| **Name of the lesson - "Rule, Duty or Advice?" - Modals: must, have to / has to, should** | | | |
|---|---|---|---|
| **Name of the teacher** | HS/TE21/0027 | **Class** | Grade 8A<br>Grade 8B<br>CEFR A2 |
| **Date and duration** | Date: 8th & 9th October 2026<br>40*2 = 80 minutes (160 minute) | **Number of students** | Grade 8A - 20<br>Grade 8B - 18 |
| **Technology Integration** | | Smart Board / laptop and small JBL speaker for a short "Advice Hotline" audio task. | |

**Classroom profile:**

The lesson is designed for two parallel Grade 8 classes, 8A and 8B, with 20 and 18 learners respectively. The learners follow the Sri Lankan National Curriculum and their first language is Sinhala. They are approximately at CEFR A2 level and benefit from contextual examples, role-play, visual support and short collaborative tasks. The double period develops the textbook learning point on must, have to / has to and should through school and everyday situations.

**Rationale:**

Modals become easier when students connect each form to a communicative purpose rather than memorizing isolated rules. Period 1 therefore introduces three meaning categories - strong rule/obligation, external duty/necessity and advice - using Smart Board situations and Activity 2.5. Period 2 begins with a short JBL "Advice Hotline", moves to Activity 2.6 and 2.7, and finishes with a practical School Rule Council role-play. The sequence gives repeated exposure to meaning, form and real use.

**Curriculum alignment:**

Primary grammar link: Competency 6.3 - Uses modals meaningfully. Supporting oral link: Competency 8.6 - Uses modals must, should and have to. The Grade 8 Teacher's Guide expects learners to use must, have to and should appropriately in different situations.

**Main aim:**

To enable students to distinguish and use must, have to / has to and should appropriately when expressing obligation, necessity and advice.

**Intended Learning Outcomes:**

• Identify whether a situation expresses a rule/obligation, necessity or advice. (Understanding)

• Use must / must not appropriately in simple strong rules and obligations. (Applying)

• Use have to / has to for external duties or necessary actions. (Applying)

• Use should / should not to give advice. (Applying)

• Complete textbook sentences with an appropriate modal and infinitive. (Applying)

• Use modals orally in a short role-play and group decision task. (Creating)

**Personal aims:**

• To use technology for meaningful listening and visual categorization.

• To prevent learners from treating must, have to and should as identical.

• To encourage quieter learners through pair rehearsal before speaking publicly.

• To manage the double period with clear transitions and time limits.

**Skill integration:**

Grammar and speaking are the main areas. Listening is integrated through the JBL audio task; reading and writing are practised through Activities 2.5-2.7 and role cards.

| **Anticipated problems:** | **Solutions to anticipated problems:** |
|---|---|
| • Learners may use must, have to and should randomly because all can sound like "need to".<br>• Students may forget has to with he/she/it.<br>• Learners may add to after must/should (e.g., must to go).<br>• Role-play may become too free and lose the target structure. | • Use a three-column meaning chart: MUST = strong rule; HAVE/HAS TO = external duty/necessity; SHOULD = advice.<br>• Keep the mini subject chart visible: I/you/we/they have to; he/she/it has to.<br>• Highlight must/should + V1 with no to.<br>• Give each role card two required target phrases and monitor before presentation. |

**Assumptions:**

• Students know common school-rule and health vocabulary.

• Students can use base verbs after can and other familiar structures.

• Students can discuss briefly in pairs and groups with sentence frames.

**Learning materials:**

• Grade 8 Pupil's Book - Learning Point and Activities 2.5-2.7 (Appendix E).

• Smart Board / laptop with the colourful modal note (Appendix A).

• Small JBL speaker and "Advice Hotline" script (Appendix B).

• Situation/role cards (Appendix C).

• Teacher answer/support sheet (Appendix D).

• Whiteboard and markers.

**PERIOD 1 - 40 Minutes: Meaning and Controlled Practice**

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **Warm-up - "Rule, Duty or Advice?"** | To activate the three communicative meanings. | T displays three icons on the Smart Board: red RULE sign, school bag/duty, speech bubble/advice. T reads six quick situations (e.g., "Wear a seat belt", "Finish homework", "You look tired"). Teams point to RULE / DUTY / ADVICE. T accepts reasoning without naming all modals yet. | T-Ss<br>Ss-Ss | 5 min |
| **Pre-task - Textbook discovery** | To notice modals in a meaningful context. | T displays the three learning-point sentences: "We should not compare…", "We have to be happy…", "You must have a reason." Pairs underline the modal phrase and decide which icon/category matches each. T bridges to meaning. | T-Ss<br>S-S | 6 min |
| **While-task 1 - Smart Board modal map** | To clarify meaning and form. | Using Appendix A, T teaches: must + V1; have/has to + V1; should + V1. T contrasts meaning and shows negatives. Quick concept checks ask: "Advice or rule?" "He - have to or has to?" "Do we say must to?" | T-Ss<br>Ss-T | 9 min |
| **While-task 2 - Activity 2.5 "Sentence Mixer"** | To form accurate modal sentences. | Pairs use the textbook table to make four logical sentences, each with a different subject and target modal. T models one only. Pairs read one sentence to another pair; partners judge meaning and grammar. T then checks selected examples. | S-S<br>Ss-Ss<br>T-Ss | 10 min |

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **Post-task - "Modal Corners"** | To apply meaning to real situations. | Three corners are labelled MUST, HAVE TO, SHOULD. T reads five situations. Pairs choose a corner/card and explain one answer: "You should… because…" or "Students must…". T awards a point for appropriate meaning and correct form. | Ss-Ss<br>Ss-T | 7 min |
| **Exit check** | To retrieve the key differences. | Learners complete orally: "For advice we use ___." "With he/she, we say ____to." "After must we use ___." | T-Ss | 3 min |

**PERIOD 2 - 40 Minutes: Listening, Textbook Practice and Role-play**

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **Reactivation - JBL "Advice Hotline"** | To identify modals through listening. | T plays/reads three mini problems through the JBL (Appendix B). Pairs choose the best response card: must / have to / should. After each, one pair gives a complete sentence. | T-Ss<br>S-S | 5 min |
| **Pre-task - "Fix the Modal"** | To reactivate form before written practice. | T displays three incorrect sentences: "She have to leave early." "You must to be punctual." "He should goes home." Pairs correct them. T reveals corrections and briefly revisits form. | T-Ss<br>S-S | 5 min |
| **While-task 1 - Activity 2.6** | To complete modal choices in context. | Ss complete Activity 2.6 individually, then compare with a partner. T discusses acceptable choices where context permits more than one modal and asks learners to justify the meaning rather than memorize an answer. | S<br>S-S<br>T-Ss | 9 min |

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **While-task 2 - Pair role cards "What should I do?"** | To use modals in short communicative exchanges. | Pairs receive one situation card: sick student, new prefect, passenger, careless cyclist, homework problem. Student A explains the problem; Student B gives one advice sentence and one obligation/necessity sentence. They swap roles with a new card. T monitors target forms. | S-S<br>T-S | 9 min |
| **Post-task - Activity 2.7 + "School Rule Council"** | To move from controlled writing to group production. | Learners write three original modal sentences for Activity 2.7. Then groups choose their best three "school rule/advice" sentences. One group representative reads them; class signals A (advice) or O (obligation). | S<br>Ss-Ss<br>Ss-T | 9 min |
| **Closure** | To consolidate meaning and form. | Class chants the three reminders: "must + V1", "have/has to + V1", "should + V1". T checks one example from each category. | T-Ss | 3 min |

**Assessment and feedback:**

The teacher assesses learners formatively through the category warm-up, Smart Board checks, Activity 2.5 and 2.6 responses, listening choices and role-play production. Feedback focuses first on meaning (rule/duty/advice), then on form, especially has to and the base verb after must/should.

**Appendix A - Colourful Smart Board / Student Note**

**MODALS - RULE, DUTY OR ADVICE?**

**MUST / MUST NOT**

Strong rule or strong obligation.

Form: must + V1

Example: Passengers must fasten seat belts.

**HAVE TO / HAS TO**

A duty or necessity from a situation/rule.

I/you/we/they have to ...

he/she/it has to ...

Example: The teacher has to correct our books.

**SHOULD / SHOULD NOT**

Advice - what is a good/bad idea.

Form: should + V1

Example: You should rest if you are ill.

**REMEMBER**

Do NOT say must to / should to.

Use the base verb after must and should.

**Appendix B - "Advice Hotline" JBL Script**

• Caller 1: "I have a bad headache and I stayed up very late."

• Caller 2: "I am a prefect. The principal gave me several responsibilities."

• Caller 3: "The traffic light is red, but my friend wants to cross the road."

**Pairs respond with one suitable sentence using should, have/has to, or must/must not.**

**Appendix C - Pair Situation Cards**

| | |
|---|---|
| **You are sick before class.** | **You are a new school prefect.** |
| **A passenger is standing in a moving bus.** | **Your friend never does homework.** |
| **A cyclist is riding without a helmet.** | **A student has an exam tomorrow.** |

**Appendix D - Teacher Support / Suggested Responses**

Activity 2.6 should be checked for meaning in context; likely forms include should / has to / have to / must depending on sentence intention.

Key form reminder: must + V1; should + V1; I/you/we/they have to + V1; he/she/it has to + V1.

Role-play feedback order: 1) Is the meaning appropriate? 2) Is the modal form correct? 3) Is the base verb correct?

**Appendix E - Source Activity Screenshots**

**Grade 8 - Modal learning point and Activity 2.5.**

**LEARNING POINT**

Read the following sentences taken from the story.

1. We should not compare ourselves with others.
2. We have to be happy and content with what we have.
3. You must have a reason.

*We use have to / must / should + infinitive to talk about obligation, things that are necessary to do, or to give advice.*

*Read the following sentences with "have to" and "has to."*

4. *Nurses have to wear a uniform.*
5. *The teacher has to correct our books.*

*"have to"* expresses **impersonal** obligation.

**should** ——▲—— **must**

*Here, **must** and **have to** are both used for obligation and **should** is used to give advice.*

## Activity 2.5

### *Speaking / Grammar*

Study the following table and form sentences.

| | | |
|---|---|---|
| | | fasten the seat belts when driving. |
| You<br>A student<br>We<br>Children<br>Passengers<br>An adult | should/should not<br>must/ must not<br>have to<br>has to | smoke. It's not good for health. |
| | | go to bed early because you have to go to school tomorrow. |
| | | learn this well. It'll be useful. |
| | | obey our elders. |
| | | set examples to children. |
| | | help others. |

**Grade 8 - Activities 2.6, 2.7 and listening Activity 2.8.**

## Activity 2.6

### *Grammar*

Complete the following blanks using ***must, have to/has to*** or ***should***.

1 A: Ruwini is not well.
B: She.....leave early.

2 When a tyre is punctured the driver ..... change it.

3 I ..... wash all my clothes myself.

4 If you are a prefect you ..... be responsible for many things.

5 The principal said, "You ..... be punctual".

6 Pedestrians ..... use the zebra crossing.

7 "Whenever the dog wants to go out I ..... open the door and let it out", Roy said.

## Activity 2.7

Write 3 sentences each using ***must, have/has to*** or ***should*** or with the ***negative*** form.

## Activity 2.8

### Listening

Listen to your teacher and follow the instructions.

| **Name of the lesson - "Cause and Result Connectors" - Conjunctions: as, since, so** | | | |
|---|---|---|---|
| **Name of the teacher** | HS/TE21/0027 | **Class** | Grade 8A<br>Grade 8B<br>CEFR A2 |
| **Date and duration** | Date: 5th of October 2026<br>80 minutes | **Number of students** | Grade 8A - 20<br>Grade 8B - 18 |
| **Technology Integration** | | No technology required; dialogue, sentence strips and board work are used. | |

**Classroom profile:**

The lesson is designed for two parallel Grade 8 classes, 8A and 8B, with 20 and 18 learners respectively. The learners follow the Sri Lankan National Curriculum and their first language is Sinhala. They are approximately at CEFR A2 level. The lesson uses the Unit 3 bus-stop dialogue and Activities 3.2-3.3 to develop a practical understanding of conjunctions that connect a reason and a result.

**Rationale:**

Students often understand the ideas of reason and result before they know how to connect them accurately. The lesson therefore starts with everyday "why?" situations, then lets learners notice as, since and so in the textbook dialogue. A simple cause/result arrow makes the difference visible: as/since introduce the reason, while so introduces the result. Pair sentence matching and a short "So Chain" group activity then move learners from controlled joining to original production.

**Curriculum alignment:**

Competency 6 - Uses English grammar for accurate and effective communication. Competency Level 6.8 - Uses conjunctions appropriately. The Grade 8 Teacher's Guide specifies as, since and so for joining simple sentences.

**Main aim:**

To enable students to use as, since and so appropriately to connect reasons and results in simple sentences.

**Intended Learning Outcomes:**

- Identify as, since and so in textbook examples. (Remembering)
- Distinguish reason connectors (as/since) from the result connector so. (Understanding)
- Complete sentences using as, since or so according to meaning. (Applying)
- Join pairs of simple sentences accurately using the target conjunctions. (Applying)
- Produce at least two original cause-and-result sentences in a group task. (Creating)

**Personal aims:**

• To make the reason-result relationship visible before focusing on punctuation.

• To keep the lesson interactive without technology.

• To monitor comma use with so and sentence meaning with as/since.

• To encourage pair explanation rather than answer copying.

**Skill integration:**

Grammar and writing are central. Reading is integrated through the bus dialogue and textbook examples; speaking and listening are developed through pair explanation and the group chain.

| **Anticipated problems:** | **Solutions to anticipated problems:** |
|---|---|
| • Learners may use so where a reason connector is needed. | • Keep a visible arrow: REASON → RESULT; as/since point to the reason, so points to the result. |
| • Students may think as/since always mean time. | • Use the textbook hospital example to show the causal meaning of since/as. |
| • Learners may forget the comma before so when joining two clauses. | • Write one model with a comma before so and underline it. |
| • Pairs may match sentence halves by vocabulary rather than meaning. | • Ask pairs to explain "Why do these two ideas belong together?" before accepting the match. |

**Assumptions:**

• Students can read short simple sentences and identify basic cause/effect relationships.

• Students know common vocabulary in the Unit 3 bus/hospital context.

• Students can work in pairs and small groups with a fixed time limit.

**Learning materials:**

• Grade 8 Unit 3 dialogue and Learning Point - Conjunctions (Appendix D).

• Activities 3.2 and 3.3 (Appendix D).

• Colourful board note (Appendix A).

• Cause/Result sentence strips (Appendix B).

• Teacher answer/support sheet (Appendix C).

• Whiteboard and markers.

**Lesson Procedure - 40 Minutes: "Cause and Result Connectors"**

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **Warm-up - "Why? So What?"** | To activate the ideas of reason and result. | T says three everyday situations: "I was late." "It was raining." "I was hungry." Pairs quickly add either a reason or a result orally. T draws REASON → RESULT on the board and explains that today's words connect these ideas. | T-Ss<br>S-S | 4 min |
| **Pre-task - Dialogue noticing** | To notice target conjunctions in context. | Ss read the short Unit 3 bus/hospital extract. Pairs circle since, as and so. T asks: "Which part tells WHY?" "Which part tells WHAT HAPPENED NEXT/RESULT?" Learners help place each example under REASON or RESULT. | S-S<br>T-Ss | 6 min |
| **While-task 1 - Board note** | To clarify meaning and sentence pattern. | Using Appendix A, T teaches: as/since = because/reason; so = result. T models one sentence with as/since at the beginning and one with so between clauses, highlighting the comma before so in the textbook pattern. | T-Ss<br>Ss-T | 7 min |
| **While-task 2 - Activity 3.2 II** | To choose conjunctions according to meaning. | Ss fill the three blanks with as, since or so individually, then compare with a partner. T checks by asking whether the blank introduces a reason or a result. | S<br>S-S<br>T-Ss | 6 min |
| **While-task 3 - Activity 3.3a "Reason Match"** | To join sentence halves using as/since. | Pairs match the A and B sentence halves, then join at least three pairs using as or since. T monitors meaning and word order. Selected pairs read answers aloud and classmates confirm the cause relationship. | S-S<br>Ss-T | 7 min |

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **Post-task - "So Chain" group game** | To produce original cause-result sentences. | Groups receive a starter such as "The bags were heavy…" One learner completes it with so + result; the next group receives a new cause. Each group writes one correct so sentence and one as/since sentence. T gives a point for meaning + grammar. | Ss-Ss<br>Ss-T | 6 min |
| **Closure - Exit strip** | To check individual understanding. | Each learner completes one prompt: "I was tired, so _____." or "Since _____, I _____." T checks a few before dismissal. | S | 4 min |

**Assessment and feedback:**

The teacher uses the REASON → RESULT distinction as the main formative check. Learners are assessed through Activity 3.2, joined sentences in Activity 3.3, the group chain and the individual exit strip. Feedback asks learners first to identify the reason/result relationship, then to repair the conjunction or punctuation.

**Appendix A - Colourful Board / Student Note**

**CONJUNCTIONS - REASON AND RESULT**

**AS / SINCE = REASON**

Use as or since to tell why something happens.

Example: Since my father was in hospital, we went to see him.

Example: I am going there as I have to see a doctor.

**SO = RESULT**

Use so to tell what happens because of the first idea.

Example: The bag was heavy, so the conductor helped her.

**QUICK TEST**

Ask: "Is this part the reason or the result?"

Reason → as / since

Result → so

**PUNCTUATION**

When so joins two full clauses, use a comma before so in the textbook pattern.

**Appendix B - Cause / Result Sentence Strips**

| | |
|---|---|
| **It rained heavily the night before.** | **The match was postponed.** |
| **The bags were heavy.** | **My friends helped me carry them.** |
| **I woke up late.** | **I missed the school bus.** |
| **The soil is rich.** | **The plants grow well here.** |

**Appendix C - Teacher Support / Suggested Answers**

Activity 3.2 II: 1) as/since 2) Since/As 3) so.

Activity 3.3a expected pairings: Bobby/book shelf too high; he/not well; match/heavy rain; aunt/tea too hot; I/woke up late. Learners may use as or since for the reason.

Activity 3.3b uses so for results; remind learners to place a comma before so when joining two complete clauses.

## Appendix D - Source Activity Screenshots

### Grade 8 Unit 3 - Bus dialogue and conjunction learning point.

**The bus conductor:** *You're welcome*. Could someone please give a seat to this old lady?

**Rusiru :** Here, I'll give you mine.

**Old lady:** Thank you for being such a kind boy. Where are you going?

**Rusiru :** We are going to the hospital **since** my father was admitted there a few days ago.

**Old lady:** Oh, *I'm sorry to hear* that. *I hope he'll get well soon*. I'm going there too **as** I have to see a doctor.

**Mother:** Rusiru, ring the bell.... move forward **so** we could get off quickly. Could you help the old lady to get off the bus?

**Rusiru:** Certainly, mother.

## Activity 3.2

I. Answer the following questions:

1. Who is at the bus stop?
2. Where are Rusiru and his mother going?
3. Why are they going there?
4. Who will help the old lady to get off the bus?

LEARNING POINT

**Conjunctions**

Read the following sentences.

- We are going to the hospital **since** my father was admitted there a few days ago.
- I'm going there too **as** I have to see a doctor.
- Rusiru, ring the bell and move forward, **so** we could get off quickly.

The highlighted words are called conjunctions.

24

### Grade 8 - Activity 3.2 II and Activity 3.3(a).

II. Fill in the blanks using '**as**, **since** and **so**'

1. The bus conductor asked everybody to hurry up ..... it was getting late.
2. ..... Rusiru's father was in hospital, he and his mother were going to see him.
3. Rusiru's mother's bag was too heavy ..... the bus conductor helped her with it.

III. List the words and expressions given in the dialogue that we use to express courtesy and consideration.

## Activity 3.3

a) Join the following sentences using '**since**' and '**as**'.

***e.g. :***

1. Bobby couldn't take the book from the shelf **as** it was too high.
2. Bobby couldn't take the book since the book shelf was too high.

| A | B |
|---|---|
| ***1.*** Bobby couldn't take the book from the shelf. | ***a.*** It rained heavily the night before. |
| ***2.*** He didn't go to school. | ***b.*** It was too hot. |
| ***3.*** The match was postponed. | ***c.*** I woke up late. |
| ***4.*** My aunt couldn't drink the tea. | ***d.*** He was not well. |
| ***5.*** I missed the school bus. | ***e.*** It was too high. |

**Grade 8 - Activity 3.3(b): joining results with so.**

b) Join the following sentences using '**so**'. Do not forget to put a comma before the conjunction.

***e.g. :*** One of the boys hurt himself in the cricket match, **so** he was taken to the hospital.

| A | B |
|---|---|
| ***1.*** One of the boys hurt himself in the cricket match. | ***a.*** My friends helped me to carry them. |
| ***2.*** The bags were heavy. | ***b.*** She did well in school. |
| ***3.*** Manu was hardworking. | ***c.*** The plants grow well here. |
| ***4.*** The soil is rich. | ***d.*** We could cross the road. |
| ***5.*** The policeman stopped the traffic. | ***e.*** He was taken to the hospital. |

## Activity 3.4

***Read and answer.***

### Courtesy

Courtesy means polite behaviour towards others. Such behaviour includes good manners and a respectful attitude towards others. A courteous person is decent in speech and behaviour and is considerate of others. In return, such people are admired and respected by society.

Being courteous does not require hard work or effort. We have only to be aware and respectful of other people's feelings. Using, expressions like *excuse me, thank you, I'm sorry, please* and *you are welcome,* is one way to show our courtesy. What is meant by courtesy can be summed up in the saying "*Treat others as you want to be treated.*"

| **Name of the lesson - "Tomorrow and Beyond" - Simple Future and Future Continuous** | | | |
|---|---|---|---|
| **Name of the teacher** | HS/TE21/0027 | **Class** | Grade 7A<br>Grade 7B<br>CEFR A1 |
| **Date and duration** | Date: 7th & 8th October 2026<br>40*2 = 80 minutes (160 minute) | **Number of students** | Grade 7A - 29<br>Grade 7B - 29 |
| **Technology Integration** | | Smart Board / teacher laptop; optional JBL for a short "future forecast" audio cue. | |

**Classroom profile:**

The lesson is designed for two parallel Grade 7 classes, 7A and 7B, with 29 learners in each class. The learners follow the Sri Lankan National Curriculum and their first language is Sinhala. They are mixed-ability learners working around CEFR A1 and benefit from short instructions, strong visual support, repetition and controlled practice before freer speaking. The double-period lesson uses the Grade 7 Unit 10 "Future" activities and combines Smart Board visuals, pair work, individual textbook practice and a guessing game.

**Rationale:**

The two periods are deliberately organised around two related future forms. In Period 1 learners discover and practise the future continuous through a visual timeline and actions that will be in progress at a future time. In Period 2 the teacher contrasts this with the simple future for predictions and future events. The Smart Board makes the time difference visible, while the textbook activities provide controlled practice and the final holiday guessing game gives learners a meaningful reason to speak. This progression moves from noticing to guided practice and then to personal production.

**Curriculum alignment:**

Primary: Competency 6 - Uses English grammar for accurate and effective communication. Competency Level 6.1 - Constructs simple sentences. The Grade 7 Teacher's Guide includes the future continuous form under this competency level. The Unit 10 activities also practise simple future forms and future-time communication.

**Main aim:**

To enable students to distinguish and use the simple future and future continuous forms appropriately when talking and writing about future events and actions in progress.

**Intended Learning Outcomes:**

- Identify future-time clues such as tomorrow, next week, next year and at this time tomorrow. (Remembering)
- Form the future continuous using will be + verb-ing. (Applying)
- Change future continuous sentences into negative and question forms with support. (Applying)
- Use will + base verb to complete simple future predictions and scheduled future events. (Applying)
- Distinguish "will + verb" from "will be + verb-ing" in simple examples. (Analyzing)
- Describe an imagined future holiday so that a partner can guess the place. (Creating)

**Personal aims:**

- To keep the grammar explanation short and visual.
- To make the Smart Board support the time concept rather than replace interaction.
- To monitor lower-confidence learners closely during tense contrast tasks.
- To balance individual, pair and whole-class work across the double period.

**Skill integration:**

Grammar and speaking are the main areas. Reading and writing are integrated through Activities 5-9, while listening is used in the technology lead-in and peer guessing game.

| **Anticipated problems:** | **Solutions to anticipated problems:** |
|---|---|
| • Students may confuse "will do" and "will be doing".<br>• Students may omit be in the future continuous.<br>• Learners may forget -ing spelling or use the wrong verb form.<br>• The holiday guessing game may become noisy. | • Keep a two-column time chart visible: FUTURE FACT/PREDICTION = will + V1; ACTION IN PROGRESS = will be + V-ing.<br>• Colour-code will / be / -ing and drill two model sentences.<br>• Use only familiar verbs first and provide a mini verb-ing reminder.<br>• Use pairs, a 30-second clue limit and one guess at a time. |

**Assumptions:**

- Students already know common action verbs such as study, watch, read, sleep, travel and play.
- Students can recognise basic future time expressions.
- Students can work in pairs and copy short notes with teacher support.

**Learning materials:**

- Grade 7 Unit 10 "Future" - Activities 5-10 (source pages in Appendix E).

- Smart Board / laptop with the colourful Future Time note (Appendix A).
- Optional JBL or teacher voice for the "Future Forecast" prompt (Appendix B).
- Future-form sorting cards (Appendix C).
- Teacher answer key and support list (Appendix D).
- Whiteboard and markers.

**PERIOD 1 - 40 Minutes: Future Continuous - Actions in Progress**

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **Warm-up - "Tomorrow at 8…"** | To activate future-time thinking. | T shows three Smart Board icons: sleep, study, watch TV. T asks, "What will you be doing at 8.00 tonight?" Learners point/answer with one word or phrase. T accepts answers and says two model sentences without explaining the rule yet. | T-Ss<br>Ss-T | 4 min |
| **Pre-task - Smart Board "Time Window"** | To help learners notice an action in progress at a future time. | T displays a simple timeline: NOW → 8.00 tonight. A picture of a learner studying is placed above 8.00. T contrasts "I will study tonight" with "At 8.00 tonight, I will be studying." Pairs decide which sentence shows the action happening at that exact time. | T-Ss<br>S-S | 6 min |
| **While-task 1 - Colourful grammar note** | To clarify the form and meaning of the future continuous. | Using Appendix A, T teaches: S + will be + V-ing; negative: will not be + V-ing; question: Will + S + be + V-ing? T checks with quick oral prompts using sleep, watch, study and travel. Feedback is immediate and supportive. | T-Ss<br>Ss-T | 8 min |
| **While-task 2 - Activity 5 "Future Fixers"** | To practise positive future continuous forms. | Ss complete selected items from Activity 5 individually. They compare with a partner. T checks by asking learners to identify will be and the -ing verb in each answer. Faster learners complete all items. | S<br>S-S<br>T-Ss | 7 min |

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **While-task 3 - Activities 6 and 7 "Flip It"** | To practise negative and question forms. | Pairs choose four sentences from Activity 6, form the negative future continuous, then orally turn two of them into questions for Activity 7. T monitors for will not be / Will…be…? and corrects by pointing to the board formula. | S-S<br>T-S | 8 min |
| **Post-task - Activity 8 "Picture Predictions"** | To produce future continuous sentences from visual prompts. | T displays the Activity 8 picture page on the Smart Board. Pairs write two sentences about what the mothers will be doing next weekend. Selected pairs read theirs; the class checks the structure. | S-S<br>Ss-T | 7 min |

**PERIOD 2 - 40 Minutes: Simple Future + Contrast + Guessing**

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **Reactivation - "Future Freeze"** | To retrieve the future continuous form. | T says a future time and an action. Ss freeze/mime the action and one volunteer says the full sentence, e.g., "At 10 tomorrow, I will be reading." Two or three quick rounds only. | T-Ss<br>Ss-T | 4 min |
| **Pre-task - "Which Future?"** | To distinguish simple future from future continuous. | T displays paired examples: "Robots will do most of our work." / "At 8 tomorrow, I will be studying." Pairs hold up S (simple) or C (continuous). T elicits the difference: future fact/prediction vs action in progress at a future time. | T-Ss<br>S-S | 7 min |

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **While-task 1 - Smart Board contrast note** | To consolidate form and time meaning. | T uses Appendix A's two-column comparison. Learners copy only the two formulas and one example for each. T asks concept-check questions: "Exact future time?" "Prediction?" and keeps answers short. | T-Ss<br>Ss-T | 6 min |
| **While-task 2 - Activity 9 "Future Newsroom"** | To practise the simple future accurately. | Ss complete Activity 9 individually. Pairs compare. T reveals/checks answers on the Smart Board one by one and asks whether each sentence is a prediction, future event or promise/result. | S<br>S-S<br>T-Ss | 10 min |
| **Post-task - Activity 10 "Mystery Holiday"** | To personalize future continuous speaking. | Pairs imagine a future holiday. Student A gives 2-3 clues using "This time next week I will be…"; Student B guesses the place. Then they swap. T supports with the clue frame in Appendix D. Two pairs demonstrate. | S-S<br>Ss-T | 9 min |
| **Closure - "One of Each"** | To check the contrast quickly. | Each learner writes one simple future sentence and one future continuous sentence in the exercise book. T checks 3-4 examples before dismissal. | S | 4 min |

**Assessment and feedback:**

Formative assessment is carried out through Smart Board concept checks, Activity 5/6/7 responses, Activity 9 completion and the pair holiday guessing game. The teacher focuses on correct use of will, be, the base verb and -ing form, and gives learners a chance to self-correct by referring to the visible comparison chart.

**Appendix A - Colourful Smart Board / Student Note**

## FUTURE TIME - TWO EASY PATTERNS

### 1. SIMPLE FUTURE

Form: will + base verb (V1)

Use it for future facts, predictions, promises and events.

Example: Robots will do most of our work.

### 2. FUTURE CONTINUOUS

Form: will be + verb-ing

Use it for an action that will be happening at a particular future time.

Example: At 8.00 tonight, I will be studying.

### NEGATIVE

Simple: will not + V1

Continuous: will not be + V-ing

### QUESTION

Simple: Will + subject + V1?

Continuous: Will + subject + be + V-ing?

### TIME CLUES

tomorrow • next week • next year • at this time tomorrow • at 8.00 tonight

**Appendix B - "Future Forecast" Teacher/JBL Script**

• Tomorrow at 7.00 a.m., I will be travelling to school.

• At this time next Saturday, we will be playing on the beach.

• In the future, robots will help people in many jobs.

**Listening prompt: Which sentences describe an action in progress at a future time? Which one is a general prediction?**

**Appendix C - Future Form Sorting Cards**

| | |
|---|---|
| **will travel** | **will be travelling** |
| **will study** | **will be studying** |
| **will live** | **will be living** |
| **will watch** | **will be watching** |

**Appendix D - Teacher Support / Answer Key**

Activity 5: i) will be sleeping; ii) will be sitting; iii) will be watching; iv) will be studying; v) will be dancing; vi) will be studying; vii) will be cleaning; viii) will be shifting.

Activity 6 follows: will not be + verb-ing. Example: “When she arrives, I will not be reading.”

Activity 9 follows: will + base verb. Examples: will be, will give, will be, will go, will be held, will travel, will live, will do, will pass, will visit.

Holiday clue frame: “This time next week, I will be _____. I will be seeing _____. I will be staying near _____.”

## Appendix E - Source Activity Screenshots

### Grade 7 Unit 10 - Future continuous Activities 5-6.

- It is a machine, but can work like a person. **R** _ _ _ _.
- It is the fourth planet from the sun and the second smallest planet in the solar system. This is known as the 'Red Planet.' Man will make his first exciting voyage to this planet very soon. **M** _ _ _

**ACTIVITY 05**

Put the verbs into the correct form of the future continuous tense.

i. At midnight we…… (sleep) .
ii. By this time next week we…… (sit) at the beach.
iii. At nine I…… (watch) the news.
iv. Tonight we ……(study) for our English test.
v. They ……(dance) at the party.
vi. Next year we …….. ( study) in grade eight.
vii. We all …….. ( clean) our classroom every morning.
viii. We ……..( shift) to a new home next year.

**ACTIVITY 06**

**2.** Write these sentences using the negative form of the future continuous tense.

***e.g. :-*** *She ..... (not/sing) that song at the concert.*
*She will not be singing that song at the concert.*

1) When she arrives, I ……..(not/read).
2) When she plays music, we …….. (not/sleep).
3) They…….. (not/do) their homework this afternoon.
4) Raheem…….. (not/play) computer games before the exam.
5) The baby…….. (not/cry) when sleeping.
6) He ……( not / play) all afternoon.
7) I ……(not / work) all day.
8) He ……..(not/come) tomorrow morning.

### Grade 7 Unit 10 - Activities 7-8.

## ACTIVITY 07

Now form questions for the sentences in Activity 6 using the future continuous tense.

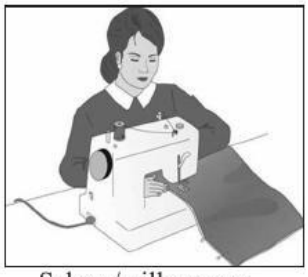

## ACTIVITY 08

Look at the pictures. Write what each friend's mother will be doing during the next weekend. The first is done for you.

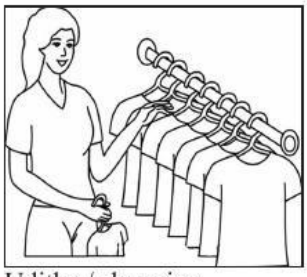

Geetha / story

1. Geetha's mother will be reading a story to us.

Sahan / pillow case

2. .....
.....

Uditha / shopping

3. .....
.....

Kusal / soup

4. .....
.....

**Grade 7 Unit 10 - Simple Future Activity 9 and Guessing Game Activity 10.**

Tharushi / letter

Savee / gardening

5. .....
.....

6. .....
.....

## ACTIVITY 09

Complete the following sentences using the simple future tense.

1. The English test ……. (be) on 7th July 2019.
2. The principal ……. (give) a speech at the "Science Day."
3. There ……. (be) a Shramadana campaign to clean the school compound.
4. The student …….. (go) to the library in the next period.
5. The Art Exhibition of the students ……. (be) held at the Auditorium.
6. Imran …….. (travel) to Ampara during the school vacation.
7. People ……..(live) longer in the future.
8. Robots…….. (do) most of our work.
9. Work hard and you …… (pass) the examination.
10. The grade 07 students……. (visit) Jaffna to distribute stationery to displaced families.

## ACTIVITY 10

***Guessing Game***

Imagine a future holiday and describe what you will be doing there this time tomorrow/next week/next month until your partner guesses the place.

| **Name of the lesson - "Where Is It?" - Prepositions of Position** | | | |
|---|---|---|---|
| **Name of the teacher** | HS/TE21/0027 | **Class** | Grade 7A<br>Grade 7B<br>CEFR A1 |
| **Date and duration** | Date: 6th of October 2026<br>80 minutes | **Number of students** | Grade 7A - 29<br>Grade 7B - 29 |
| **Technology Integration** | | No technology required; real classroom objects, board drawings and pair cards are used. | |

**Classroom profile:**

The lesson is designed for two parallel Grade 7 classes, 7A and 7B, with 29 learners in each class. The learners follow the Sri Lankan National Curriculum, their first language is Sinhala, and they work around CEFR A1. Because the learners benefit from concrete examples, the lesson uses real classroom objects, movement and a simple pair drawing task rather than abstract explanation.

**Rationale:**

Position words are most accessible when learners can physically see the relationship between objects. The lesson therefore begins with an eraser-and-book demonstration, moves to the Unit 9 preposition-identification task, and then provides guided practice through a human-position game and a pair "Draw It" barrier task. The post-task asks learners to describe their own classroom, making the grammar immediately meaningful and memorable.

**Curriculum alignment:**

Competency 6 - Uses English grammar for accurate and effective communication. Competency Level 6.7 - Uses prepositions appropriately. The Grade 7 Teacher's Guide states that learners should be able to use prepositions to describe position.

**Main aim:**

To enable students to identify and use common prepositions of position accurately in short oral and written descriptions.

**Intended Learning Outcomes:**

- Identify prepositions in simple textbook sentences. (Remembering)
- Understand the spatial meaning of in, on, under, near, above, behind, in front of and next to. (Understanding)
- Use at least five prepositions accurately with familiar classroom objects. (Applying)

• Follow and give short position instructions to a partner. (Applying)

• Write three simple sentences describing positions in the classroom. (Creating)

**Personal aims:**

• To keep explanations concrete and visual.

• To encourage every learner to speak at least once in pair work.

• To correct preposition errors through demonstration rather than long explanation.

• To manage movement safely in a crowded classroom.

**Skill integration:**

Speaking and grammar are central. Reading is integrated through the textbook sentences and writing through the pair drawing labels and classroom description.

| **Anticipated problems:** | **Solutions to anticipated problems:** |
|---|---|
| • Students may confuse above/on and under/below.<br>• Some learners may use one familiar preposition for every position.<br>• Movement tasks may become noisy.<br>• Lower-confidence learners may hesitate to give instructions. | • Demonstrate each contrast with the same two objects.<br>• Keep the short position chart visible throughout the lesson.<br>• Move only 2-3 volunteers at a time and keep the rest seated.<br>• Provide sentence frames: “Put the _____the ___.” / “The ____is ____the ___.” |

**Assumptions:**

• Students know common classroom nouns such as book, desk, chair, bag and board.

• Students can understand short teacher commands with gesture support.

• Students can work in pairs with a clear model.

**Learning materials:**

• Grade 7 Unit 9 Activity 1 - Underline the prepositions (Appendix D).

• Two classroom objects such as a book and eraser.

• Colourful board note (Appendix A).

• Pair “Draw It” instruction cards (Appendix B).

• Teacher answer/support sheet (Appendix C).

• Whiteboard and markers.

**Lesson Procedure - 40 Minutes: “Where Is It?”**

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **Warm-up - "Where's the Eraser?"** | To settle the class and activate position language. | T places an eraser in, on, under and near a book without naming the lesson. Learners call out any words they know. T asks, "What do these little words tell us?" and introduces prepositions as words that show position. | T-Ss<br>Ss-T | 4 min |
| **Pre-task - "Human Statue"** | To make spatial meaning visible. | Two volunteers follow simple teacher commands: "Stand near the door", "Stand behind the chair", "Stand in front of the board." The class repeats the preposition only, then one learner gives the next command using a sentence frame. | T-Ss<br>S-Ss | 5 min |
| **While-task 1 - Textbook Activity 1** | To notice prepositions in context. | Ss read the five Unit 9 sentences and underline the prepositions. Pairs compare. T checks near, over, on, above, into and briefly explains that "into" can show movement/change toward an inside/new form, while today's main focus is position. | S<br>S-S<br>T-Ss | 6 min |
| **While-task 2 - Colourful board note** | To clarify common position prepositions. | T draws one simple box and ball and teaches in, on, under, above, near, next to, behind and in front of. Ss copy only the word + tiny symbol/example, not long definitions. T checks meaning by moving the eraser. | T-Ss<br>Ss-T | 7 min |
| **While-task 3 - Pair "Draw It" barrier** | To follow and give position instructions. | Partner A receives 4 short instructions from Appendix B and reads them quietly; Partner B draws the objects in a simple box. Then they compare with the model and swap roles. T monitors language and supports with the visible frame. | S-S<br>T-S | 8 min |

| Stage | Aim | Teacher's role, procedure, monitoring and feedback | Students' role / Interaction | Time |
|---|---|---|---|---|
| **Post-task - "Classroom Treasure Hunt"** | To apply prepositions to the real classroom. | Groups choose three real objects and write three true sentences, e.g., "The clock is above the board." One speaker reads the sentences; the class points to the objects and confirms/corrects the preposition. | Ss-Ss<br>Ss-T | 7 min |
| **Closure** | To retrieve the target language. | T asks five rapid prompts while moving the eraser. Learners answer chorally. Each student writes one final sentence about the classroom. | T-Ss<br>S | 3 min |

**Assessment and feedback:**

Assessment is formative through Activity 1, oral responses, the pair drawing task and the classroom description. The teacher checks whether learners choose a preposition that matches the actual spatial relationship and gives immediate feedback by physically repositioning the object.

**Appendix A - Colourful Board / Student Note**

**PREPOSITIONS OF POSITION - WHERE IS IT?**

**IN**

inside something - The pencil is in the box.

**ON**

touching a surface - The book is on the desk.

**UNDER / BELOW**

lower than - The bag is under the chair.

**ABOVE**

higher than, not touching - The clock is above the board.

**NEAR / NEXT TO**

near = close; next to = directly beside

**BEHIND / IN FRONT OF**

behind = at the back; in front of = before / at the front

**Appendix B - Pair "Draw It" Instruction Cards**

| | |
|---|---|
| **Draw a ball in the box.** | **Draw a star above the box.** |
| **Draw a book under the table.** | **Draw a pencil next to the book.** |
| **Draw a bag behind the chair.** | **Draw a flower near the window.** |

**Appendix C - Teacher Support / Activity 1 Answer Key**

Activity 1 prepositions: 1) near 2) over 3) on, above 4) down (part of phrasal expression "turn down") 5) in, into. For the main lesson, focus on clear position relationships and treat "into" briefly as movement/change toward an inside/new state.

**Appendix D - Source Activity Screenshot**

**Grade 7 Unit 9 - Activity 1: Underline the prepositions; Activity 2 drawing task.**

# UNIT 09

## Our Beautiful World

### ACTIVITY 01

Underline the prepositions.

1. The two boys are standing near the clock tower.
2. The thief climbed over the wall and ran away.
3. My mother hung a beautiful picture on the wall above my bed.
4. Please turn down the volume of the radio. It's too loud.
5. In the fairy tale the witch turned the prince into a frog.

### ACTIVITY 02

Listen to your friend and draw. (Activity 6 in the Pupil's book)

| | | |
|---|---|---|
| 1 | 2 | 3 |
| 4 | 5 | 6 |
