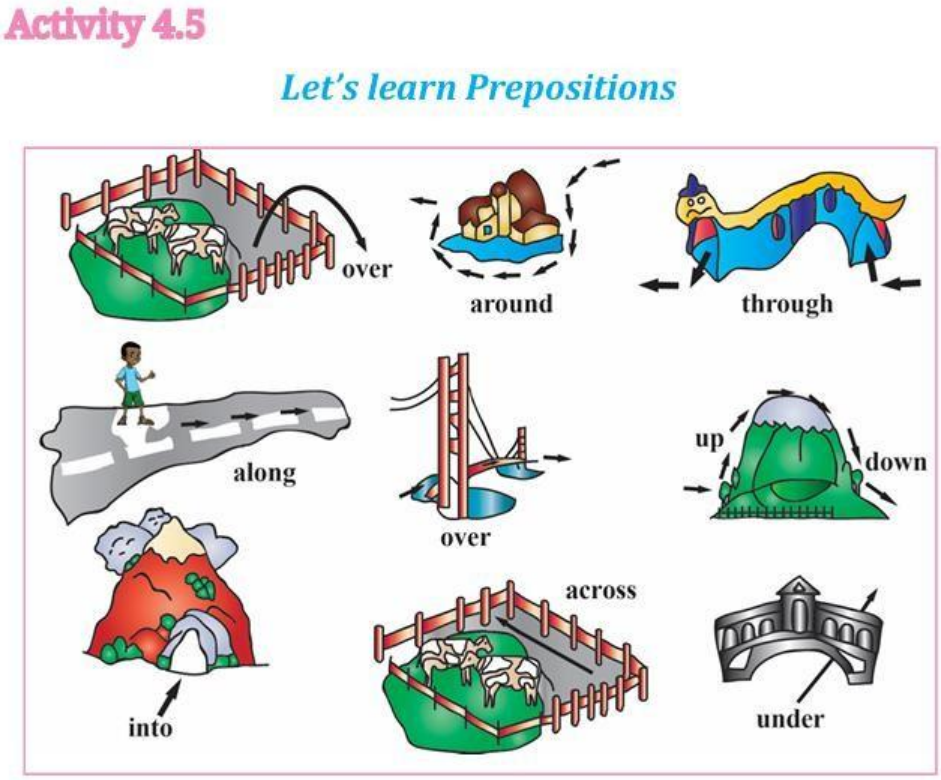

Workbook Activity 05 (from the supplied page): 1) along 2) across 3) through 4) over 5) into

Activity 08 accepts several correct sentences depending on the object chosen. Model forms: “The teacher is in front of the class.” “The clock is above the table.” “The chart is on the wall.”

For Activity 06, use the exact supplied word bank during checking; learners should justify the meaning in context rather than memorize an isolated list.

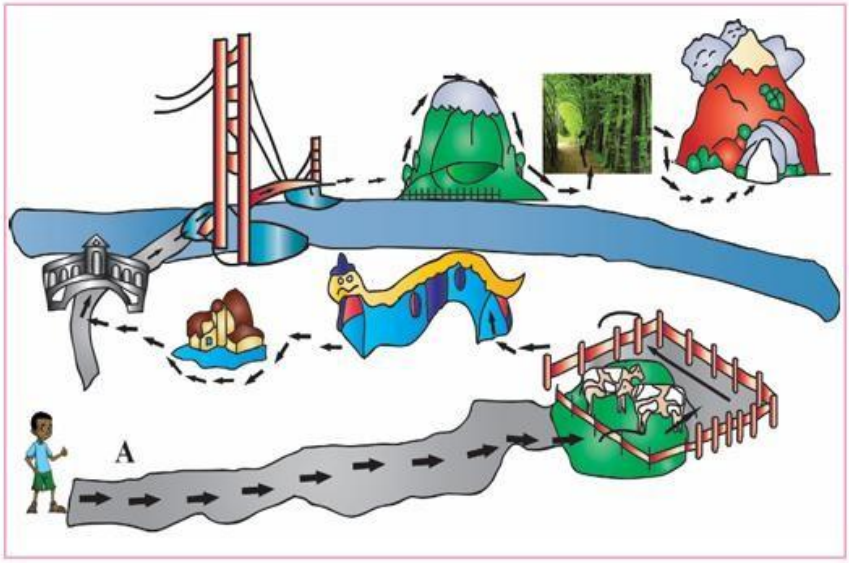

Appendix D – Source Activity Pages

Pupil’s Book – Activity 4.5: movement prepositions.

Pupil's Book – route-ordering task.

There is a magic sword in the cave. Can you get it? Although you can follow the instructions given, they are not in order. Write them in the correct order.

- Jump **over** the fence again and walk slowly **through** the tunnel.
- Start your journey from A and walk **along** the road.
- Next, climb **up** the hill and come **down**.
- Then, you can see a big bridge and walk **over** it.
- After that, go **through** the dark forest.
- Great! Now, the magic sword is yours.
- Then, jump **over** the fence and run **across** the field.
- After that, walk **around** the farm and go **under** the little bridge.
- Walk **into** the cave carefully.

Workbook – Activities 05 and 06.

Activity 05

Fill in the blanks with the correct prepositions.

through, over, into, along, across

1) We walk ..... the beach every evening.
2) When the traffic warden signaled, they walked ..... the road.
3) Look! The train is running ..... the tunnel.
4) Let's jump ..... the fence.
5) My grandfather put some coins ..... the drawer and locked it.

Activity 06

Fill in the blanks with correct prepositions.

Along, about, across, by, on, over, through, with, without, on

1) This lesson is .....prepositions.
2) We are learning prepositions ..... the teacher.
3) Ben is swimming ..... the river.
4) My sister wants to sit ..... mother.
5) The water flows down ..... the rocks.
6) I heard the news..... the radio.
7) We can't live ..... water.
8) The boy threw the ball ..... the wall.
9) I like walking .....the street in the evening.
10) I don't have time to watch news ..... TV in the morning.

Workbook – Activity 08: picture description.

Activity 08

Describe the picture using the following prepositions.

In, near, behind, on, above, next to, under, below, in front of

e.g. : 1) The teacher is in front of the classroom.

2) ……

3) ……

4) ……

5) ……

6). ……

7) ……

8) ……

9) ……

10) ……

Name of the lesson - "Secrets of the Pyramids" - Reading Comprehension			
Name of the teacher	HS/TE21/0027	**Class**	Grade 8-A Grade 8-B CEFR A2
Date and duration	28th September 2026 40 minutes × 2	**Number of students**	Grade 8A - 20 Grade 8B - 18

Classroom profile:

The lesson is designed for two parallel Grade 8 classes, 8A and 8B, with 20 and 18 students respectively. The learners follow the Sri Lankan National Curriculum and their first language is Sinhala. The classes are mixed ability and benefit from short instructions, visual support, pair discussion and clearly staged reading tasks. The source text, "The Ancient Pyramids of Egypt," is suitable for Grade 8 and combines prediction, skimming, scanning and a short speaking follow-up.

Rationale:

This 40-minute lesson follows the three major stages of a reading lesson: pre-reading, while-reading and post-reading. Learners first activate background knowledge and make predictions before seeing the passage. They then skim the three sections for main ideas and scan again for specific details. The post-reading task shifts from comprehension to meaningful use of information through a short "Pyramid Tour Guide" group performance. The lesson therefore moves from curiosity to purposeful reading and finally to spoken reconstruction of the text, while keeping the reading load manageable for mixed-ability learners.

Curriculum alignment:

Competency 5 - Extracts necessary information from various types of texts. Primary focus: Competency Level 5.2 - Extracts specific information from various types of simple texts. Supporting focus: Competency Level 5.6 - Extracts the general idea of a text. The lesson also integrates speaking and listening in the post-reading stage.

Main aim:

To enable students to understand a short factual text about the ancient pyramids of Egypt by predicting content, identifying main ideas, locating specific information and orally summarizing key facts.

Intended Learning Outcomes:

• predict likely content from the title, visuals and prior knowledge before reading. (Predicting)

• match the three sections of the passage with suitable headings by skimming for the main idea.

(Understanding)

- locate and record specific details about the purpose, construction, protection and contents of the pyramids. (Applying)
- answer comprehension questions using complete sentences with peer and teacher support. (Applying)
- compare pre-reading predictions with information in the text and correct inaccurate predictions. (Analyzing)
- use key facts and sentence starters to give a brief group "pyramid tour." (Applying/Creating)

Personal aims:

- To keep the reading lesson student-centred by allowing learners to predict and discover before teacher explanation.
- To give a clear reading purpose before each rereading so learners do not attempt to understand every word.
- To balance individual reading, pair checking and group speaking within the 40-minute period.
- To support lower-confidence learners through visuals, headings, sentence starters and peer support.
- To provide brief feedback that rewards evidence from the text rather than guessing.

Skill integration:

Reading is the main skill. Speaking and listening are integrated through prediction discussion, pair checking and the group tour-guide task. Short written responses are included in the prediction grid, heading match and specific-information questions.

Anticipated problems:	**Solutions to anticipated problems:**
• A. Some students may try to translate every word and read too slowly. • B. Vocabulary such as pharaoh, hieroglyphics, treasures and afterlife may block comprehension. • C. Eight specific-information questions may be demanding within one period. • D. Some learners may copy a partner's answer	• A. Give a clear purpose for each reading: first headings, then details; remind learners they do not need every word. • B. Pre-teach only four essential words with quick meanings/pictures and allow learners to infer the rest from context. • C. Let pairs divide the questions and then share answers; complete missing answers during

without locating evidence in the text. • E. Group tour-guide preparation may become noisy or exceed the time limit.	whole-class feedback. • D. Ask pairs to point to the sentence/section that supports each answer before it is accepted. • E. Use a visible 4-minute preparation limit and a 60-second performance limit per selected group.

Assumptions:

- Students can read a short factual passage with teacher and peer support.
- Students know basic vocabulary connected with Egypt, kings, building, gold and rivers.
- Students can work in pairs and groups of four when roles and time limits are clearly given.
- Students can write short complete answers using information directly from a text.

Learning materials:

- Printed reading activity "The Ancient Pyramids of Egypt" (Appendices A-D).
- Teacher laptop/tablet to display the pyramid image on page 3 of the activity, if convenient.
- Whiteboard and markers.
- Four small vocabulary cards: pharaoh, treasures, hieroglyphics, afterlife.
- One timer/clock for the group tour-guide preparation and performance.
- Teacher answer key and formative observation checklist (Appendix E).

Assessment and feedback:

Assessment is formative throughout. The teacher listens to prediction discussions, checks whether learners match the headings using evidence from each section, monitors pair answers to the eight comprehension questions and observes whether groups can retell key facts in the tour-guide task. Feedback is immediate and evidence-based: the teacher asks "Where did you find that?" and encourages learners to self-correct before supplying the answer.

Lesson Procedure - 40 minutes: "Secrets of the Pyramids" - Reading Comprehension

Stage	Aim	Procedure	Interaction	Time

			patterns	
Warm-up - "What Am I?"	To settle the class and activate curiosity about the topic.	T displays only the pyramid photograph from the reading (on the laptop or printed page) without showing the text. T gives three clues: "I am very old. I am in Egypt. Kings were buried inside me." Ss guess the object and share one fact they already know. T writes Pyramids in the centre of the board.	T-Ss Ss-T	3 min
Pre-reading - Look, Think and Talk	To activate prior knowledge and create a purpose for reading.	Ss work in pairs on the source pre-reading task. Without reading the passage, they predict: why pyramids were built, what might be found inside, problems builders might face, and three words they expect. They also circle likely objects from the list. T accepts imaginative answers and says: "Now read to see which ideas are correct."	S-S T-Ss	6 min
While-reading 1 - "Headline Hunt"	To skim for the general idea of each section.	Ss read the passage quickly and complete While-reading Task 1. They match the three sections with: Building the pyramids / Protecting the treasures / Beliefs about the afterlife. Ss compare with a partner. T checks by asking for one key clue from each section, not a full translation.	S S-S T-Ss	6 min
While-reading 2 - "Question Detectives"	To scan the text for specific information and answer comprehension questions.	Pairs complete While-reading Task 2. To save time, Partner A first focuses on Q1-4 and Partner B on Q5-8. After 5 minutes they explain their answers to each other and complete all eight responses. T circulates, asks "Where did you find it?", and gives help with pharaoh, treasures, hieroglyphics and afterlife only when needed.	S-S T-S	12 min

Post-reading 1 - Prediction Check	To confirm or revise pre-reading ideas using evidence from the text.	Pairs return to the prediction sheet and place a tick beside predictions supported by the passage. They correct one wrong prediction in a short sentence. T quickly checks the object list with the class: gold, food, jewels and dead bodies are explicitly supported by the passage.	S-S T-Ss	4 min
Post-reading 2 - "60-second Pyramid Tour"	To transform reading information into short collaborative speaking.	Ss form groups of four. One is the tour guide; others are visitors. Using the source sentence starters, groups prepare a very short tour covering: why pyramids were built, how stones were moved, what was inside, and beliefs about the afterlife. Two or three groups perform for about 60 seconds each; visitors ask one question. T praises accurate facts and clear use of the text.	Ss-Ss S-Ss T-Ss	7 min
Closure - "One Fact, One Word"	To consolidate the main learning without a written exit slip.	T asks rapid oral prompts: "One new fact?" and "One new word?" Four to five Ss respond. T summarizes: good readers predict, skim for the main idea, then scan for details.	T-Ss Ss-T	2 min

Appendix A - Pre-reading Prediction Task

The Ancient Pyramids of Egypt – Reading

Target Group – Grade 8 Learners

Pre-reading Task (Look, think and talk)

Do not read the passage yet. Discuss your ideas with your partner first, then write the short answers.

Prediction clue	Your prediction
Why were the pyramids built?	
What might be found inside?	
What problems might builders face?	
Write three words that you expect to see in the passage.	

Circle the things you think the Egyptians placed inside pyramids:

I. Gold
II. Food
III. Jewels
IV. Mobile Phones
V. Cloths
VI. Bicycles
VII. Dead Bodies

After reading, return to your predictions and place a ✓ beside the correct ones.

Appendix B - Reading Passage: The Ancient Pyramids of Egypt

The Ancient Pyramids of Egypt

Why were the pyramids built?

The pyramids were built as a resting place and to protect the Kings and queens of Egypt and other important people. Around were 130 pyramids built, the biggest one was the Great Pyramid of Giza. This was the tallest building in the world for 3800 years until the Eiffel Tower was built. It was built for the Pharoah Khuf and took 20 years to build it! They were built next to the River Nile, this was because it was easier for the builders to move the large stones by boat and then they were pulled to the building area. Scientists today are still not completely sure how the ancient Egyptians moved the massive stones. Once a pyramid was finished it was covered with white stone and gold was put on the top. In the bright Egyptian sunshine, the white and the gold would have gleamed brightly.

The ancient Egyptian engineers planned the pyramids so that there were many rooms and tunnels. It was thought that the pyramid rooms were for the pharaohs and all of their valuables. The engineers knew that thieves would try to steal the gold and jewels, so they made traps and false rooms. They put doors which opened onto a wall. But it didn't stop the thieves as many of the pyramids were robbed. Anyone who tried to steal from the pyramids was immediately put to death.

The Egyptians believed that people would move on to another life, so they filled the pyramids with many jewels, gold and even food. They thought that the pharaoh would need these things in their next life. The body was cleaned and wrapped in bandages to protect it and put into a stone case. They also have many of their things buried with them and people drew beautiful pictures on the walls which told the story of their lives. The ancient Egyptians used a language called 'Hieroglyphics' which was a mixture of drawings and signs. So we can discover how these kings and Queens lived.

Appendix C - While-reading Tasks 1 and 2

While-reading Task 1 (Read for the main ideas)

Read the passage quickly. Write the most suitable heading from the box beside each section of the passage.

Building the pyramids	Protecting the treasures	Beliefs about the afterlife

Text section	Suitable heading
Section 1	
Section 2	
Section 3	

While-reading Task 2 (Read for specific information)

Read the passage again and answer the questions in complete sentences.

1. Why were the pyramids built?

_____

2. How many pyramids were built, and which one was the largest?

_____

3. Why were many pyramids built near the River Nile?

_____

4. What materials covered a pyramid after it was completed?

_____

5. Why did the engineers include traps and false rooms?

_____

6. What objects did the Egyptians place inside the pyramids, and why?

_____

7. How was a dead person's body prepared before it was placed inside the pyramid?

_____

8. What were hieroglyphics, and what do they help us understand today?

_____

Appendix D - Post-reading Pyramid Tour Guide Task

5

Post-reading Task (Become a pyramid tour guide)

Work in groups of four. Prepare and perform a short guided tour of an ancient Egyptian pyramid. This activity integrates speaking and listening.

Your group should:

1. Choose one student to be the tour guide and the others to be visitors;
2. Explain why the pyramids were built and how the stones were moved;
3. Describe the rooms, tunnels, traps and treasures inside;
4. Explain the Egyptians' beliefs about the afterlife;
5. Allow the visitors to ask at least two questions;
6. Speak for about two to three minutes.

Useful speaking expressions

1. Welcome to the Great Pyramid of Giza.
2. The pyramids were built because …
3. The builders moved the stones by …
4. Inside the pyramid, you can see …
5. The ancient Egyptians believed that …
6. Do you have any questions?

Appendix E - Teacher Answer Key and Quick Support Note

While-reading Task 1

Section 1 - Building the pyramids

Section 2 - Protecting the treasures

Section 3 - Beliefs about the afterlife

While-reading Task 2

Q1 They were built as resting places and to protect kings, queens and other important people.

Q2 Around 130 pyramids were built; the largest was the Great Pyramid of Giza.

Q3 Many were built near the River Nile because large stones could be moved by boat and then taken to the building site.

Q4 They were covered with white stone and gold.

Q5 Engineers used traps and false rooms to protect gold, jewels and other valuables from thieves.

Q6 They placed jewels, gold, food and other possessions inside because they believed the dead would need them in the next life.

Q7 The body was cleaned, wrapped in bandages and placed in a stone case.

Q8 Hieroglyphics were a mixture of drawings and signs; they help us understand how ancient Egyptian kings and queens lived.

Essential vocabulary support:

- pharaoh - an ancient Egyptian king
- treasures - valuable things such as gold and jewels
- afterlife - life believed to continue after death
- hieroglyphics - ancient Egyptian writing using pictures/signs

Name of the Lesson - "Plural Detectives" - Forming Plural Nouns			
Name of the teacher	HS/TE21/0027	**Class**	Grade 7A Grade 7B CEFR A1
Date and duration	29th September 2026 40 minutes *2	**Number of students**	Grade 7A - 29 Grade 7B - 29

Classroom Profile:

The lesson is designed for two parallel Grade 7 classes, 7A and 7B, with 29 learners in each class. The learners follow the Sri Lankan national curriculum and are approximately at CEFR A1 level. Their first language is Sinhala, and the class includes learners with mixed confidence in English. Because the target vocabulary includes several spelling changes, the lesson uses visual examples, colour-coded rules, pair work and a short team challenge so that learners can notice patterns before applying them independently.

Rationale:

The lesson develops vocabulary accuracy by helping learners form common plural nouns using familiar spelling patterns. Instead of presenting the rules only as a list, learners first compare singular–plural word pairs and discover what changes. They then practise the rules through pair matching, complete the Pupil's Book Activity 8, and use selected items from the Workbook Activity 03. The final team challenge provides quick formative assessment while maintaining an enjoyable vocabulary-learning environment.

Curriculum Alignment:

Competency 4 - Builds up vocabulary using words appropriately and accurately to convey precise meaning. Competency Level 4.5 - Forms the plurals of nouns. The Grade 7 Teacher's Guide expects learners to form plurals using -s, -es, -en and vowel change; this lesson focuses on the plural patterns presented in the attached Pupil's Book section: adding -s, changing consonant + y to -ies, adding -s after vowel + y, and changing some nouns ending in -f / -fe to -ves.

Main Aim:

To enable students to recognise and correctly form common plural nouns by applying the spelling rules presented in the Grade 7 Pupil's Book.

Intended Learning Outcomes:

Identify singular and plural forms in familiar examples. (Remembering)

Explain, in simple language, what changes when a noun becomes plural. (Understanding)

Apply -s, consonant + y → -ies, vowel + y → -s, and selected -f/-fe → -ves rules. (Applying)

Choose the correct singular or plural noun to complete sentences in Activity 8. (Applying)

Distinguish nouns that change to -ves from common exceptions such as roof, chief and handkerchief. (Analyzing)

Personal Aims:

To keep explanations short and highly visual for lower-confidence learners.

To check understanding through examples before moving to textbook practice.

To involve every learner through pair work and a short team challenge.

To correct spelling errors supportively without slowing down participation.

Skill Integration:

Vocabulary and writing are the main areas. Reading, spelling, speaking and listening are integrated through teacher modelling, pair discussion and team responses.

Anticipated Problems:	**Solutions to Anticipated Problems:**
Students may think every noun ending in f / fe changes to -ves.	Emphasize the word "some" and show exceptions such as roof–roofs, chief–chiefs and handkerchief–handkerchiefs.
Students may confuse consonant + y and vowel + y.	Underline the letter before y in different colours: city → cities; toy → toys.
Learners may know the spoken plural but spell it incorrectly.	Keep a colour-coded rule chart visible during practice.
The pair/team activity may become noisy or take too long.	Use a fixed timer and one answer sheet/mini-board per pair or team.

Assumptions:

Students understand the basic idea of one item and more than one item.

Students can read familiar Grade 7 nouns such as school, city, toy, leaf and loaf.

Students can work in pairs and copy short answers into their exercise books.

Learning Materials:

Grade 7 Pupil's Book - plural learning point and Activity 8.

Grade 7 Workbook - Activity 03 (selected items / follow-up).

Whiteboard and markers.

Prepared singular–plural word cards or small paper chits.

Colour-coded plural rule chart (Appendix A).

Pair word-card set and teacher answer key (Appendix B).

Lesson Procedure - 40 Minutes

Stage	Aim	Procedure	Interaction	Time
Warm-up "One or Many?"	To settle the class and activate the idea of singular and plural.	T quickly shows/draws 5 familiar items one at a time (book, pen, leaf, toy, loaf). For each item T says, "One ___." Then T shows/draws two or writes the number 2 and Ss call out the plural. T does not explain rules yet; correct answers are praised and unusual answers are kept for later checking.	T-Ss Ss-T	3 min
Pre-task "Spot the Change"	To help learners discover plural spelling patterns.	T gives each pair five word pairs on small cards: school-schools, city-cities, toy-toys, leaf-leaves, loaf-loaves. Pairs circle/underline what changed and answer: "What was added or changed?" T elicits observations and writes the four pattern headings on the board.	S-S T-Ss	6 min

Stage	Aim	Procedure	Interaction	Time
While-task 1 Colour Rule Map	To clarify the target plural rules with examples.	Using Appendix A, T teaches the rules briefly: (1) most nouns + s: school→schools; (2) consonant + y: y→ies: city→cities; (3) vowel + y: +s: toy→toys; (4) some f/fe nouns: f/fe→ves: leaf→leaves, loaf→loaves, knife→knives. T stresses that not every f/fe noun changes and gives roof→roofs, chief→chiefs, handkerchief→handkerchiefs as examples. Ss repeat selected forms and copy only the short rule note.	T-Ss Ss-T	8 min
While-task 2 "Plural Partner Match"	To practise forming plurals collaboratively.	Each pair receives 8 singular cards. Partner A reads a singular noun; Partner B says or writes the plural. Then they swap roles. Suggested words: life, shelf, leaf, wolf, loaf, knife, city, toy. T monitors and asks pairs to explain which rule they used. Fast finishers receive roof, chief and handkerchief as challenge cards.	S-S T-S	6 min
While-task 3 Pupil's Book Activity 8	To apply plural forms in meaningful sentences.	Ss complete Activity 8 individually using the word box. T reminds them that some sentences require plural forms. After 4 minutes, Ss compare with a partner. T checks quickly: half; shelves; wolves; loaves; leaves, and asks which spelling rule helped with each plural.	S S-S T-Ss	7 min

Stage	Aim	Procedure	Interaction	Time
Post-task "Plural Relay"	To assess understanding through a quick team challenge.	Class forms 4 small teams. T shows one noun at a time: city, toy, leaf, knife, roof, wife. Teams have 20 seconds to write the plural and, where possible, the rule number on paper. One point for the correct plural and one bonus point for the correct rule. T briefly corrects any common mistake.	Ss-Ss T-Ss	5 min
Consolidation / Follow-up	To connect the lesson with the workbook and confirm learning.	T gives 2-3 items from Workbook Activity 03 orally (e.g., life, chief, calf) and asks Ss to respond. Ss begin the remaining Activity 03 in their exercise books; unfinished items may be completed after class. T closes by asking: "What happens to city? toy? leaf?"	T-Ss S	5 min

Appendix A – Colourful Student Note / Board Chart

PLURALS – ONE → MORE THAN ONE

1. Most nouns: add -s

school → schools book → books

2. Consonant + y: change y to ies

city → cities baby → babies

3. Vowel + y: just add -s

toy → toys boy → boys

4. Some nouns ending in f / fe: change to -ves

leaf → leaves loaf → loaves knife → knives

Remember: NOT all f / fe words change to -ves.

roof → roofs chief → chiefs handkerchief → handkerchiefs

Appendix B - Pair Word Cards and Answer Key

life → lives	**shelf → shelves**	**leaf → leaves**
wolf → wolves	**loaf → loaves**	**knife → knives**
city → cities	**toy → toys**	**roof → roofs**
chief → chiefs	**handkerchief → handkerchiefs**	**calf → calves**

Pupil's Book Activity 8 - Answer Key

1. half
2. shelves
3. wolves
4. loaves
5. leaves

Workbook Activity 03 - Suggested Answers

hoof – hooves

life – lives

wife – wives

calf – calves

elf – elves

thief – thieves

yourself – yourselves

cliff – cliffs

chief – chiefs

roof – roofs

scarf – scarves

handkerchief - handkerchiefs.

Appendix C – Source Activity Pages

Plural learning point from the Pupil's Book.

c. Mother Nature.

Plurals

Leaf | leaves | loaf of bread | loaves of bread

1. Add '**s**' to the singular form.
   e.g. :- school - schools
2. Singular nouns ending with '**consonant + y**' should be pluralized by adding '**ies**'
   e.g:- city - cities
3. Singular nouns ending with '**vowel + y**' should be pluralized by adding '**s**'
   e.g:- toy - toys
4. Some singular nouns ending with '**f / fe**' should be pluralized by adding '**ves**'
   e.g:- loaf - loaves

Pupil's Book Activity 8.

Activity 8

Reading

half, life, shelf, handkerchief, leaf, wolf, loaf, knife

Use the given words correctly to complete the sentences.

1. Don't eat the whole apple. Give me a …….. of it.
