**Internship Lesson Plans – Week 6**

**September 11th - September 15th**

**HS/TE21/0027**

**Department of English Language Teaching**

**University of Kelaniya**

| **Name of the Lesson - "Plural Factory" - Regular Plural Nouns** | | | |
|---|---|---|---|
| **Name of the teacher** | HS/TE21/0027 | **Class** | Grade 8-A<br>8-B<br>CEFR A2 |
| **Date and duration** | 11th October<br>40 minutes*2 | **Number of students** | 20 students<br>18 Students |
| **Technology Integration** | | Smart Board, PowerPoint presentation | |

**Classroom Profile:**

The lesson is designed for Grade 8-A, a mixed-ability class of 20 learners who follow the Sri Lankan National Curriculum. Their first language is Sinhala and the learners are approximately at CEFR A2 level. They benefit from clear instructions, visual examples, repetition and short opportunities to practise before working independently. The lesson therefore uses a Smart Board presentation, a quick movement-based game, an individual worksheet and peer checking to keep the grammar simple, visible and active.

**Rationale:**

This 40-minute lesson follows a guided-discovery and form-focused sequence. Learners first look at familiar one/many examples and guess the lesson topic before the teacher names it. The PowerPoint then helps them notice regular plural spelling patterns through colour and examples. The 'Throw the Pencil Case' game gives quick guided practice, while the passage worksheet provides individual evidence of learning. Peer checking allows learners to explain and self-correct answers before teacher feedback. The homework on the reverse side extends practice without overloading the observation period. This progression directly responds to the lecturer's feedback to maximise learner-generated responses, make guided discovery explicit and collect clearer individual evidence of learning.

**Curriculum Alignment:**

Competency 4 - Builds up vocabulary using words appropriately and accurately to convey precise meaning. Competency Level 4.5 - Forms the plurals of nouns. The Grade 8 Teacher's Guide includes forming plural nouns with -s / -es and recommends visuals, vocabulary games, cloze exercises and noticing word patterns. This observation lesson focuses only on regular plural patterns: most nouns +s; s/ss/ch/sh/x +es; selected o-ending patterns; vowel + y +s; and consonant + y → ies. Irregular plurals are intentionally left for a later

lesson.

**Main Aim:**

To enable students to recognise and accurately form regular plural nouns using the spelling patterns presented in the lesson.

**Intended Learning Outcomes:**

- Identify singular and plural nouns from familiar visual examples. (Remembering)
- Explain the basic difference between singular (one) and plural (more than one). (Understanding)
- Recognise which regular plural rule is needed for familiar nouns. (Understanding)
- Apply +s, +es, vowel + y → +s and consonant + y → ies accurately when forming plurals. (Applying)
- Complete a short passage independently using correct plural forms. (Applying)
- Check a partner's answers and make corrections after discussion and feedback. (Evaluating)

**Success Criteria:**

- The learner can give the correct plural form for at least 4 out of 5 oral/game examples.
- The learner can complete at least 8 of the 11 plural items in the passage correctly.
- The learner can explain or identify at least one plural rule when checking answers.

**Personal Aims:**

- To keep the grammar explanation concise and allow learners to notice patterns before explaining them.
- To use the Smart Board and PowerPoint purposefully rather than allowing technology to dominate the lesson.
- To distribute participation during the pencil-case game, including quieter learners where possible.
- To record brief individual evidence while monitoring the worksheet.
- To complete all stages comfortably within 40 minutes.

**Skill Integration:**

Vocabulary and writing are the main areas. Speaking and listening are integrated through guided discovery, oral responses and the game; reading is integrated through the short passage worksheet.

| **Anticipated Problems:** | **Solutions to Anticipated Problems:** |
| --- | --- |

| | |
|---|---|
| • A. Learners may add only -s to every noun.<br>• B. Learners may confuse vowel + y and consonant + y.<br>• C. Learners may confuse selected o-ending examples such as radio/radios and mango/mangoes.<br>• D. The pencil-case game may become noisy or take too long.<br>• E. Some learners may copy during the individual worksheet.<br>• F. The Smart Board or PowerPoint may fail. | • A. Keep the rule summary visible and ask learners to identify the ending before answering.<br>• B. Underline the letter before y and ask whether it is a vowel or consonant.<br>• C. Use the exact slide examples and contrast them side by side.<br>• D. Set clear rules: gentle throw, no running, one chit per turn, maximum 6-8 rounds.<br>• E. Seat learners normally, give a fixed time and monitor actively before peer checking begins.<br>• F. Use the printed slide/PDF copy or write the rule examples on the whiteboard as backup. |

**Assumptions:**

- Students understand the basic idea of one item and more than one item.
- Students know common nouns such as book, bus, toy, city, box, mango and key.
- Students can follow short classroom instructions and complete a simple cloze passage independently.
- Students are familiar with exchanging work for peer checking.

**Learning Materials:**

- Smart Board and final PowerPoint presentation (Appendix A).
- Pencil case containing singular-noun chits for the ‘Throw the Pencil Case’ game (Appendix B).
- Printed Regular Plurals Activity Sheet - one copy per learner, passage on the first side and homework on the reverse side (Appendix C).
- Whiteboard / Smart Board pen and classroom markers.
- Teacher answer key and quick formative assessment checklist (Appendix D).

**Lesson Procedure - (40 minutes)**

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **Lead-in / Guided discovery "Guess the Lesson"** | To activate prior knowledge and let learners discover the topic. | Before showing the lesson title, T displays four pairs: one book → books, one bus → buses, one toy → toys and one city → cities. Ss first look silently, then discuss with a nearby learner: "What changed?" and "What might today's lesson be?" Two or three Ss explain their ideas. T reveals "Singular and Plural / Plural Factory" only after learner responses. No rule is explained yet. | T-Ss<br>S-S<br>Ss-T | 2 min |
| **Pre-task / PowerPoint teaching** | To clarify regular plural patterns through guided noticing and learner-generated examples. | Using the Smart Board PPT, T confirms singular = one and plural = more than one. For each rule, T shows examples first and asks Ss to predict the change before the rule is revealed: most nouns +s; s/ss/ch/sh/x +es; selected o-ending examples; vowel + y +s; consonant + y → ies. After each rule, one learner suggests another familiar noun and the class predicts its plural. T keeps the final rule-summary slide visible. | T-Ss<br>Ss-T | 12 min |
| **While-task / "Throw the Pencil Case" game** | To give active guided practice in forming plurals. | T demonstrates one round. T gently throws the pencil case to a learner. The learner selects one singular-noun chit, reads it, comes to the front and writes the plural on the Smart Board. The class shows thumbs up/down and, when useful, names the rule. The learner gently throws the pencil case to another classmate. T completes about 6-8 rounds and corrects spelling briefly. | T-Ss<br>S-T<br>Ss-T | 9 min |

**Lesson Procedure - continuation**

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **Individual task / "Our School Fair" passage** | To obtain individual evidence that learners can apply the rules in context. | T distributes the two-sided worksheet. Ss complete only the first-side passage independently by changing the singular nouns in brackets into correct plural forms. T reminds them: "Work by yourself first." T monitors and records quick evidence for selected learners. Early finishers re-read and check spelling. | T-Ss<br>S | 8 min |
| **Peer checking + whole-class feedback** | To promote explanation, self-correction and consolidation of the rules. | Ss exchange worksheets with a nearby partner. Partners compare answers, circle disagreements and explain which rule they used. T elicits answers one by one; before confirming, selected learners explain items such as boxes, mangoes, ladies/cities and keys/toys. Ss then return the papers and self-correct their own work. T briefly highlights the most common class error and models the correct pattern. | S-S<br>Ss-T<br>T-Ss | 6 min |
| **Homework + closure** | To extend practice and finish with a quick individual recap. | T points to the homework table on the reverse side and models one example only. Ss complete the rest at home; early finishers may begin it in class. For the final exit check, two individual learners give one plural example and the rule used. T closes: "Singular is one; plural is more than one." | T-Ss<br>Ss-T | 3 min |

**Total Time: 40 minutes**

**Assessment and Feedback:**

Assessment is formative throughout the lesson. The guided-discovery responses and pencil-case game provide quick oral evidence, while the “Our School Fair” passage provides individual written evidence for every learner. During the worksheet, T records brief notes for selected learners using Appendix D and checks achievement against the success criteria (8/11 or more). Peer checking is used for explanation and self-correction before teacher confirmation. The final individual responses show whether learners can state a plural form and identify the rule used.

# Appendix A - Smart Board PowerPoint Presentation (Slides 1-5)

## Singular and Plural

**Singular → Plural**

one object

many objects

1

## Warm-up: One or Many?

| one | many | one | two |
|---|---|---|---|
| book | books | bus | buses |

2

## Quick Discovery: What Changed?

| | |
|---|---|
| book | book + s = books |
| bus | bus + es = buses |
| toy | toy + s = toys |
| city | city → cities |

Pair talk: What changed in each word?

3

## Rule 1: Most nouns add S

Most nouns are easy. **Add S.**

| book | pen | lamp | girl |
|---|---|---|---|
| books | pens | lamps | girls |

4

## Rule 2: Special endings add ES

**s, ss, ch, sh, x**

These endings need ES.

| bus | glass | brush | box |
|---|---|---|---|
| buses | glasses | brushes | boxes |

5

# Appendix A - Smart Board PowerPoint Presentation (Slides 6-10)

## 🟧 Rule 2B: Nouns ending in O

Look at the letter before O.

**Vowel + O**
**add S**

radio → radios
video → videos
zoo → zoos

**Consonant + O**
**add ES**

mango → mangoes
tomato → tomatoes
potato → potatoes

Easy check: before O = vowel → S | before O = consonant → ES

6

## 🟩 Rule 3: Vowel + Y → add S

**Vowels: a, e, i, o, u**

If a vowel comes before y, just add S.

boy → boys
toy → toys
key → keys
monkey → monkeys

7

## 🟪 Rule 4: Consonant + Y → IES

**Consonants = other letters**

**Change Y to IES.**

city → cities
lady → ladies
baby → babies

Look before Y:
city → t + y

Remove y. Add ies.

8

## ⚖️ Y Ending Check

toy
letter before y = o
Vowel + y → toys

city
letter before y = t
Consonant + y → cities

Class question:

key → ?
baby → ?
tray → ?

9

## ✅ Exit: Our Plural Rules

Most nouns
+ S
book → books

s, ss, ch, sh, x
+ ES
box → boxes

Consonant + O
+ ES
mango → mangoes

Vowel + Y
+ S
toy → toys

Consonant + Y
→ IES
city → cities

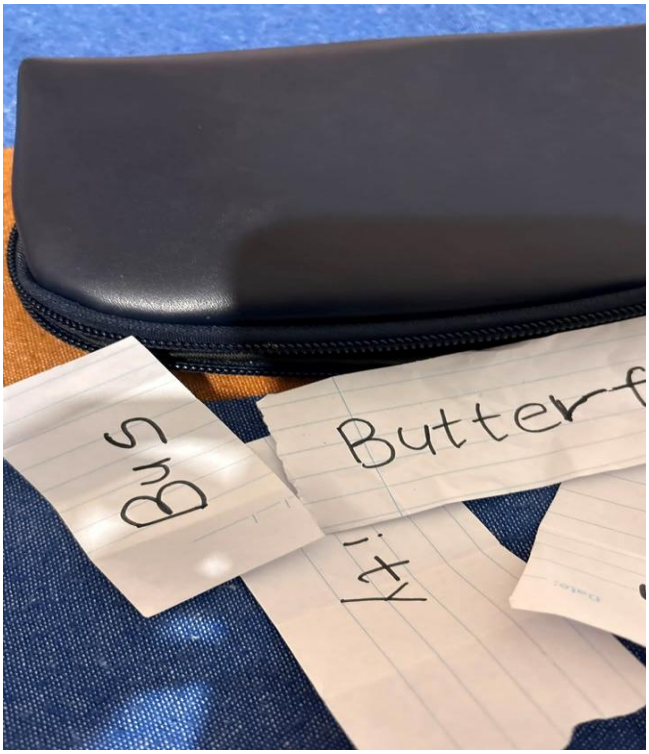

One noun becomes many nouns. Great work, Plural Detectives!

10

**Appendix B - “Throw the Pencil Case” Game Chits**

Cut the boxes into separate chits and fold them. Place them inside the pencil case. Use only as many rounds as time allows (about 6-8). Learners write the plural form on the Smart Board.

| | |
|---|---|
| **book** | **bus** |
| **toy** | **city** |
| **box** | **key** |
| **radio** | **mango** |
| **class** | **lady** |
| **brush** | **tomato** |
| **girl** | **watch** |
| **baby** | **video** |

## Appendix C - Individual Activity: “Our School Fair”

### REGULAR PLURALS - ACTIVITY SHEET

Name:

_____

**Fill in the blanks with the correct plural form of the word in brackets.**

**Our School Fair**

Last Friday, our school had a colourful fair. Many _____ **(student)** came to the school early in the morning. They carried _____ **(box)** filled with decorations and games. Some _____ **(girl)** decorated the hall with colourful _____ **(balloon).** Near the entrance, there were several _____ **(bench)** for parents to sit on. The younger children brought their favourite _____ **(toy).** Two _____ **(lady)** sold cakes and drinks at a small stall. There were also many _____ **(dish)** of tasty food and baskets of _____ **(mango)**. At another stall, students displayed beautiful _____ **(key)** chains and handmade cards. At the end of the day, all the _____ **(class)** helped to clean the school. Everyone enjoyed the fair very much.

## Appendix C - Homework: “Plural Factory Challenge”

### HOMEWORK - PLURAL FACTORY CHALLENGE

Name: _____

**Complete the table. Write the rule and the correct plural form.**

Use**: +s | +es | vowel + y → +s | consonant + y → ies**

| Singular noun | Rule | Plural noun |
|---|---|---|
| pencil | | |
| teacher | | |
| flower | | |
| bag | | |
| bus | | |
| watch | | |
| brush | | |
| box | | |
| mango | | |
| tomato | | |
| hero | | |
| radio | | |
| video | | |
| boy | | |
| key | | |
| city | | |
| baby | | |
| lady | | |

## Appendix D - Teacher Answer Key and Quick Formative Assessment Checklist

**Individual passage answer key:**

students; boxes; girls; balloons; benches; toys; ladies; dishes; mangoes; keys; classes.

**Homework table answer key:**

pencil → pencils (+s); teacher → teachers (+s); flower → flowers (+s); bag → bags (+s)

bus → buses (+es); watch → watches (+es); brush → brushes (+es); box → boxes (+es)

mango → mangoes (+es); tomato → tomatoes (+es); hero → heroes (+es)

radio → radios (+s); video → videos (+s); boy → boys (vowel + y → +s); key → keys (vowel + y → +s)

city → cities (consonant + y → ies); baby → babies; lady → ladies

**Quick Formative Assessment Checklist**

| Learner | Identifies plural rule | Forms plural accurately | Worksheet 8/11+ | Needs support |
|---|---|---|---|---|
| 1. | | | | |
| 2. | | | | |
| 3. | | | | |
| 4. | | | | |
| 5. | | | | |

| **Name of the Lesson - "Real or Imaginary?" - If Conditionals: Type 1 and Type 2** | | | |
|---|---|---|---|
| **Name of the teacher** | HS/TE21/0027 | **Class / Level** | Grade 10 A<br>Grade 10 B<br>Intermediate |
| **Date and duration** | Date: 15th October<br>45 minutes X 2 | **Number of students** | 20<br>23 |
| **Technology Integration** | Smart Board, PowerPoint presentation and teacher-controlled Wordwall activity | | |

**Classroom Profile:**

The lesson is designed for two Grade 10 classes of approximately 20/23 students who follow the Sri Lankan National Curriculum and are preparing for the G.C.E. Ordinary Level Examination. The learners' first language is Sinhala, and English is learned as a second language in a bilingual classroom context. They are approximately at an intermediate level and benefit from clear instructions, visual support, guided practice, pair work and short individual tasks. As a mixed-ability class, some learners require additional modelling and sentence support when using grammar accurately. Learners have already encountered Type 1 conditionals at a basic level and can discuss familiar topics such as school, money, travel, free time and personal goals. The lesson is highly supported through examples, pair discussion, a guided-discovery worksheet, Smart Board visuals and sentence frames before learners produce their own Type 2 conditional sentences.

**Rationale:**

This lesson keeps the pre-task, while-task and post-task sequence of the attached source plan but adapts it for school learners who do not have individual devices. Learners first discover the difference between Type 1 and Type 2 conditionals through a pair worksheet. The teacher then confirms the patterns briefly. Controlled practice checks form, and a teacher-controlled Wordwall activity on the Smart Board gives learners a meaningful reason to produce Type 2 sentences. The lesson ends with an individual paper-based post-task instead of Kahoot, so every learner provides clear evidence of understanding without needing a phone, QR code or internet-enabled personal device.

**Main Aim:**

To enable learners to distinguish Type 1 and Type 2 conditional sentences and to use Type 2 conditionals to talk about hypothetical or unlikely present/future situations with reasonable grammatical accuracy.

**Intended Learning Outcomes:**

- Identify Type 1 and Type 2 conditional sentences from examples. (Remembering)
- Explain the difference between real/possible and imaginary/unlikely situations. (Understanding)
- Apply the correct Type 1 or Type 2 verb pattern in controlled sentences. (Applying)
- Construct Type 2 conditional sentences using if + past simple + would + base verb. (Applying)
- Compare a partner's answer, identify an error and self-correct before teacher confirmation. (Analyzing/Evaluating)
- Produce at least two original Type 2 conditional sentences from hypothetical prompts. (Creating)

**Success Criteria:**

- Learner classifies at least 3 out of 4 guided-discovery sentences correctly.
- Learner completes at least 4 out of 5 controlled-practice items accurately.
- Learner produces at least two meaningful Type 2 sentences during the Wordwall activity.
- Learner scores at least 4 out of 5 on the individual paper post-task.

**Personal Aims:**

- To let learners notice and explain the grammar pattern before direct teacher explanation.
- To distribute speaking turns so quieter learners also produce the target language.
- To integrate the Smart Board and Wordwall purposefully without requiring learner devices.
- To monitor common errors and provide brief delayed feedback.
- To obtain clear individual evidence of learning through the final paper task.

**Skill Integration:**

Speaking is the main productive skill. Reading is integrated through the guided-discovery worksheet and prompts. Writing is practised through controlled and individual tasks. Listening is developed through teacher questions and peers' responses.

| **Anticipated Problems:** | **Solutions to Anticipated Problems:** |
|---|---|
| • A. Learners may confuse Type 1 and Type 2 verb forms.<br>• B. Learners may use will after if or would in both clauses.<br>• C. Some learners may hesitate to produce Type 2 sentences orally.<br>• D. Confident learners may dominate the Wordwall activity.<br>• E. Smart Board / Wordwall access may fail. | • A. Keep a clear Type 1 / Type 2 comparison box visible throughout practice.<br>• B. Highlight the if-clause and result clause in different colours and elicit the verb forms.<br>• C. Provide frames such as "If I had…, I would…" and allow short pair rehearsal.<br>• D. Rotate turns and require both partners to contribute before a pair may answer again.<br>• E. Use the printed list of numbered hypothetical prompts as an immediate backup. |

**Assumptions:**

- Learners have basic awareness of Type 1 conditionals.
- Learners understand familiar real and imaginary situations.
- Learners can work with a partner and complete a short written task independently.
- Learners have enough vocabulary to discuss familiar hypothetical topics.

**Learning Materials:**

- Smart Board and PowerPoint rule summary.
- Pair guided-discovery worksheet shown in Appendix A.
- Controlled-practice worksheet (Appendix B).
- Teacher-controlled Wordwall activity on the Smart Board and printed prompt backup (Appendix C).
- Individual paper post-task / mini quiz - no QR code or learner devices required (Appendix D).
- Teacher answer key and quick formative assessment checklist (Appendix E).
- Photographic evidence/reference of the pair task and Wordwall activity (Appendix F).

**Lesson Procedure - Grade 10 If Conditionals (45 minutes)**

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **Lead-in / Real or Imaginary?** | To activate prior knowledge and introduce the meaning contrast. | T displays two short sentences: "If I finish my work early, I will go to the gym." and "If I were invisible, I would travel around the world." Without naming Type 1 or Type 2, T asks: "Which one can really happen?" and "Which one is imaginary?" Ss discuss briefly with a partner and share answers. T tells Ss that they will discover why the sentences are different. | T-Ss<br>S-S<br>Ss-T | 5 min |
| **Pre-task / Pair Guided Discovery** | To help learners discover the meaning and form of Type 1 and Type 2 conditionals. | Pairs receive the guided-discovery worksheet. They: (1) tick Real/Possible or Imaginary; (2) underline the verb immediately after if; (3) circle the verb phrase in the second clause. The four sentences include two Type 1 and two Type 2 examples. Pairs answer the final question: "What changes between the real/possible and imaginary sentences?" T elicits patterns from learners before confirming them. | S-S<br>Ss-T<br>T-Ss | 10 min |
| **While-task 1 / Rule Confirmation + Controlled Practice** | To clarify the two forms and check accurate use. | T briefly confirms: Type 1 = if + present simple, will + base verb; Type 2 = if + past simple, would + base verb. T highlights meaning: possible/real vs imaginary/unlikely. Ss then complete five short gap-fill items individually. They compare with a partner, explain one disagreement and self-correct before T confirms answers. T briefly addresses the most common form error. | T-Ss<br>S<br>S-S<br>Ss-T | 10 min |

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **While-task 2 / Wordwall Hypothetical Challenge** | To give meaningful oral practice using Type 2 conditionals. | T opens the Wordwall on the Smart Board. Learners do not need phones. A pair chooses one numbered tile. T opens it and reads / displays the hypothetical prompt. The pair gets about 20-30 seconds to discuss, and both learners help build a complete Type 2 sentence. Example prompt: "If you could read people's minds for one day, you would…" Another: "If you could live one day in the future, you would…". T rotates turns among pairs, records common errors for delayed feedback and uses a printed prompt list if Wordwall fails. | T-Ss<br>S-S<br>Ss-T | 10 min |
| **Post-task / Individual Paper Check** | To assess individual understanding without learner devices. | T gives each learner a short 5-item paper task. Learners work alone. Items check: identifying Type 1/Type 2, choosing will/would, and completing a Type 2 sentence. After time is called, Ss exchange papers with a partner and self-mark from teacher-led answers. T explains the two most common errors and records learners who need further support. | T-Ss<br>S<br>S-S<br>Ss-T | 8 min |
| **Closure / Exit response** | To consolidate the main difference and obtain individual oral evidence. | T asks two individual learners: "Tell me one Type 1 sentence" and "Tell me one Type 2 sentence." T closes with the class summary: "Type 1 = possible; Type 2 = imaginary/unlikely." | T-Ss<br>S-T | 2 min |

**Assessment and Feedback:**

Assessment is formative throughout the lesson. Evidence is collected from the guided-discovery classification, individual controlled practice, oral Type 2 production during the Wordwall task and the final individual paper check. Peer checking is used for self-correction before teacher confirmation. The teacher also gives delayed feedback on recurring errors such as using will after if or using would in both clauses.

**Appendix A - Pair Guided Discovery Worksheet**

**Pair Activity**

1. Read each sentence and tick whether it is Real/Possible or Imaginary.
2. Underline the verb immediately after “if”.
3. Circle the verb phrase in the second part of the sentence (for example, will go / would travel).

| **Sentence** | **Real / Possible** | **Imaginary** |
|---|---|---|
| 1. If I finish work early today, I will go to the gym. | □ | □ |
| 2. If it rains tomorrow, I will take an umbrella. | □ | □ |
| 3. If I were invisible, I would travel around the world. | □ | □ |
| 4. If I lived on the moon, I would look at the Earth every day. | □ | □ |

**What do you notice?**

Look at the words you underlined and circled. What changes between the real/possible sentences and the imaginary sentences?

_____

_____

## Appendix B - Controlled Practice

Name: _____

**Complete the sentences using the correct verb forms.**

1. If I _____ (have) more free time, I _____ (learn) another language.
2. If she _____ (study) tonight, she _____ (pass) the test.
3. If we _____ (live) near the beach, we _____ (go) swimming every day.
4. If it _____ (rain) tomorrow, we _____ (take) umbrellas.
5. If I _____ (be) you, I _____ (talk) to the teacher.

## Appendix C - Wordwall Hypothetical Challenge

Teacher-controlled on the Smart Board. Learners choose a number; the teacher opens the tile. No learner device or QR code is required.

| | |
|---|---|
| 1. If you won a million rupees, ... | 2. If you could read people's minds for one day, ... |
| 3. If you could become invisible for one hour, ... | 4. If you could live anywhere in the world, ... |
| 5. If you met your favourite celebrity, ... | 6. If you could change one school rule, ... |
| 7. If you could speak any language perfectly, ... | 8. If you had an extra day every week, ... |
| 9. If you could travel back in time, ... | 10. If you could choose any job for one day, ... |
| 11. If you could live one day in the future, ... | 12. If you could fly, ... |
| 13. If you had no homework for a month, ... | 14. If you could visit any planet, ... |
| 15. If you could have any animal as a pet, ... | 16. If you were the principal for one day, ... |
| 17. If you could invent something new, ... | 18. If you could meet any person from history, ... |
| 19. If you had three wishes, ... | 20. If you could change one thing about the world, ... |

## Appendix D - Individual Paper Post-task

Name: _____ Score: _____ / 5

**1. Which sentence is Type 1?**

A. If I had more time, I would read more.

B. If it rains tomorrow, we will stay home.

C. If I were rich, I would travel.

**2. Which sentence is Type 2?**

A. If she studies, she will pass.

B. If I had a car, I would drive to school.

C. If it rains, we will take an umbrella.

**3. If I _____ a million rupees, I would buy a house.**

A. have

B. had

C. will have

**4. If she studies hard, she _____ the exam.**

A. will pass

B. would pass

C. passed

**5. Complete: If I were the principal, I _____.**

## Appendix E - Teacher Answer Key and Quick Formative Assessment Checklist

Guided discovery: 1 Real/Possible; 2 Real/Possible; 3 Imaginary; 4 Imaginary.

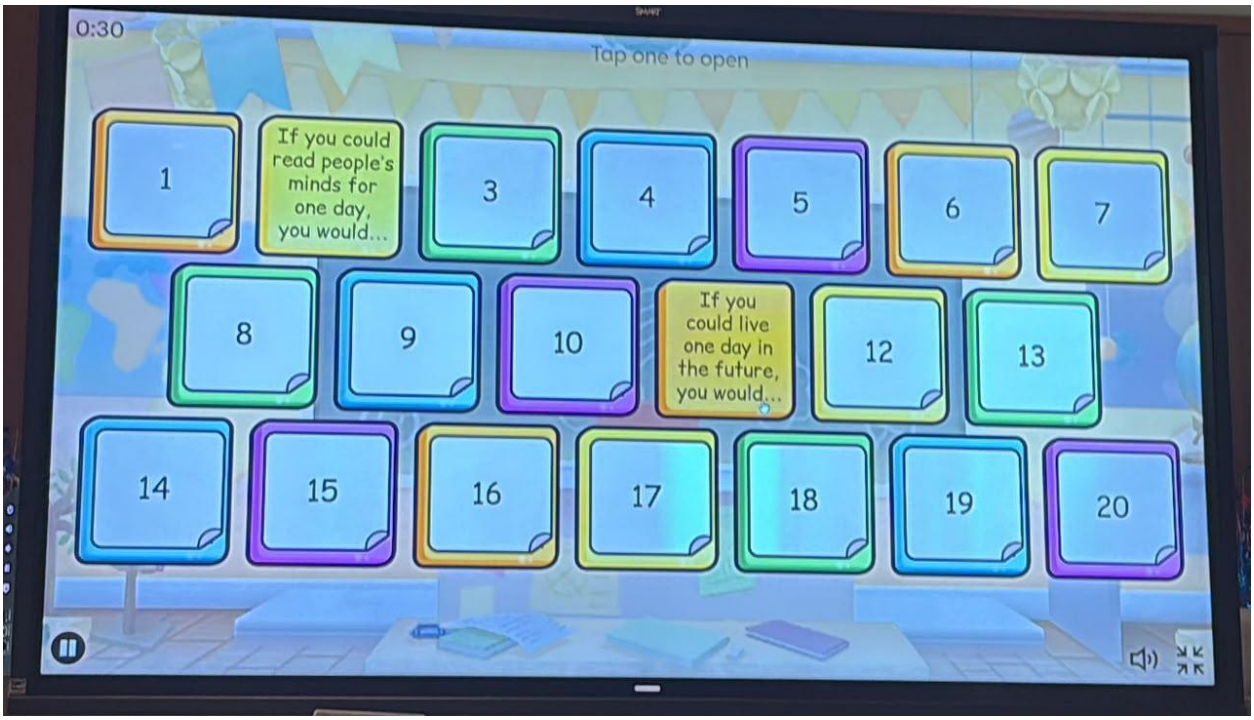

Controlled practice: 1 had / would learn; 2 studies / will pass; 3 lived / would go; 4 rains / will take; 5 were / would talk.

Post-task: 1-B; 2-B; 3-B; 4-A; 5 Accept any meaningful Type 2 completion with would + base verb.

| Learner | Classifies type | Uses form accurately | Produces Type 2 | Post-task 4/5+ |
|---|---|---|---|---|
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |

## Appendix F - sample

### 1. Teacher-controlled Wordwall activity on the Smart Board.

| **Name of the lesson - "From Doer to Receiver!" - Passive Voice - Simple Past Tense** | | | |
|---|---|---|---|
| **Name of the teacher** | HS/TE21/0027 | **Class** | Grade 8-A<br>Grade 8-B<br>CEFR A2 |
| **Date and duration** | Day 1: 12th October<br>Day 2: 13th October<br>Day 3: 14th October<br>3 × 40 minutes = 120 minutes per class<br>Two parallel classes = 240 minutes | **Number of students** | Grade 8A - 20<br>Grade 8B - 18 |
| **Technology Integration** | | Smart Board / colourful board note (Day 2); whiteboard and printed textbook/workbook materials | |

## Classroom profile:

The lesson is designed for two parallel Grade 8 classes, 8A and 8B, with 20 and 18 students respectively. The learners follow the Sri Lankan National Curriculum and their first language is Sinhala. They are approximately at CEFR A2 level and benefit from concrete examples, short instructions, visual support, pair rehearsal and controlled practice before independent writing. The three-period sequence is based on Unit 7, "The World of Children", Pupil's Book pages 71-74 and the related Workbook activities.

## Rationale:

The three-period lesson follows a communicative, guided-discovery and form-focused progression. On Day 1, learners enter through the library dialogue and vocabulary, then compare active/passive examples and explain what they notice before any formula is taught. On Day 2, learners use the noticed examples to build the simple past passive pattern themselves; the teacher then confirms and clarifies the rule on the Smart Board. Pair chits and an individual textbook task move from supported transformation to independent application. On Day 3, textbook/workbook tasks increase learner independence: learners attempt items individually before pair checking, explain corrections and analyse common errors. Individual written tasks and exit responses provide clearer evidence of achievement across the sequence.

**Curriculum alignment:**

Primary: Competency 6 - Uses English grammar for the purpose of accurate and effective communication; Competency Level 6.1 - Constructs simple sentences. The Grade 8 Teacher's Guide includes identifying the difference between active and passive voice and constructing passive-voice sentences in the past tense under this competency level.

**Main aim:**

To enable students to recognise the difference between active and passive focus and accurately construct simple past passive sentences using was/were + past participle.

**Intended Learning Outcomes:**

At the end of the three-period lesson sequence, students will be able to:

- Identify key information and selected library vocabulary in the Unit 7 dialogue. (Remembering)
- Explain, in simple terms, the difference between active and passive focus. (Understanding)
- Recall and explain the simple past passive pattern: receiver/object + was/were + V3 + (by + doer). (Understanding)
- Apply the pattern to complete controlled passive sentences with appropriate was/were and V3 forms. (Applying)
- Transform simple active-voice sentences into passive voice independently and collaboratively. (Applying)
- Identify and correct common errors such as incorrect object position, was/were choice and "was wrote". (Analyzing/Evaluating)
- Produce accurate passive sentences from new prompts without relying fully on a model. (Creating)

**Success Criteria:**

- The learner identifies active/passive focus correctly in at least 3 out of 4 quick-check examples.
- The learner completes at least 4 out of 5 Activity 7.2 items accurately.
- The learner independently transforms at least 3 simple active sentences using correct receiver + was/were + V3 word order.

**Personal aims:**

- To maximise learner noticing and learner-generated explanations before giving the grammar rule.
- To keep Smart Board explanation concise and use examples from learners/textbook as the starting point.
- To distribute pair roles so both learners transform, explain and check rather than one learner doing all the work.
- To provide opportunities for self-correction before whole-class teacher correction.
- To collect individual evidence from Activity 7.2, Workbook Activity 1 and selected exit responses.
- To manage the three periods realistically and focus feedback on the most common errors.

Skill integration:

• Reading is developed through the library dialogue and instructions in the Pupil's Book and Workbook. Speaking and listening are practised through pair discussion, role reading, learner explanations and feedback. Writing is developed through individual and collaborative passive-voice transformations.

| **Anticipated problems:** | **Solutions to anticipated problems:** |
|---|---|
| • A. Students may confuse the active and passive focus.<br>• B. Students may choose was/were incorrectly.<br>• C. Students may use the simple past form instead of V3 (e.g., was wrote).<br>• D. Some learners may find irregular past participles difficult.<br>• E. One learner may dominate pair transformation work.<br>• F. Learners may wait for teacher answers instead of checking their own work. | • A. Use a "doer → action → receiver" visual and ask learners which element moves to the front.<br>• B. Keep a singular/plural mini-grid visible: one = was; more than one = were.<br>• C. Highlight V3 and contrast "was wrote" with "was written".<br>• D. Pre-teach only the irregular V3 forms needed in the activities.<br>• E. Give pair roles (Transformer / Checker), then swap roles for the next chit.<br>• F. Require individual attempts and peer explanation/self-correction before teacher confirmation. |

Assumptions:

• Students can identify basic subject pronouns and common objects in simple sentences.

• Students are familiar with the simple past of common verbs at a basic level.

• Students can work in pairs and copy short grammar notes with teacher support.

• Students know or can learn common library words such as borrow, return, book and library through context.

Learning materials:

- Grade 8 English Pupil's Book, Unit 7, pages 71-74 (Appendix H).
- Related Grade 8 Workbook Activities 1-3 (Appendix H).
- Smart Board and colourful Passive Voice - Simple Past board note (Appendix A).
- Whiteboard and markers.
- Library vocabulary mini-chart (Appendix B).
- Active-to-passive pair chits (Appendix C).
- Quick V1-V2-V3 support list and pronoun-change strip (Appendix D).
- Answer keys for textbook and workbook tasks (Appendices E and F).
- Individual formative assessment checklist (Appendix G).

**Day 1 - Date: _____ (40 minutes): Library dialogue, vocabulary and guided discovery**

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **Lead-in - Library connection** | To activate familiar experience and encourage learner-generated predictions. | T shows the library picture on p.71 without explaining the situation. Pairs discuss two questions: "What place is this?" and "What problems can happen when we borrow books?" Several learners share ideas. T then reveals that Hasini is returning borrowed books and asks learners to predict what she may say to the librarian. | T-Ss<br>S-S<br>Ss-T | 4 min |
| **Pre-task - Dialogue role reading** | To understand the context through supported reading and learner interpretation. | T models only the first exchange. Ss read the dialogue on pp.71-72 in pairs as Hasini and Librarian, then swap roles for a short section. Before T confirms, pairs answer three gist questions from the dialogue in their own words. Selected learners justify one answer by pointing to a line in the text. | T-Ss<br>Ss-Ss<br>Ss-T | 9 min |

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **Vocabulary focus** | To infer and apply key library vocabulary from context. | Pairs match borrow, return, overdue, fine/late fee, reserve and requested with simple meanings in Appendix B. Learners then complete the five sentences under the dialogue individually using the word bank. Ss compare and explain one choice before T confirms the answers and corrects only common difficulties. | S-S<br>S<br>Ss-T | 8 min |
| **Guided discovery - Notice the passive** | To help learners discover passive focus and form before explicit grammar teaching. | T displays/points to "It was donated by UNESCO" and "They were borrowed three weeks ago" and one active/passive pair from p.73. Pairs underline the receiver/object, circle was/were and box the action word. T asks: "What comes first in the passive sentence?" "What happens to the verb?" "Where is the doer?" Pairs propose a simple rule in their own words. T accepts reasonable wording but does not yet give the full formula. | T-Ss<br>S-S<br>Ss-T | 11 min |
| **Mini active/passive check** | To check individual recognition of active and passive focus. | T reads four short sentences. Each learner independently shows A or P using a small card/fingers, then compares one answer with a partner. T asks two different learners to explain why one example is passive before confirming the answers. | T-Ss<br>S<br>S-S<br>Ss-T | 5 min |
| **Closure / Exit check** | To summarise Day 1 using learner-generated understanding. | Three different learners complete: "Active voice focuses on ___." "Passive voice focuses on ___." "One thing I noticed in passive sentences is ___." T briefly previews that Day 2 will build the formula from these observations. | S-T<br>T-Ss | 3 min |

**Day 2 - Date: _____ (40 minutes): Smart Board guided discovery, pair chits and Activity 7.2**

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **Lead-in / retrieval** | To reactivate Day 1 noticing before formalising the rule. | T displays "UNESCO donated the book." / "The book was donated by UNESCO." Without giving the rule, Ss identify the receiver, was, V3 and doer. Two learners explain what changed from active to passive. | T-Ss<br>Ss-T | 4 min |
| **Pre-task / Smart Board guided discovery** | To build and clarify the simple past passive formula from examples. | T displays three active/passive pairs from p.73. Pairs use the examples to complete a blank pattern on the board: _____ + was/were + _____ + (by + _____). Ss suggest the missing parts. T then confirms receiver/object + was/were + V3 + (by + doer), clarifies singular/plural choice and shows the five transformation steps and essential pronoun changes. Learners generate one new example before moving on. | T-Ss<br>S-S<br>Ss-T | 10 min |
| **Guided practice - Textbook model** | To apply the discovered rule with decreasing teacher support. | Using p.73, the class transforms the first example together. For the remaining examples, Ss first identify the object, was/were and V3 independently, then compare with a partner. T elicits learner explanations and clarifies that "by + doer" may be omitted when the doer is not important. | T-Ss<br>S<br>S-S<br>Ss-T | 6 min |

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **While-task 1 - Active-to-Passive Chits** | To practise transformation collaboratively with equal pair participation. | Pairs receive one active sentence chit (Appendix C). Learner A is the Transformer and writes the passive sentence; Learner B is the Checker and checks object position, was/were and V3 using the support strip. On the next chit they swap roles. Pairs exchange one answer with a neighbouring pair, explain any disagreement and self-correct before T highlights 2-3 common errors. | Ss-Ss<br>S-S<br>T-Ss | 8 min |
| **While-task 2 - Pupil's Book Activity 7.2** | To obtain individual evidence of accurate passive formation. | Each learner completes Activity 7.2 on p.74 independently. T monitors using Appendix G. Ss then compare with a partner, but must mark any change on their own work. T asks learners to explain selected answers before confirming the key and briefly addresses the most common was/were or V3 error. | S<br>S-S<br>Ss-T | 9 min |
| **Individual exit check** | To confirm the formula and one independent transformation. | T asks three different learners: one states the formula, one chooses was/were for a prompt, and one transforms "The mechanic repaired the bus." T records who needs support for Day 3. | S-T<br>T-Ss | 3 min |

**Day 3 - Date: _____ (40 minutes): Textbook and Workbook consolidation**

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **Lead-in / quick retrieval** | To retrieve the rule and diagnose common errors before extended practice. | T writes: "The book ___ written by Nisal." and "The pictures ___ painted by the teacher." Ss complete them individually on scrap/notebook, then compare. T also shows one incorrect form, "was wrote", and asks learners to correct it and explain why. | S<br>S-S<br>Ss-T | 4 min |
| **Pupil's Book Activity 7.3** | To transform historical-event sentences with increased independence. | Ss read the four active sentences on p.74. Each learner independently transforms the first two. Pairs compare and then complete the remaining items together. Selected learners explain how they chose the new subject and was/were before T confirms the answers. | S<br>S-S<br>Ss-T | 8 min |
| **Workbook Activity 2 - Sentence puzzle** | To reinforce passive word order through collaborative problem-solving. | In small groups/pairs, Ss arrange receiver + was/were + V3 + by + doer to form the four historical sentences. Roles are assigned (Reader / Arranger / Checker where group size allows) so all learners contribute. Groups compare one sentence with another group before teacher feedback. | Ss-Ss<br>Ss-T | 7 min |
| **Workbook Activity 1 - Individual practice** | To obtain individual evidence of correct passive completion. | Ss complete Workbook Activity 1 independently. T monitors irregular V3 forms and records brief individual evidence in Appendix G. Learners then peer-check, explain one correction and self-correct before T confirms the key. | S<br>S-S<br>T-Ss | 8 min |

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **Workbook Activity 3 - Independent → pair production** | To apply the full transformation with reduced scaffolding. | Each learner first converts two of the five active sentences independently. Pairs then compare and continue with the remaining items. T invites different learners to explain object position, was/were and V3. Faster learners complete all five; learners needing support use Appendix D. | S<br>S-S<br>Ss-T | 9 min |
| **Feedback / closure** | To analyse errors, self-correct and confirm achievement of the main outcomes. | T displays one correct model and two anonymous common errors collected during monitoring. Learners first correct them in pairs, then explain the correction. T revisits the success criteria and asks two individual learners to produce a final passive sentence from a new prompt. T notes learners who require further support. | S-S<br>Ss-T<br>S-T | 4 min |

**Assessment and feedback:**

Assessment is formative across all three periods and deliberately includes individual evidence. Day 1 checks active/passive recognition and vocabulary completion; Day 2 uses the individual Activity 7.2 and selected exit transformations; Day 3 uses Workbook Activity 1 and individual items from Activity 7.3/Workbook Activity 3. Pair/group work is used for explanation and rehearsal, but learners first attempt key items independently where possible. Peer checking is followed by self-correction before teacher confirmation. The teacher records brief evidence in Appendix G and gives focused feedback on recurring object-position, was/were and V3 errors.

**Appendix A - Colourful Smart Board Note: Passive Voice - Simple Past**

Display this note during the Day 2 grammar presentation. Learners copy only the formula, one example and the short pronoun list if time is limited.

# PASSIVE VOICE - SIMPLE PAST

Focus on the action or the receiver of the action

## 1. WHY DO WE USE IT?

Active voice focuses on who does the action. Passive voice focuses on the person or thing that receives the action.

## 2. FORMULA

**Object + was / were + V3 + (by + doer)**

**Singular -> was** **Plural -> were** **V3 = past participle**

## 3. FIVE EASY STEPS

1 Find the object.

2 Move the object to the front.

3 Choose was or were.

4 Change the verb to V3.

**5 Add by + doer when it is useful.**

## 4. EXAMPLES

**ACTIVE:** UNESCO donated the book.
**PASSIVE:** **The book was donated by UNESCO.**

**ACTIVE:** Nisal wrote the letter.
**PASSIVE:** **The letter was written by Nisal.**

**ACTIVE:** The teacher painted the pictures.
**PASSIVE:** **The pictures were painted by the teacher.**

## 5. REMEMBER

- Pronouns after by: I -> me | we -> us | he -> him | she -> her | they -> them
- Common V3 forms: write -> written | give -> given | take -> taken | build -> built
- If there is no object, we normally cannot make a passive sentence.

**Appendix B - Library Vocabulary Mini-Chart**

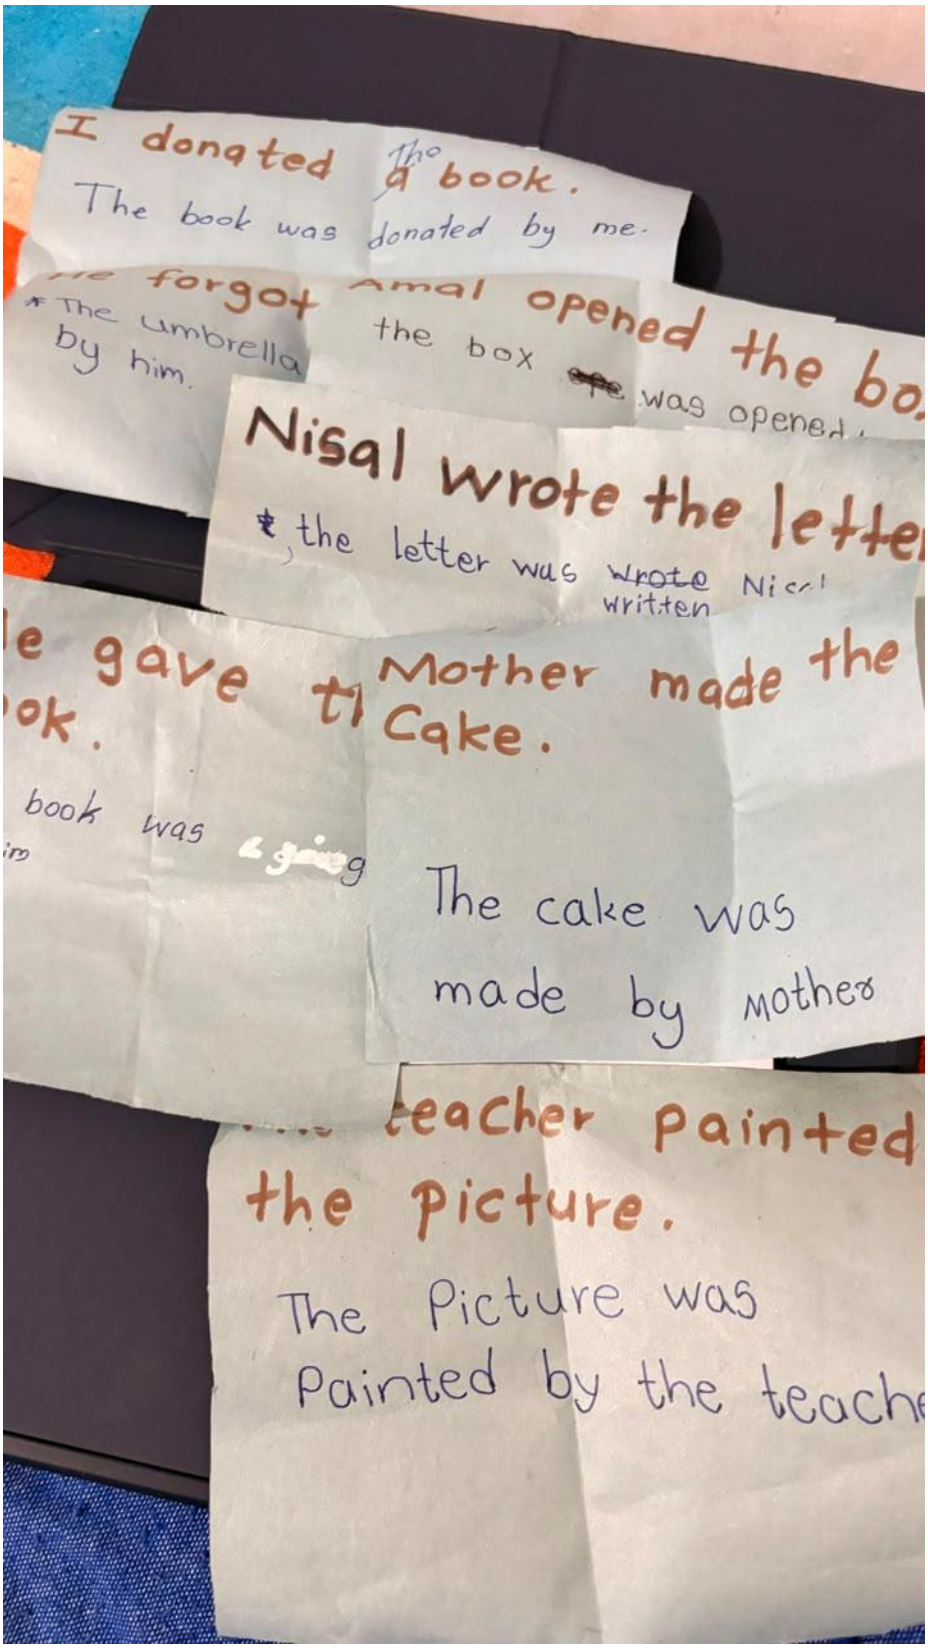

| Word | Very simple meaning |
|---|---|
| **borrow** | take something and give it back later |
| **return** | give it back |
| **overdue** | late; not returned on time |
| **fine / late fee** | money you pay because something is late |
| **reserve** | ask someone to keep something for you |
| **requested** | asked for something |

**Appendix C - Active-to-Passive Pair Chits**

Cut the boxes into separate chits. Give one active sentence to each pair. Use two roles: Transformer writes the passive form; Checker checks receiver/object position, was/were and V3. Learners swap roles on the next chit. Pairs then exchange one answer with another pair, explain any disagreement and self-correct before teacher feedback.

| | |
|---|---|
| **I donated a book.** | **Nisal wrote the letter.** |
| **Mother made the cake.** | **The teacher painted the picture.** |
| **He opened the box.** | **She gave him a book.** |
| **The mechanic repaired the bus.** | **A dog bit Ruvin last week.** |
| **My little brother broke a vase.** | **We sold all the goods.** |
| **The students cleaned the classroom.** | **The school celebrated Children's Day.** |

Example of the teacher-prepared active/passive chits used in class:

**Appendix D - Quick V1-V2-V3 and Pronoun Support**

| V1 | V2 | V3 |
|---|---|---|
| write | wrote | **written** |
| give | gave | **given** |

| | | |
|---|---|---|
| take | took | **taken** |
| build | built | **built** |
| break | broke | **broken** |
| bite | bit | **bitten** |
| sell | sold | **sold** |
| make | made | **made** |
| paint | painted | **painted** |
| repair | repaired | **repaired** |

**Pronouns after "by": I -> me | we -> us | you -> you | he -> him | she -> her | they -> them | it -> it**

**Appendix E - Pupil's Book Answer Key**

**Dialogue completion (p.72):**

• returned

• overdue

• late fee

• borrow

• requested

**Activity 7.2 (p.74):**

• It was painted recently.

• We were given two reading assignments.

• Heshan was awarded the trophy for the best batsman.

• The Children's Day was celebrated at our school yesterday.

• All the students were taken out to see a film.

**Activity 7.3 (p.74):**

• America was discovered by Christopher Columbus.

• The radio was invented by Guglielmo Marconi.

• The Ramayanaya was written by Valmiki.

• The pyramids were built by the ancient Egyptians.

**Appendix F - Workbook Answer Key**

**Activity 1**

• I was born in 2004.

• The classroom was cleaned by us in the morning.

• That picture was painted by Arun.

• That essay was written by Nelu.

• Oliver Twist was written by Charles Dickens.

• Rome was built in a day.

**Activity 2 - historical events**

• America was discovered by Christopher Columbus.

• The radio was invented by Guglielmo Marconi.

• The Ramayanaya was written by Valmiki.

• The pyramids were built by the ancient Egyptians.

**Activity 3**

• A vase was broken by my little brother.

• Ruvin was bitten by a dog last week.

• The bus was repaired by the mechanic yesterday.

• The table was set by me.

• All the goods were sold by us.

**Appendix G - Quick Formative Assessment Checklist**

| Learner | Identifies active/passive | Uses was/were | Uses V3 | Transforms independently |
|---|---|---|---|---|
| 1. | | | | |
| 2. | | | | |
| 3. | | | | |
| 4. | | | | |
| 5. | | | | |
| 6. | | | | |
| 7. | | | | |
| 8. | | | | |

**Appendix H - Pupil's Book and Workbook Reference Pages**

The following reference pages contain the Unit 7 dialogue, the simple past passive learning point, Activities 7.2-7.3 and the related Workbook activities used across the three periods.

UNIT 7

# THE WORLD OF CHILDREN

## Activity 7.1

### *Act out*

Hasini is at the library returning the books she has borrowed.

**Hasini:** I'm here to return these two books, please.

**Librarian:** Well, these books are overdue. There's a fine on these.

**Hasini:** Yes. **They were borrowed three weeks ago**. I'm sorry, I was down with the flu. How much is the fine?

**Librarian:** They were due on 23rd. That'll be thirty rupees.

**Hasini:** Here you are.

**Librarian:** Thank you. Are you borrowing any books today?

**Hasini:** Well, I'm looking for some information on children's festivals and games. Can you recommend any books?

*Pupil's Book p.71 - library dialogue.*

**Librarian:** We've got a new encyclopaedia. **It was donated by UNESCO* recently**. You'll find it in the reference section.

**Hasini:** Aren't there any new books?

**Librarian :** We have a good one called "Children of the World." Let me check.... No, we haven't got it at the moment. Someone has borrowed it.

**Hasini:** Can I reserve it?

**Librarian:** Of course. Then we can hold it for you.

**Hasini:** Thank you.

**Librarian:** You're welcome.

**UNESCO – The United Nations Educational, Scientific and Cultural Organization*

Read the dialogue and complete the sentences.

***late fee, returned, overdue, borrow, requested***

- Hasini ..... two books to the library.
- The books were three weeks .....
- Since the due date was past, she had to pay a .....
- Hasini wanted to ..... some books on children's festivals and games.
- Hasini ..... the librarian to hold a book for her.

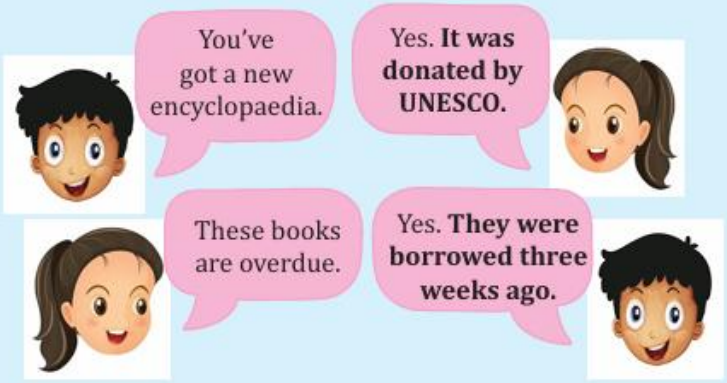

*Pupil's Book p.72 - dialogue continuation and vocabulary completion.*

LEARNING POINT

***Passive Voice – Simple Past Tense***

was/were + past participle

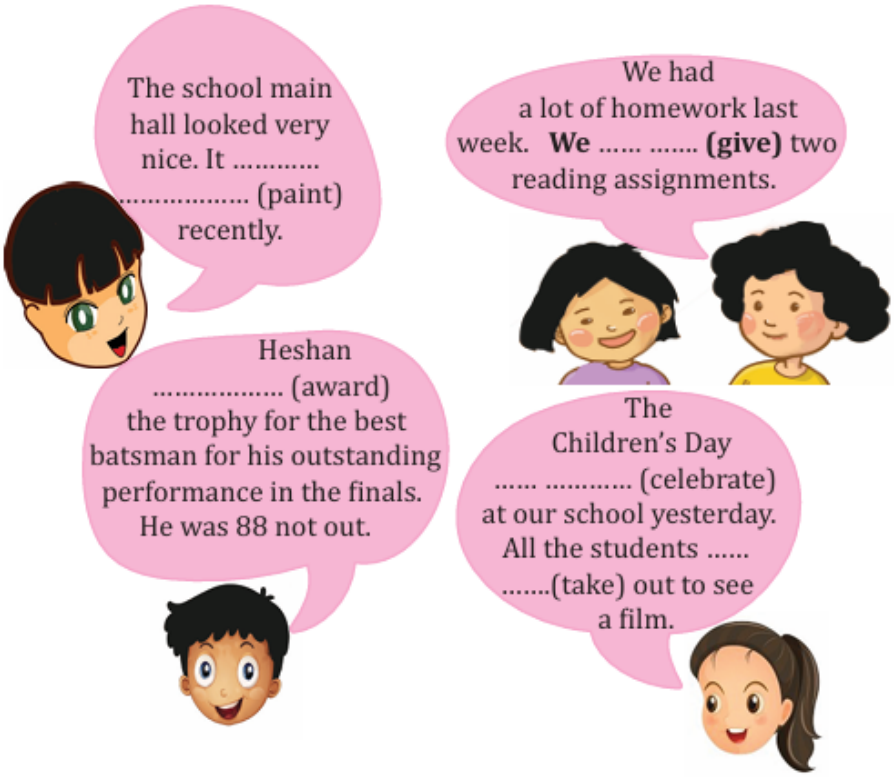

| | | | |
|---|---|---|---|
| Active | UNESCO | donated | the book |
| Passive | The book | was donated | by UNESCO |
| Active | Nisal | wrote | the letter |
| Passive | The letter | was written | by Nisal |
| Active | The teacher | painted | these pictures |
| Passive | These pictures | were painted | by the teacher |
| Active | They | gave | us presents |
| Passive | We | were given | presents (by them) |

*Pupil's Book p.73 - Passive Voice: Simple Past learning point.*

## Activity 7.2

Complete the sentences in the passive voice.

## Activity 7.3

### *Reading and Writing*

These historical events are written in the active voice. Rewrite them in passive voice using the table given in activity 2 in the Workbook.

| | | |
|---|---|---|
| ***1***. Christopher Columbus | discovered | America |
| ***2***. Guglielmo Marconi | invented | the radio |
| ***3***. Valmiki | wrote | the Ramayanaya |
| ***4***. The ancient Egyptians | built | the pyramids |

*Pupil's Book p.74 - Activities 7.2 and 7.3.*

# 7 THE WORLD OF CHILDREN

Activity 01

Complete the sentences using the passive voice past form.

- I …….. (born) in 2004.
- The classroom …….. (clean) by us in the morning.
- That picture ……..(paint) by Arun.
- That essay ……..… (write) by Nelu.
- *Oliver Twist* ……..….. (write) by Charles Dickens.
- Rome .....(build) in a day.

*Workbook Activity 1.*

Activity 02

The sentences given in the activity 7.3 of the Pupil's Book are written in active voice. Turn them into passive voice using the table given below.

| America | | |
|---|---|---|
| | was invented | |
| | | by Valmiki |
| | | the ancient Egyptians |

*Workbook Activity 2.*

Activity 03

Convert these active voice sentences to passive voice.

- My little brother broke a vase.

……..

……

- A dog bit Ruvin last week.

……

……

- The mechanic repaired the bus yesterday.

……

……

- I set the table.

……..

……

- We sold all the goods.

……

……

*Workbook Activity 3.*

| **Name of the lesson - "What Have You Got?" - Have Got / Has Got** | | | |
|---|---|---|---|
| **Name of the teacher** | HS/TE21/0027 | **Class** | 7 A<br>7 B<br>CEFR A1 |
| **Date and duration** | 15th October<br>40 minutes × 2<br>(40 minutes per parallel class) | **Number of students** | 29 - Grade 7A<br>29 - Grade 7B |
| **Technology Integration** | | Teacher phone + JBL speaker; Smart Board / colourful grammar chart (according to availability) | |

**Classroom profile:**

The lesson is designed for two parallel Grade 7 classes, 7A and 7B, with 29 students in each class. The learners follow the Sri Lankan national curriculum and are mixed-ability learners whose first language is Sinhala. They are approximately at CEFR A1 level and benefit from short instructions, familiar examples, repetition, movement and supported pair work. English is used as the main classroom language. The lesson develops have got / has got through meaningful interaction, guided discovery, a short technology-supported listening task, individual written practice and a communicative guessing game.

**Rationale:**

This 40-minute lesson follows a communicative, guided-discovery sequence. Learners first use Have you got...? naturally in a short Find Someone Who task. They then examine examples generated by their own classmates, notice which subjects take have got or has got, and suggest the pattern before the teacher confirms it. A short JBL listening task places the form in context. Individual written practice provides evidence of accuracy, followed by peer explanation and self-correction. The Ben 10 guessing game gives a meaningful reason to formulate Has he got...? questions, with speaking turns distributed across the teams. Individual exit responses provide a final check of learning.

**Curriculum alignment:**

Primary curriculum strand: Competency 6 - Uses English grammar for the purpose of accurate and effective communication. The lesson develops simple possessive statements, negatives and questions through have got / has got. The listening and speaking stages also support oral communication in familiar contexts.

**Main aim:**

To enable students to understand and accurately use have got / has got in positive sentences, negative sentences and questions to talk about possessions, family and personal characteristics.

**Intended Learning Outcomes:**

At the end of the lesson, students will be able to:

- Identify the subjects that take have got and the subjects that take has got. (Remembering)
- Explain the have/has pattern in simple language after comparing learner-generated examples. (Understanding)
- Construct simple positive and negative sentences using have got / has got. (Applying)
- Form and respond to Have you got...? / Has he/she got...? questions accurately. (Applying)
- Listen for specific details in a short description and record the required information. (Applying)
- Check a partner's response, explain one correction and self-correct after feedback. (Evaluating)
- Produce at least two accurate questions or statements about real or imagined people. (Creating)

**Success Criteria:**

- The learner selects have got / has got correctly in at least 4 out of 5 controlled items.
- The learner records at least 5 out of 7 listening statements correctly.
- The learner produces at least two accurate oral questions/statements using the target structure.

**Personal aims:**

- To let learners notice and verbalise the grammar pattern before teacher explanation.
- To give short, clear instructions and demonstrate each activity before learners begin.
- To use the JBL/Smart Board purposefully and keep technology secondary to interaction.
- To distribute oral turns so quieter learners also produce the target structure.
- To obtain individual evidence through the worksheet, listening grid and exit responses.
- To manage transitions so all stages fit realistically within 40 minutes.

Skill integration:

Speaking is the main productive skill. Listening is explicitly developed through the JBL audio task, while reading and short guided writing are integrated through the grids and worksheet.

| **Anticipated problems:** | **Solutions to anticipated problems:** |
|---|---|
| A. Students may confuse have got and has got.<br>B. Students may omit got or use has with I/you/we/they.<br>C. Learners may find the audio too fast on first listening.<br>D. Shy learners may hesitate during movement or the team game.<br>E. Confident learners may dominate the Ben 10 questions.<br>F. Whole-class responses may hide individual misunderstanding. | A. Use learner examples and keep a subject + have/has mini-grid visible.<br>B. Ask learners to notice and correct missing got in sample sentences.<br>C. Play the recording twice: first for gist, second for details.<br>D. Allow 20-30 seconds of rehearsal with a nearby partner before speaking.<br>E. Rotate questioners and require each learner to prepare one possible question before the team asks.<br>F. Use the individual worksheet and final individual exit responses as evidence. |

Assumptions:

• Students know common vocabulary for family members, pets, school items and everyday possessions.

• Students can recognise subject pronouns such as I, you, he, she, we and they.

• Students can follow short A1-level listening texts when played slowly and repeated.

• Students can work in pairs and participate in a short movement activity when instructions are clear.

Learning materials:

• Printed Find Someone Who grid - 29 copies per class (Appendix A).

• Colourful Have Got / Has Got grammar chart / board plan (Appendix B).

• Teacher phone with prepared audio and JBL speaker (Appendix C).

• Listening response grid - 29 copies per class (Appendix D).

• Combined controlled-practice worksheet - one per learner (Appendix E).

• Ben 10 team game question prompts and reveal image (Appendix F).

• Whiteboard and markers.

• Individual formative assessment checklist (Appendix G).

**Lesson Procedure - Date: _____ (40 minutes): Have Got / Has Got**

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **Lead-in / Find Someone Who** | To activate the target structure naturally and generate learner examples. | T gives each learner the Find Someone Who grid (Appendix A) and models only one question with a volunteer: “Have you got a pet?” Ss move around and ask classmates the questions. When time is up, T elicits 3-4 findings from different learners, e.g., “Nimal has got a bicycle.” These learner-generated sentences are kept on the board for the discovery stage. | T-Ss<br>Ss-Ss<br>Ss-T | 5 min |
| **Pre-task / Guided grammar discovery** | To help learners notice and explain the have/has pattern before teacher clarification. | T displays 3-4 sentences collected from the lead-in. In pairs, Ss underline the subject and circle have/has. T asks: “Which subjects use have got?” “Which use has got?” Pairs suggest the rule. T then confirms it using Appendix B and briefly contrasts haven’t got / hasn’t got and Have you got...? / Has he/she got...? Instead of repeating only, Ss generate one new example for I/you/we/they and one for he/she/it. | T-Ss<br>S-S<br>Ss-T | 9 min |

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **While-task / JBL listening** | To listen for gist and specific information while reinforcing the target structure in context. | T introduces “Meet Maya and Her Family.” First listening: Ss listen only and identify the general topic. Second listening: each learner completes the ✓/✗ grid in Appendix D independently. Pairs compare for 30 seconds and must explain one answer using a full sentence, e.g., “Maya has got a dog.” Ss self-correct before T confirms the key. | T-Ss<br>S<br>S-S<br>Ss-T | 8 min |
| **Controlled practice / Individual worksheet** | To obtain individual evidence of accurate positive, negative and question forms. | Ss complete Appendix E individually first. T monitors and records brief evidence using Appendix G. Then Ss compare with a partner, explain one disagreement and correct their own paper before T confirms answers. T highlights one common error rather than reading every answer for the class. | T-Ss<br>S<br>S-S<br>Ss-T | 8 min |

| Stage | Aim | Procedure | Interaction patterns | Time |
|---|---|---|---|---|
| **Post-task / Ben 10 team game** | To use Has he got...? questions communicatively with distributed participation. | T divides the class into Girls and Boys and says the hidden person is a cartoon character. Each learner first thinks of or writes one possible Has he got...? question. Teams alternate turns; T deliberately rotates questioners so different learners speak. T answers only yes/no. After several clues, a team may guess the character. When Ben 10 is revealed, learners produce two full statements from the clues, e.g., "He has got a watch." / "He hasn't got blue hair." | T-Ss<br>Ss-Ss<br>Ss-T | 7 min |
| **Closure / Individual exit check** | To consolidate the core pattern and obtain individual evidence of learning. | T points to I, she and they and asks three different learners to give a complete example rather than relying on a choral answer. Two further learners answer: "Have you got a school bag?" and "Has your friend got a pet?" T briefly corrects any common error and closes with the rule: I/you/we/they → have got; he/she/it → has got. | T-Ss<br>S-T | 3 min |

**Assessment and feedback:**

Assessment is formative throughout the lesson and includes clear individual evidence. Each learner produces responses in the listening grid and controlled worksheet before peer checking. The teacher records selected individual evidence in Appendix G, listens for accurate have/has + got forms during the Ben 10 game, and uses individual exit responses rather than only choral answers. Learners are given time to explain disagreements and self-correct before teacher confirmation. Success is judged against the stated success criteria.

**Appendix A - Find Someone Who Grid**

Learners move around the classroom and ask the questions. If a classmate answers “Yes”, write the learner’s name.

| **Find someone who...** | **Name** |
|---|---|
| 1. Have you got a pet? | |
| 2. Have you got a bicycle? | |
| 3. Have you got a smartwatch? | |
| 4. Have you got a sister? | |
| 5. Have you got a brother? | |
| 6. Have you got homework today? | |

**Appendix B - Colourful Grammar Chart / Board Plan**

Use this colourful grammar chart on the board or smart board when introducing have got / has got. It gives learners a clear visual summary of positive forms, negative forms, question forms and short answers.

# HAVE GOT / HAS GOT

**Appendix C - Technology-supported Listening: Audio Script**

Audio file: Have_Got_Has_Got_Listening_A1.wav. Play it from the teacher's phone through the JBL speaker. Play twice: first for general meaning, second for specific details.

**Listening script:**

Hello! My name is Maya. I have got a blue school bag and a small dog called Coco. My brother Sam has got a bicycle and a smartwatch, but he hasn't got a pet. My mother has got long black hair. My father has got a red car. We have got a small garden, but we haven't got a swimming pool. I like my family very much. Have you got a pet?

**Appendix D - Listening Response Grid**

Listen and write ✓ for YES and ✗ for NO.

| Statement | ✓ | ✗ |
|---|---|---|
| 1. Maya has got a blue school bag. | | |
| 2. Maya has got a cat. | | |
| 3. Sam has got a bicycle. | | |
| 4. Sam has got a pet. | | |
| 5. Maya's mother has got long black hair. | | |
| 6. Maya's father has got a red car. | | |
| 7. The family has got a swimming pool. | | |

**Answer key: 1 ✓, 2 ✗, 3 ✓, 4 ✗, 5 ✓, 6 ✓, 7 ✗.**

**Activity 2: Complete each sentence with the correct form of have got.**

1. My family is very large. I _____ three brothers and two sisters.
2. We do not know the time because we _____ a watch.
3. My older brother Ben _____ a new bicycle.
4. A: _____ you _____ a pencil? B: No, I _____.

**Appendix F - Ben 10 Team Guessing Game**

Divide the class into two teams: Girls and Boys. Tell learners the hidden person is a cartoon character. Before oral turns begin, each learner prepares one possible "Has he got ...?" question. Rotate questioners so quieter learners also speak. The teacher answers only yes/no. After several clues, a team may guess the character. At the end, reveal Ben 10 and ask learners to produce two complete statements from the clues.

Ask your partner about any two items. Then report one true fact about your partner.

| | | | |
|---|---|---|---|
| a watch | green eyes | black hair | a cousin |
| super powers | a white T-shirt | ten aliens | brown shoes |
| Team question frame: Has he got _____?<br>Possible answers: Yes, he has. / No, he hasn't.<br>Remember: the hidden character is Ben 10. | | | |

**Appendix G - Quick Formative Assessment Checklist**

Use quick ticks for individual learners while monitoring. This is a quick support record, not a formal mark sheet. Record at least one piece of evidence for learners who need further support.

| **Learner** | **Chooses have/has** | **Includes got** | **Listening 5/7+** | **Asks/answers accurately** |
